### TRISTEN MAXWELL

#### Heroes of the Struggle

Ateneo University Press  
From the 1960s to the 1990s, seven members of the Quimpo family dedicated themselves to the anti-Marcos resistance in the Philippines, sometimes at profound personal cost. In this unprecedented memoir, eight siblings (plus one by marriage) tell their remarkable stories in individually authored chapters that comprise a family saga of revolution, persistence, and, ultimately, vindication, even as easy resolution eluded their struggles. *Subversive Lives* tells of attempts to smuggle weapons for the New People's Army (the armed branch of the Communist Party of the Philippines); of heady times organizing uprisings and strikes; of the cruel discovery of one brother's death and the inexplicable disappearance of another (now believed to be dead); and of imprisonment and torture by the military. These stories show the sacrifices

and daily heroism of those in the movement. But they also reveal its messy legacies: sons alienated from their father; daughters abused by the military; friends betrayed; and revolutionary affection soured by intractable ideological differences. The rich and distinctive contributions span the martial law years of Ferdinand Marcos's rule. *Subversive Lives* is a riveting and accessible primer for those unfamiliar with the era, and a resonant history for those with a personal connection to what it meant to be Filipino at that time, or for anyone who has fought political repression.

Silme and Gene were only twenty-nine at the time they were murdered in 1981. They had spent ten years reforming cannery workplaces, where bosses and mob-related union foremen were resistant to change. Both college educated activists, they angered many inside and outside the Filipino community because of their forceful, open fight for union reform and against the corruption taking place in the Philippines under the Marcos regime.

Politicos Pub  
This book was how Nemesio E. Prudente came to be known from 1962, when Pres. Diosdado Macapagal appointed him president of Philippine College of Commerce, a school so obscure he did not know where it was. The 35-year-old Doc said PIC had been "treated like a street child" neglected and poor.

"This is a bold project recording the lives of a particular group of Southeast Asians. Most of the people whose biographies are included

here have settled down in the ten countries that constitute the region. Each of them has either self-identified as Chinese or is comfortable to be known as someone of Chinese ancestry. There are also those who were born in China or elsewhere who came here to work and do business, including seeking help from others who have ethnic Chinese connections. With the political and economic conditions of the region in a great state of flux for the past two centuries, it is impossible to find consistency in the naming process. Confucius had stressed that correct names make for the best relationships. In this case, Professor Leo Suryadinata has been pursuing for decades the elusive goal of finding the right name to give to the large numbers of people who have, in one way or another, made their homes in, or made some difference to, Southeast Asia. I believe that, when he and his colleagues selected the biographies to be included here, they have taken a big step towards the rectification of identities for many leading personalities. In so doing, he has done us all a great service." -

"As a journalist grief coach and mother who lost a child, (the author) accompanies the mothers with deep compassion. She journeys with them not only with feeling, but also with a clear understanding of the grieving... This book can serve as a good guide for grieving mothers and their families, and all those who want to help them." — Ma. Lourdes A. Carandang, MD

Recent times have seen a worldwide human urge to remember and speak about even the most painful moments of authoritarian regimes, using the memory process for both healing and learning. In this first book on the Ateneo de Manila during martial law, we re-live memories of the university from 1972 to 1982, shedding light on what used to be whispered stories of campus subversion and student arrests. The essays in this book deal with the student movement in the late 1960s and early 1970s, and then with actions,

conflicts, and unities within the school. Subsequent chapters cover student publications, organizations, and ideological involvements. Other sections of the book highlight the participation of faculty, administration, social development professionals, and the Jesuit community in university activism. The last chapter serves as an epilogue, linking the deepening social involvement of the Ateneo of the 1970s with the political struggles of the early 1980s. The book also contains vignettes from former students, faculty, administrators, professionals and Jesuits who write about their memories of the period. Some relevant documents which are cited in the book and mark the era, but which are often difficult to access, have also been assembled as appendices.

Drawing on entries from Ferdinand Marcos's secret daily journals, a journalist explores the mind of the dictator, from the height of his power in the late 1960s, through his growing unpopularity and intrigues, to his final collapse.

Subversive Action

presents cases that explore the use of extralegal action undertaken in pursuit of human rights and social justice, and locate that action with reference to the boundaries of social work. Definitions of social work often include goals of social change, social justice, empowerment, and the liberation of people, but social work texts make little mention of extralegal actions. Mainstream conceptions of social work usually consider it to fall within the framework of particular legal and societal contexts. As such, it is presented with boundaries for legitimate action even as it espouses principles that may require it to challenge these boundaries. How does one do social work in

legal and societal contexts that challenge these principles with institutional and state-mandated exclusion and discrimination? Should social workers simply act within the bounds of the law in line with their professional sanction and mandate? Do their actions qualify as social work if they are beyond the limits of the law? The essays in this volume, by authors from around the world, raise these questions by providing a basis for reflection about the claims we make in social work embodied in discourses on social justice and human rights.

There is extraordinary diversity, depth, and complexity in the encounter between theatre, performance, and human rights. Through an examination of a rich repertoire of plays and performance practices from and about countries across six continents, the contributors to this volume seek to open the way toward understanding the character and significance

of this encounter. Divided into three interrelated sections, the book focuses on a range of critical and timely human rights questions as they relate to transitional justice, memory politics, citizenship, the 'War on Terror,' transnational spectatorship, and the global economic order. Authors ask what artists, audiences and readers imagine, expect, and desire from the engagement of theatre and performance with these crucial questions. Ultimately, this book aims to provide nuanced, global perspectives on the emerging and transformative aesthetics, ethics and effects of this encounter at the turn of the twenty-first century.
