"Understanding Myself: My Dialectical Journey into Self-acceptance" is the second in a three-part series of wellness journals. It is divided into two sections, is interesting and interactive, containing activities for discussion, debate, reflections, personal validation, and self-affirmation. This volume of dialectical journals also consists of original, creative works written by the designer of the journal as well as authors who are diverse in terms of age, background, culture, ethnicity, gender, history. These authors present creative, current, personal, even at times controversial topics from their varied perspectives. Each "story" is real, each shows the impact of events, people, and situations on the lives of those who have lived the experiences. They connect individuals as they address the universal experiences and truths that are common to us all. The result - self acceptance, self-empowerment, wellness.

Teaching Accelerated and Corequisite Composition is the first book to compile on-the-ground advice and teaching strategies specifically curated for accelerated and corequisite writing courses. Trailblazers in the field from colleges across the United States—who developed a foundation for corequisites by facilitating equity and accessibility for marginalized students—speak to a range of topics and demographics, offering support for instructors and practical advice for improving student success.

The book primarily explores accelerated composition through the lens of two-year colleges to answer a central question in the field: to what extent do educators need to alter two-year college curricular design? The contributors also delve into assessment, a crucial process for instructors and their students transitioning to accelerated learning; the key role that reading plays in the writing process; and noncognitive learning, an area of study that has been associated with accelerated learning since its inception. Together these thirteen chapters provide instructors with a strategic approach to teaching accelerated and corequisite composition. Teaching Accelerated and Corequisite Composition points toward a new way of approaching first-year composition: a method of instruction that fosters the growth and success of writers who were once considered underprepared for college writing and are now achieving unprecedented success.

Grounded in research, *Vibrant Learning*, focuses on language-rich, literacy-based, collaborative classrooms as the foundation for transforming content area learning. The authors emphasize three areas: (1) strategies to support student understanding of concepts, (2) ideas to encourage student engagement, and (3) creating a lively and respectful classroom environment to foster an integrative approach to learning.

Knowledgeable teachers with a repertoire of effective instructional strategies make genuine learning possible. With that in mind, this book presents a solid theoretical background and a set of practical tools in each of its chapters, ranging from assessment, compression, vocabulary, motivation, to integration for the content area teacher.

The benefits and importance of Socratic seminars are widely recognized, but little has been written on how to make them happen successfully in the classroom. In *Socratic Circles: Fostering Critical and Creative Thinking in Middle and High School*, author Matt Copeland provides real-world examples and straightforward answers to frequent questions. He creates a coaching guide for both the teacher new to Socratic seminars and the experienced teacher seeking to optimize the benefits of this powerful strategy. *Socratic Circles* also shows

teachers who are familiar with literature circles the many ways in which these two practices complement and extend each other. Effectively implemented, Socratic seminars enhance reading comprehension, listening and speaking skills, and build better classroom community and conflict resolution skills. By giving students ownership over the classroom discussion around texts, they become more independent and motivated learners. Ultimately, because there is a direct relationship between the level of participation and the richness of the experience, Socratic seminars teach students to take responsibility for the quality of their own learning. Filled with examples to help readers visualize the application of these concepts in practice, *Socratic Circles* includes transcripts of student dialogue and work samples of preparation and follow-up activities. The helpful appendices offer ready-to-copy handouts and examples, and suggested selections of text that connect to major literary works. As our classrooms and our schools grow increasingly focused on meeting high standards and differentiating instruction for a wide variety of student needs and learning styles, Socratic seminars offer an essential classroom tool for meeting these goals. *Socratic Circles* is a complete and practical guide to Socratic seminars for the busy classroom teacher.

What does it mean when a fictional hero takes a journey?. Shares a meal? Gets drenched in a sudden rain shower? Often, there is much more going on in a novel or poem than is readily visible on the surface—a symbol, maybe, that remains elusive, or an unexpected twist on a character—and there's that sneaking suspicion that the deeper meaning of a literary text keeps escaping you. In this practical and amusing guide to literature, Thomas C. Foster shows how easy and gratifying it is to unlock those hidden truths, and to discover a world where a road leads to a quest; a shared meal may signify a communion; and rain, whether cleansing or destructive, is never just rain. Ranging from major themes to literary models, narrative devices, and form, *How to Read Literature Like a Professor* is the perfect companion for making your reading experience more enriching, satisfying, and fun.

Wordsmithing Allyn & Bacon
Representing Capital, Fredric Jameson's first book-length engagement with Marx's magnum opus, is a unique work of scholarship that records the progression of Marx's thought as if it were a musical score. The textual landscape that emerges is the setting for paradoxes and contradictions that struggle toward resolution, giving rise to new antinomies and a new forward movement. These immense segments overlap each other to combine and develop on new levels in the same way that capital itself does, stumbling against obstacles that it overcomes by progressive expansions, which are in themselves so many leaps into the

unknown.

 Depth matters! Can a mere fifteen words turn today's youth into the innovative, ambitious thinkers we need? Yes, contend Jim Burke and Barry Gilmore, because these are the moves that make the mind work and students must learn if they're to achieve academically. With *Academic Moves*, Jim and Barry distill each of these 15 powerhouse processes into a potent concision that nevertheless spans core subject areas: Before, during, and after sections offer essential questions, lesson ideas, and activities. Student samples illustrate what to look

for and the process for getting there. Culminating tasks include producing an analytic essay, argument, and more. Reproducible rubrics assist with assessment.

The Giver, the 1994 Newbery Medal winner, has become one of the most influential novels of our time. The haunting story centers on twelve-year-old Jonas, who lives in a seemingly ideal, if colorless, world of conformity and contentment. Not until he is given his life assignment as the Receiver of Memory does he begin to understand the dark, complex secrets behind his fragile community. This movie tie-in edition features cover art from the movie and exclusive Q&A with members of the cast, including Taylor Swift, Brenton Thwaites and Cameron Monaghan.

Brief and practical, this popular book focuses on what classroom assessment is

and how to do it, and bridges the gap between testing a learner's knowledge of particular "information" and measuring his or her ability to transfer knowledge and think strategically. Coverage encompasses all of the issues surrounding the use of classroom assessments (validity, reliability, bias, impact) through targeted discussions that address everything prospective teachers need to know, completely yet succinctly. The authors offer a comprehensive menu of techniques for assessing not only what learners know, but also how they think, how they perform, and how they apply what they know within authentic, real-world contexts. For individuals administering tests, and implementing other measurements tools, for the assessment of students in elementary and middle schools.

One of the greatest challenges for English language arts teachers today is the call to engage students in more complex texts. Tim Gillespie, who has taught in public schools for almost four decades, has found the lenses of literary criticism a powerful tool for helping students tackle challenging literary texts. Tim breaks down the dense language of critical theory into clear, lively, and thorough explanations of many schools of critical thought---reader response, biographical, historical,

psychological, archetypal, genre based, moral, philosophical, feminist, political, formalist, and postmodern. Doing Literary Criticism gives each theory its own chapter with a brief, teacher-friendly overview and a history of the approach, along with an in-depth discussion of its benefits and limitations. Each chapter also includes ideas for classroom practices and activities. Using stories from his own English classes--from alternative programs to advance placement and everything in between--Tim provides a wealth of specific classroom-tested suggestions for discussion, essay and research paper topics, recommended texts, exam questions, and more. The accompanying CD offers abbreviated overviews of each theory (designed to be used as classroom handouts, examples of student work, collections of quotes to stimulate discussion and writing, an extended history of women writers, and much more. Ultimately, Doing Literary Criticism offers teachers a rich set of materials and tools to help their students become more confident and able readers, writers, and critical thinkers.
