Arden Shakespeare

The Journal of Business Ethics was founded by

Alex C. Michalos and Deborah C. Poff and published its first issue in March 1982. It is the most frequently cited business ethics journal in the world. The Journal has always offered a multi-disciplinary and international public forum for the discussion of issues concerning the interaction of successful business and moral virtue. Its authors and readers are primarily scholars and students in social sciences and philosophy , with special interests in the interaction of these disciplines with business or corporate responsibility. Since the field of business ethics grew simultaneously with the growth of the Journal, a collection of

its most cited articles is tantamount to a collection of the articles that had the greatest influence in defining the field over its first 30 years of development. In this anniversary volume, an overview of citation classics from the Journal is presented, the 33 most frequently cited articles are reproduced and brief reflections on the impact of the Journal on the field are given from over 100 scholars who authored citation classics and/or distinguished papers, as well as those who served on the Editorial Board and/or are recognized as leaders in the field.

In the aftermath of the Civil War, the West is invaded by hordes of bold, dangerous men. And with the railroad coming to Black Creek, Kansas, the town becomes a magnet to every whore, tinhorn, outlaw, and killer in the territory. A gang of human vultures, led by the shadowy, murderous Harvey Kidd, has started a bloody guerrilla war with the Union Pacific

Railroad, robbing payrolls, killing workers, and burning bridges. Black Creek is next on Kidd's list. Into this explosive mix rides human powder keg Dane Bowman, a mysterious stranger with a big iron on his hip. Lightning-fast and leather-tough, Bowman whipsaws outlaws and lawmen alike, taking on all comers, turning Black Creek into a corpse-strewn battleground. It all leads up to a showdown on Boot Hill that unleashes a bloody storm of lead destined to become a legend of the West.... an entrepreneurial emphasis Simon and Schuster

In the midst of the dramatic seventh-century war between two empires, Muhammad was a spiritual seeker in search of community and sanctuary. Many observers stereotype Islam and its scripture as inherently extreme or violent—a narrative

that has overshadowed the truth of its roots. In this masterfully told account, preeminent Middle East expert Juan Cole takes us back to Islam's—and the Prophet Muhammad's—origin story. Cole shows how Muhammad came of age in an era of unparalleled violence. The eastern Roman Empire and the Sasanian Empire of Iran fought savagely throughout the Near East and Asia Minor. Muhammad's profound distress at the carnage of his times led him to envision an alternative movement, one firmly grounded in peace. The religion Muhammad founded, Islam, spread widely during his lifetime, relying on soft power instead of military might, and sought armistices even when militarily

attacked. Cole sheds light on this forgotten history, reminding us that in the Qur'an, the legacy of that spiritual message endures. A vibrant history that brings to life the fascinating and complex world of the Prophet, Muhammad is the story of how peace is the rule and not the exception for one of the world's most practiced religions. *Retirement on the Line* Cengage Learning Introduction to Business covers the scope and sequence of most introductory business courses. This New York Times bestseller and stunning historical account of the forty-year battle between Comanche Indians and white settlers for control of the American West "is nothing short of a revelation...will leave dust and blood on your jeans" (The New York Times Book Review).  
Empire of the Summer

Moon spans two astonishing stories. The first traces the rise and fall of the Comanches, the most powerful Indian tribe in American history. The second entails one of the most remarkable narratives ever to come out of the Old West: the epic saga of the pioneer woman Cynthia Ann Parker and her mixed-blood son Quanah, who became the last and greatest chief of the Comanches. Although readers may be more familiar with the tribal names Apache and Sioux, it was in fact the legendary fighting ability of the Comanches that determined when the American West opened up. Comanche boys became adept bareback riders by age six; full Comanche

braves were considered the best horsemen who ever rode. They were so masterful at war and so skillful with their arrows and lances that they stopped the northern drive of colonial Spain from Mexico and halted the French expansion westward from Louisiana. White settlers arriving in Texas from the eastern United States were surprised to find the frontier being rolled backward by Comanches incensed by the invasion of their tribal lands. The war with the Comanches lasted four decades, in effect holding up the development of the new American nation. Gwynne's exhilarating account delivers a sweeping narrative that encompasses

Spanish colonialism, the Civil War, the destruction of the buffalo herds, and the arrival of the railroads, and the amazing story of Cynthia Ann Parker and her son Quanah—a historical feast for anyone interested in how the United States came into being. Hailed by critics, S. C. Gwynne's account of these events is meticulously researched, intellectually provocative, and, above all, thrillingly told. Empire of the Summer Moon announces him as a major new writer of American history.

In an era when people live longer and want (or need) to work past the traditional retirement age, the Vita Needle Company of Needham, Massachusetts, provides inspiration and important lessons about the value of older workers. Vita Needle is a family-owned factory that was founded in 1932 and makes needles, stainless steel tubing and pipes, and custom fabricated parts. As part of its unusual business model, the company seeks out

older workers; the median age of the employees is seventy-four. In *Retirement on the Line*, Caitrin Lynch explores what this unusual company's commitment to an elderly workforce means for the employer, the workers, the community, and society more generally. Benefiting from nearly five years of fieldwork at Vita Needle, Lynch offers an intimate portrait of the people who work there, a nuanced explanation of the company's hiring practices, and a cogent analysis of how the workers' experiences can inform our understanding of aging and work in the twenty-first century. As an in-depth study of a singular workplace, rooted in the unique insights of an

anthropologist who specializes in the world of work, this book provides a sustained focus on values and meanings-with profound consequences for the broader assumptions our society has about aging and employment.

South Western Educational Publishing  
Most small businesses cite lack of capital is a major constraint on growth. "Raising Capital" focuses on non-bank sources of capital since banks only lend to companies that fit a very narrow profile. The topics covered include: (i) capital sources

entrepreneurs can tap when they are too small or unusual for banks, (ii) angel investors and venture capital, (iii) where to look for angels, venture capitalists and other capital sources, (iv) how to pitch your company and close the deal, (v) deal terms and issues that arise when negotiating a deal, (vi) going public through an IPO or little known small public offerings, (viii) asset based lenders, and (ix) other financing vehicles including: bond, commercial paper, PIPEs and securitization. The scope of the book ranges from capital for entrepreneurs who have little more than an idea, to capital for top rated companies.
