Add some kindness to your Easter baskets with Jan Brett's beloved Easter tale If Hoppi can make the best Easter egg, he will get to help the Easter Bunny with his deliveries on Easter morning. But it is not so easy. Discouraged, he goes into the woods to think when a blue robin's egg tumbles out of its nest. Hoppi keeps it safe and warm until the baby bird hatches. When the Easter Bunny arrives and Hoppi presents the empty blue eggshell, the Easter Bunny declares it the very best one to reward Hoppi for his kindness. Spring is everywhere in gorgeous illustrations framed with pussy willows, flowering vines and flowers. Side borders feature busy rabbits making their unusual eggs and, in a border above, the Robin's family drama unfolds. Jan Brett's lovable bunny hero and her remarkable Easter Bunny will enchant young readers.

"If you've been looking for something different to level up your health, fitness, and personal growth, this is it."—Melissa Urban, Whole30 CEO and New York Times bestselling author of *The Book of Boundaries* "Michael Easter's genius is that he puts data around the edges of what we intuitively believe. His work has inspired many to change their lives for the better."—Dr. Peter Attia, #1 New York Times bestselling author of *Outlive* Discover the evolutionary mind and body benefits of living at the edges of your comfort zone and reconnecting with the wild—from the author of *Scarcity Brain*, coming in September! In many ways, we're more comfortable than ever before. But could our sheltered, temperature-controlled, overfed, underchallenged lives actually be the leading cause of many our most urgent physical and mental health issues? In this gripping investigation, award-winning journalist Michael Easter seeks out off-the-grid visionaries, disruptive genius researchers, and mind-body conditioning trailblazers who are unlocking the life-enhancing secrets of a counterintuitive solution: discomfort. Easter's journey to understand our evolutionary need to be challenged takes him to meet the NBA's top exercise scientist, who uses an ancient Japanese practice to build championship athletes; to the mystical country of Bhutan, where an Oxford economist and Buddhist leader are showing the world what death can teach us about happiness; to the outdoor lab of a young neuroscientist who's found that nature tests our physical and mental endurance in ways that expand creativity while taming burnout and anxiety; to the remote Alaskan backcountry on a demanding thirty-three-day hunting expedition to experience the rewilding secrets of one of the last rugged places on Earth; and more. Along the way, Easter uncovers a blueprint for leveraging the power of discomfort that

will dramatically improve our health and happiness, and perhaps even help us understand what it means to be human. *The Comfort Crisis* is a bold call to break out of your comfort zone and explore the wild within yourself.

A fun re-telling of the Christmas story for young children, including regular invitations to make some noise! Some people think that Christmas was a "Silent Night". Far from it. It was filled with shouting, singing and screaming! It was as noisy as any of our Christmas celebrations. This fun and fresh retelling of the Christmas story comes with invitations to make some noise, so that children can join in as parents read to them. But it also shows children that at the heart of the Christmas story is something we should all be quiet and see: God's Son Jesus was born, so that we can be friends with God forever. A wonderful Christmas gift for children aged 2-4.
