Hualien, on the Pacific  
coast of eastern Taiwan,  
and its mountains,  
especially Mount Qilai,  
were deeply inspirational  
for the young poet Yang  
Mu. A place of immense

natural beauty and  
cultural heterogeneity,  
the city was also a site of  
extensive social, political,  
and cultural change in the  
twentieth century, from  
the Japanese occupation  
and the American  
bombings of World War II  
to the Chinese civil war,  
the White Terror, and the  
Cold War. Taken as a  
whole, these evocative  
and allusive

autobiographical essays  
provide a personal  
response to history as  
Taiwan transitioned from  
a Japanese colony to the  
Republic of China. Yang  
Mu recounts his childhood  
experiences under the  
Japanese, life in the  
mountains in proximity to  
indigenous people as his  
family took refuge from  
the American bombings,  
his initial encounters and

cultural conflicts with Nationalist soldiers recently arrived from mainland China, the subsequent activities of the Nationalist government to consolidate power, and the island's burgeoning new manufacturing society. Nevertheless, throughout those early years, Yang Mu remained anchored by a sense of place on Taiwan's eastern coast and amid its coastal mountains, over which stands Mount Qilai like a guardian spirit. This was the formative milieu of

the young poet. Yang Mu seized on verse to develop a distinct persona and draw meaning from the currents of change reshuffling his world. These eloquent essays create an exciting, subjective realm meant to transcend the personal and historical limitations of the individual and the end of culture, "plundered and polluted by politics and industry long ago." Grief can do terrible things to us. It can hold us still in time and skew our

perspective. That is the case with William Maldonado, who grieves the loss of his father as a child to war; the loss of his mother as a young adult to an illness; the loss of an opportunity to pursue a doctoral degree, and the loss of his professional reputation to an accusation of committing insurance fraud. Subterranean sorrow leads Maldonado to make wrong-minded decisions that eventually lead him to prison and then to a half-way-house. One day, as he tries to

understand his grief, he blames the world, and, in particular, a former business partner. Full of rage, he returns to the city where he experienced his deepest wounds. Upon his return, he discovers that his former business partner, now a Pentecostal minister, emerged unscathed from the insurance fraud scandal that sent him fleeing for a decade. That discovery thrusts Maldonado on a path of revenge and into the roiling world of church politics, where he joins a

secession group that wants to fire his former partner. It takes the whims of fate and new friendships for Maldonado to experience clarity of purpose.

the Whispers, Renata Convida is a girl on the run. With few options and fewer allies, she's reluctantly joined forces with none other than Prince Castian, her most infuriating and intriguing enemy. their heels at every turn, their quest across Puerto Leones and beyond leaves little room for mistakes. But the greatest danger is within Ren. The Gray, her fortress of stolen memories, has begun to crumble, threatening her grip on reality. Master story teller Charlie Elliott says it perfectly in this book for all fishermen: “Whether you are a fresh water Walton or the owner of a yacht, plowing the depths beyond the sight of land for a long-billed monster of the sea, you are seeking out the quiet aquatic spaces of the earth for a reason more compelling than to satisfy your stomach juices.

“Whenever you assemble your tackler, there are latent questions in your

mind. What adventure awaits you just beyond the river bend, or when you beach your boat where the forest marches down to meet the laek? What delightful memory will you bring home, or what bizarre hair graying thrill could encounter you unexpectedly where the water trails run out and stop? “Those are not the only reasons you fish, by any stretch of nylon thread. Whether you are out for salmon or for lunker bass, of grayling or bonefish, your premeditated design of

the day calls for out-thinking, out-maneuvering and then out-battling some wary old mossback of the depths or shallows. But as an adjunct to this high ideal, you are also seeking many other things which add immeasurably more to your day than meant on your table. You're looking for sunshine on the water, the refrigerated glades, the bonds of friendship between strong men. Your diversions of the day include a hundred adventures not listed in a

fishing guide.”

 Violent Inheritance  
 deepens the analysis of settler colonialism's endurance in the North

American West and how infrastructures that ground sexual modernity are both reproduced and challenged by publics who have inherited them. E Cram redefines sexual modernity through extractivism, wherein sexuality functions to extract value from life including land, air, minerals, and bodies. Analyzing struggles over memory cultures through the region's land use controversies at the turn of and well into the twentieth century, Cram unpacks the

consequences of western settlement and the energy regimes that fueled it. Transfusing queer eco-criticism with archival and ethnographic research, Cram reconstructs the linkages—"land lines"—between infrastructure, violence, sexuality, and energy and shows how racialized sexual knowledges cultivated settler colonial cultures of both innervation and enervation. From the residential school system to elite health seekers

desiring the "electric" climates of the Rocky Mountains to the wartime incarceration of Japanese Americans, Cram demonstrates how the environment promised to some individuals access to vital energy and to others the exhaustion of populations through state violence and racial capitalism. Grappling with these land lines, Cram insists, helps interrogate regimes of value and build otherwise unrealized connections between queer studies and the environmental and energy

humanities.
