KORBIN CARDENAS

A Novel Megan Tingley Books
Five friends. Five cities. Two complicated love stories . . . The perfect read for fans of Jennifer E Smith and Sara Barnard. Aubrey and Rae have been planning their European tour since the moment they met. It was meant to be the perfect way to spend their last summer together before university, but now it's not just the two of them . . . There's Jonah, Aubrey's seemingly perfect boyfriend, and Gabe, who Aubrey may have accidentally kissed. Then there's Clara,

the friend Rae is crushing on, hard, even though there's no hope because Clara is into guys, not girls. And on top of all that Aubrey and Rae's friendship appears to be falling apart. Things are more complicated at eighteen than they were at ten. Set off on a romantic adventure that embraces warm summer nights, the thrill of first kisses and the bittersweet ache of saying goodbye to the past.

A Cat, a Hat, and a Piece of String
Simon and Schuster

Neuroscientist V.S. Ramachandran is internationally renowned for uncovering answers to the deep and quirky questions of human nature that few scientists have dared to address. His

bold insights about the brain are matched only by the stunning simplicity of his experiments -- using such low-tech tools as cotton swabs, glasses of water and dime-store mirrors. In *Phantoms in the Brain*, Dr. Ramachandran recounts how his work with patients who have bizarre neurological disorders has shed new light on the deep architecture of the brain, and what these findings tell us about who we are, how we construct our body image, why we laugh or become depressed, why we may believe in God, how we make decisions, deceive ourselves and dream, perhaps even why we're so clever at philosophy, music and art. Some of his most notable cases: A woman paralyzed on the left side of her body who believes she is lifting a tray of drinks with both hands offers a unique

opportunity to test Freud's theory of denial. A man who insists he is talking with God challenges us to ask: Could we be "wired" for religious experience? A woman who hallucinates cartoon characters illustrates how, in a sense, we are all hallucinating, all the time. Dr. Ramachandran's inspired medical detective work pushes the boundaries of medicine's last great frontier -- the human mind -- yielding new and provocative insights into the "big questions" about consciousness and the self.

Reckless, charming, and backed by Rouillard money, Gray controlled the town of Prescott -- and Devlin was a name he never wanted to hear again. Finding Happily-Ever-After iUniverse
Connie Brockway's novel of unexpected love begins with a series of letters between a world-weary adventurer and the beautiful suffragette whose passion calls him home. "Dear Mr. Thorne, For the next five years, I will profitably manage this estate. I will deliver to you an allowance and I will prove that women are just as capable as men." Lillian Bede is shocked when she is

tapped to run the affairs of an exquisite country manor. But she accepts the challenge, taking the opportunity to put her politics into practice. There's only one snag: Lily's ward, the infuriating, incorrigible globe-trotter Avery Thorne. "My Dear Miss Bede, Forgive me if I fail to shudder. Pray, do whatever you bloody well want, can, or must." Avery's inheritance is on hiatus after his uncle dies—and his childhood home is in the hands of some domineering usurper. But when he finally returns, Avery finds that his antagonist is not at all what he expected. In fact, Lily Bede is stunning, exotic, provocative—and impossible to resist. Includes a special message from the editor, as well as excerpts from other Loveswept titles.

Jane Austen among Women Delacorte Press

"At long last, a discussion of plagiarism that doesn't stop at 'Don't do it or else,' but does full justice to the intellectual interest of the topic!" ---Gerald Graff, author of *Clueless in Academe* and 2008 President, Modern Language Association This collection is a timely intervention in national debates about what constitutes original or plagiarized writing in the digital age. Somewhat ironically, the

Internet makes it both easier to copy and easier to detect copying. The essays in this volume explore the complex issues of originality, imitation, and plagiarism, particularly as they concern students, scholars, professional writers, and readers, while also addressing a range of related issues, including copyright conventions and the ownership of original work, the appropriate dissemination of innovative ideas, and the authority and role of the writer/author. Throughout these essays, the contributors grapple with their desire to encourage and maintain free access to copyrighted material for noncommercial purposes while also respecting the reasonable desires of authors to maintain control over their own work. Both novice and experienced

teachers of writing will learn from the contributors' practical suggestions about how to fashion unique assignments, teach about proper attribution, and increase students' involvement in their own writing. This is an anthology for anyone interested in how scholars and students can navigate the sea of intellectual information that characterizes the digital/information age. "Eisner and Vicinus have put together an impressive cast of contributors who cut through the war on plagiarism to examine key specificities that often get blurred by the rhetoric of slogans. It will be required reading not only for those concerned with plagiarism, but for the many more who think about what it means to be an author, a student, a scientist, or anyone who negotiates and

renegotiates the meaning of originality and imitation in collaborative and information-intensive settings." ---Mario Biagioli, Professor of the History of Science, Harvard University, and coeditor of *Scientific Authorship: Credit and Intellectual Property in Science* "This is an important collection that addresses issues of great significance to teachers, to students, and to scholars across several disciplines. . . . These essays tackle their topics head-on in ways that are both accessible and provocative." ---Andrea Lunsford, Louise Hewlett Nixon Professor of English, Claude and Louise Rosenberg Jr. Fellow, and Director of the Program in Writing and Rhetoric at Stanford University and coauthor of *Singular Texts/Plural Authors: Perspectives on Collaborative Writing*

Domestic Manners of the Americans

This book provides an overview of

theoretical thinking about the communicative scope of emotional expressions as well as an overview of the state of the art research in emotional psychology. For many years, research in emotional psychology has been primarily concerned with the labeling of emotion expressions and the link between emotion expressions and the expresser's internal state. Following recent trends in research devoting specific attention to the social signal value of emotions, contributors emphasize the nature of emotion expressions as information about the person and the situation, including the social norms and standards relevant to the situation. Focusing on the role of emotion expressions as communicative acts, this timely book seeks to advance a line of theoretical

thinking that goes beyond the view of emotion expressions as symptoms of an intrapersonal phenomenon to focus on their interpersonal function. The Social Nature of Emotion Expression will be of interest to researchers in emotional psychology, as well as specialists in nonverbal behavior, communication, linguistics, ethology and ethnography.

The Italian Silhouette

This groundbreaking study explores the later lives and late-life writings of more than two dozen British women authors active during the long eighteenth century. Drawing on biographical materials, literary texts, and reception histories, Devoney Looser finds that far from fading into moribund old age, female literary greats such as Anna Letitia Barbauld, Frances Burney, Maria

Edgeworth, Catharine Macaulay, Hester Lynch Piozzi, and Jane Porter toiled for decades after they achieved acclaim -- despite seemingly concerted attempts by literary gatekeepers to marginalize their later contributions. Though these remarkable women wrote and published well into old age, Looser sees in their late careers the necessity of choosing among several different paths. These included receding into the background as authors of "classics," adapting to grandmotherly standards of behavior, attempting to reshape masculinized conceptions of aged wisdom, or trying to create entirely new categories for older women writers. In assessing how these writers affected and were affected by the culture in which they lived, and in examining their varied reactions to the

prospect of aging, Looser constructs careful portraits of each of her Subjects and explains why many turned toward retrospection in their later works. In illuminating the powerful and often poorly recognized legacy of the British women writers who spurred a marketplace revolution in their earlier years only to find unanticipated barriers to acceptance in later life, Looser opens up new scholarly territory in the burgeoning field of feminist age studies. *Trifles* University of Chicago Press

When high school senior Paul Wagoner walks into his school library with a stolen gun, he threatens his girlfriend Emily Beam, then takes his own life. In the wake of the tragedy, an angry and guilt-ridden Emily is shipped off to boarding school in Amherst, Massachusetts, where

she encounters a ghostly presence who shares her name. The spirit of Emily Dickinson and two quirky girls offer helping hands, but it is up to Emily to heal her own damaged self. This inventive story, told in verse and in prose, paints the aftermath of tragedy as a landscape where there is good behind the bad, hope inside the despair, and springtime under the snow.
