Hardcover, 9780873352239, 0873352238 Mineral Processing Plant Design, Practice, and Control (2 ... Geometallurgy relates to the practice of combining geology or geostatistics with metallurgy, or, more specifically, extractive metallurgy, to create a spatially or geologically based predictive model for mineral processing plants. It is used in the hard rock mining industry for risk management and mitigation during mineral processing plant design.
