look at
astrology. It is
simple to
understand,
yet remains a
powerful tool,

capable of providing a solid foundation for the comprehension of this broad and magnificent subject. This textbook, like most of Dr. Baker's printed books, eBooks and DVDs, enhances your studies via many charts, lists, tables and images (over 100 in this one). This major work is a very comprehensive introduction for those who want to study this subject in earnest, and for the more

advanced student it will serve as an essential reference manual. In today's computer-based world it is no longer necessary to spend hours calculating a horoscope when the most modest PCs can do it in seconds, and with 100% accuracy! Consequently the needless paraphernalia, usually associated with learning astrology, has been stripped away. Emphasis is placed on the

application of astrology to the unique problems of the modern world, its use as a method of revealing purpose and meaning in life, and ultimately as a key to the psychosynthesis of personality. The horoscope is described in comprehensive detail, with special attention given to the esoteric ruling planets of the zodiac signs, which are more relevant than orthodox rulers in the charts of spiritually-

minded people. The new rulers also accommodate the immense changes in external conditions and inner consciousness that have occurred in the last hundred years and are related to a new range of experience which the brain registers as the external of the modern world. The significance of karma is represented for it gives dramatic effect to our daily actions, and the third

factor of esoteric psychology, lying beyond our understanding of heredity and environment, is given full prominence. This integrative and enriching work can be read alone, as a fascinating introduction and foundation to the New Astrology, or can be followed up with the author's extensive range of astrological books and video tapes, audio lectures

and the all-embracing Dictionary of Astrology for the 21st Century. Together they provide a complete system for the professional and novice alike, containing efficient and extraordinary techniques of interpretation which have never been used before and which halve the time required to assimilate and practise astrology. A special note to eBook readers: This volume contains a

large amount of astrological glyphs embedded within the text. The sales page “preview” might not be able to show these but your reading device will as long as you leave the “Font” settings at “Original” or “Publisher Font”. Author House The aim of this book is to introduce students of astrology to an approach that will make horoscopy's conventional techniques useful to those who come to astrology looking for spiritual guidance. This is not about learning a new astrological language, but rather how to give a different application to the familiar techniques of Western horoscopy. Understanding the natal chart is

recommended to complete beginners, those wishing to structure patchy knowledge, and those already competent in horoscopy who are in search of a more esoteric approach to see the way forward.

The Theory, Interpretation and Practice of Esoteric Astrology

Baker eBooks Publishing
The science of esoteric astrology is said to be the basic occult science for the future. It will

come into its own as the esoteric or soul factors begin to supersede the exoteric focus of the vast majority of professional and amateur astrologers today. This is the science which deals with those conditioning and governing energies and forces which play through and upon the whole field of space and all that is found within that field. The Ancient Wisdom teaches that Space is an entity. It is

with the life of this entity and with the forces and energies, the impulses and the rhythms, the cycles and the times and seasons, that esoteric astrology deals. Esoteric astrology can be applied by the trained worker in a variety of ways; in medicine, psychology, science, education; to an evaluation of human problems, of the destiny of nations, of a correct interpretation of world affairs, and so

on. It is necessary, however, that at this stage the application of esoteric astrology to human life should be recognised as experimental and tentative, so that each individual worker can adjust his thinking and his methods according to his own wrought-out experience. to work depend entirely on a consciousness evolving out of control by the personality into the life of the soul, out

of separateness and self-centredness into a realisation of unity, and absorption into a centre of group consciousness . Astrology is described in this book as the science of relationships - the relationship existing between all living organisms within the universe. Not only the qualities of the ray energies affect these centres of consciousness , but also the

quality and energy of the ruling planets and the zodiacal signs. Seen from the esoteric outside, astrology is a vast and most involved and complex subject. From the esoteric inside, while it is still vast, all-inclusive and complex, it is also possible to perceive the thread which unites and the pattern which prevails throughout the whole system. A basic simplicity in the grand design

emerges, therefore, which can serve to interpret the whole. study: (1) The Zodiac and the Rays (2) The Nature of Esoteric Astrology (3) The Science of Triangles (4) The Sacred and Non-Sacred Planets (5) Three Major Constellations (6) The Three Crosses (7) The Rays, Constellations and Planets. In addition there is an appendix which summarises and tabulates many of the factors of fundamental

importance to the study of esoteric astrology. This is a book for the true occult student. It may appear to be too highly specialised for some; but every esoteric worker finds eventually that his work requires an understanding of the basic astrological factors which affect all relationships and all forms of life within the ethers of space, so that he may learn how to cooperate intelligently in the evolution of the whole

by the right adjustment of the part within that whole; until eventually the many are absorbed into the One. The books of Alice A. Bailey, written in cooperation with a Tibetan teacher between 1919?1949, constitute a continuation of the Ageless WisdomCa body of esoteric teaching handed down from ancient times in a form which is always suitable to each period. writings offer

an unparalleled spiritual approach to such subjects as the teaching on Shamballa and the Path of spiritual evolution; the spiritual Hierarchy; the new discipleship and training in meditation as a form of service; the teaching on the seven rays and the new psychology of the soul; the teaching on esoteric astrology; and the new world religion, which emphasizes the common thread of truth

esoteric aspects. Traditional practitioners often failed to defend the veracity of the subject and dispel the scepticism of modern intellectuals. The ancient revelations have been restated here to meet contemporary requirements. The ancient seers presented Vedic Astrology under various assumptions and in allegorical and symbolic languages. They assumed polydimension

al extension of human consciousness which was closely related with planetary impulses. Apart from the general approach to this ancient science, the study presents in depth the astrological description of the nature of man. It also provides deeper implications of various planetary combinations. Advanced practitioners as well as general readers will find the book informative, illuminating

and highly rewarding. Esoteric Astrology Simon and Schuster 2013 Reprint of 1950 Third Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Volume One Only. The books of Alice A. Bailey, written in cooperation with a Tibetan teacher between 1919 and 1949, constitute a continuation of the Ageless Wisdom--a body of esoteric

teaching handed down from ancient times in a form which is always suitable to each period. Intended to precede and condition the coming era, the Alice A. Bailey writings offer an unparalleled spiritual approach to such subjects as the teaching on Shamballa and the Path of spiritual evolution; the spiritual Hierarchy; the new discipleship and training in meditation as a form of

service; the teaching on the seven rays and the new psychology of the soul; the teaching on esoteric astrology; and the new world religion, which emphasizes the common thread of truth linking all the major world faiths. Five volumes have been written under the overall title of "A Treatise on the Seven Rays." This sequence of books is based on the fact, the nature and the quality of the seven basic streams of

energy pervading our solar system, our planet and all that lives and moves within its orbit. Of the specialized subjects presented in these books, two volumes are concerned with esoteric psychology - the first in relation to basic energy patterns and structures; the second particularly applied to the soul and the personality of man and to the working out of the Plan for humanity. Psychology is defined in

Webster's Dictionary as "the science of mind," at one time considered a branch of metaphysics. Today we are more inclined to include all the conditioning subjective factors as psychological in nature - mental and emotional impulses and soul contact, to whatever degree it exists. These subjective influences constitute the whole psychological background to a man's attitudes and

behaviour, and create the faculty of spiritual response. The "psyche" is, after all, the human soul, the centre of consciousness . Esoteric psychology begins with a consideration of the human being as a soul, manifesting in the form of a personality, consisting of mental, emotional and etheric/physical substance, and more or less in contact and control, depending on the stage of evolution in the

personality consciousness . From the point of view of esoteric psychology, evolution is the evolution of consciousness , by which the imbedded fragment of the soul within the personality progressively identifies its spiritual source and becomes at-one with it. The seven differentiated streams of ray energy play a significant role in this evolutionary process. A blend of five energies in a

human being determine his goals, his problems, his available qualities and energy resources, and the correct method by which - according to his dominant ray influence - he may unfold his consciousness and make spiritual progress. In this volume of Esoteric Psychology many of these distinctive ray qualities and methods are given as quotations, or interpretations , of "The Old Commentary"

put into poetic and symbolic words. The seven rays are shown as the Seven Creative Builders, each one imbued with purpose and power, functioning together as a synthesis in occult obedience to the purposes of our Solar Logos. Such a detailed and comprehensive study of the ray energies influencing our planetary life and all kingdoms in nature is of inestimable value to the aspirant consciously

preparing himself to become of planetary service as he learns to serve and to unite with his fellowmen.

ASTROLOGY - VOL. 6
Colloquialisms and Clichés By Dr. Douglas M. Baker This volume is a unique dictionary of permutations in the form of colloquial sayings and clichés, translated into their astrological equivalents. A very valuable reference work for those interpreting astrological charts. The modes of expressing a language may indicate powerful subjective forces at play deep in the

unconscious structure of the Race using that language. This is particularly true of English which has become the international language, for reasons not entirely connected with political developments. The virility of the Anglo-Saxon sub-race is based largely on esoteric foundations as anyone will soon find if he studies a simple handbook of Theosophy. Idiomatic language reflects the

character of the people expressing it and releases numinous energies from their unconscious. Anyone who understands the significance of the mantram, of invocations and words of power will quickly apprehend the energies that lie packaged with proverbs, which themselves are surfacings of racial wisdom. Energy and meaning underlie words as much as they do images and

thoughts. Equally so, the incessant use of certain phrases exhausts their associate energies and degrades them to the level of shallow inanities which we call clichés. The cliché is resorted to by those who are in a hurry to express something or who are mentally lazy or ill-equipped in the language itself. Their frequent usage "shows him up" (cliché), and anyone

watching television in which an interview is suddenly thrust upon a trade union leader knows what this does for the latter's image (I choose my words with care). Phrases like "at this moment in time" and other banalities such as "the point is" render the interview a farce, and its impact becomes negligible. Nevertheless, the cliché does indicate that the Race is trying to

express again and again certain elements of its unconscious. By allocating appropriate astrological glyphs to the cliché being expressed, we can soon come to recognise the qualities of those underlying archetypes. This is as true for the individual as it is for the Race. Collective unconscious —→ Archetypes Deep (racial) unconscious —→ Myth, legend and fable

Individual's Soul's purpose —→ Precepts Superficial (racial) unconscious —→ Proverbs Individual's personal —→ cliché, unconscious conversationism & colloquialism By correlating any of the above with the appropriate astrological aspect for it, related meanings and energies lying deeply or superficially in the native's unconscious or openly in his personality are quickly

revealed. The deeper structures, when they are related through their astrological aspect directly to the Rising Sign and its esoteric ruler, etc., are indicative of the native's Soul's purpose. Permutations of any aspect reveal meanings covering the whole range of a person's nature, from the level of his Soul right through to the components of his personality, from psyche and Self to

ego. Douglas M. Baker England, April 1980

Transitional
Astrology is a book about context. That context is the Universe, in which we take our place and find our purpose. The knowledge, the Ageless Wisdom, is as old as Man; the structures are those of Esoteric Astrology, written by Master D.K. through Alice Bailey. This work aims to work shows how these esoteric perspectives can be made to enhance the role of

orthodox
astrology as a spiritual tool, and encourages the idea that when we can see our place in the larger scheme, we will have a better understanding of our potential, collectively and individually, and of how to use life and time wisely. esoteric rulers of the Signs of the Zodiac as demonstrated in esoteric astrology. The development of the computer has made the horoscope available to the millions, and it is but a matter of time before the same computers begin to sieve out the “real from the unreal.” In the end, however, the real is only discovered within, and the fullest exposition of esoteric astrology gives the keys to such

discoveries within and their correlation to wide and more universal principles. To ignore the individual horoscope is to leave astrology, esoteric or exoteric, with feet of clay. What this writing represents is a wiser and more psychosynthetic interpretation of the horoscope. Thus, providing the interpreter views the horoscope from a point of

higher synthesis, the most accurate interpretation of a personality matter may be gauged from particular astrological aspects. Bailey herself, or the Tibetan Master through her, gave the key to the psychosynthetic approach by allocating esoteric rulerships to the Signs for Man on the Path and a further set of rulers, called “hierarchical”, which apply to those disciples who are

initiate and engaged in the work of the Hierarchy of this planet, as it implements the Divine Plan for the Earth. We are all at different stages - are currently stationed either at the "Body" or personality level in consciousness , or at the "Soul" or "Spirit" stages. This book carefully catalogues these psychological

developments in each of the 12 signs and houses. It clearly describes how consciousness expresses itself when it is engrossed with the material world (Body), when it is wise and loving (Soul) and when it has become a World Server (Spirit). Clearly laid out, readers will find it easy to figure out where they stand on the Path of Spiritual Development. Practical suggestions are made throughout

the book to help bring about the required transformation in consciousness. The "Astrology of Spirit, Soul and Body" is an astrological guide-book for the transformation of consciousness, that is practical and very useful for those who are aspiring to something higher and finer. In this 1914 guide, Leo explains, in easy-to-understand language, the basic symbology that underlies the reading of the zodiac: the many aspects of the circle that can represent the solar system, the sun, and the moon; the cross, expressing the creative power of life and the physical body; the basic signs that signify each of the houses of the zodiac and each of the
