World War II Ne York, Fund for Education  
Concerning World Peace through World  
Law

WWII began in 1939 as a European conflict between Germany and an Anglo-French coalition but eventually widened to include most of the nations of the world. It ended in 1945, leaving a new world order dominated by the United States and the USSR. This book features updated and

expanded coverage of the fateful D-Day invasion, a critical timeline of major WW II events, and a WW II timeline highlighting the crucial and most important events of the war. It will include details about major battles on land, in the air, and on the sea - starting with Hitler's rise to power and his goal of European conquest; to Japan's bombing of Pearl Harbour; to the decisive battles such as D-Day and the Battle of Midway, which turned the tides of the war toward the Allies.

**The Guide to Canadian Policies on International Peace and Security**  
McDougal Littel

You're no idiot of course. You know that Albert Einstein came up with the famous "E=mc" equation and that his hair looked like it had survived a nuclear test blast. But when it comes to understanding his theories and how they changed the world--well, youre no Einstein. Dont go nuclear yet! The Complete Idiots Guide to Understanding Einstein shows how relatively easy--and fun--it can be to learn and appreciate the world of physics and Einsteins brillant accomplishments. *A Brief Study Guide for the Book of Revelation* Penguin  
Explains how dictatorships rise, survive,

and fall, along with why some but not all dictators wield vast powers.

### The End of Europe Penguin

Designed with busy students in mind, this concise study guide examines major political theories and is organized into the following easily digestible sections: overview, history, theory in depth, theory in action, analysis and critical response, topics for further study, and bibliography.

### **The Challenge of Politics** Yale

University Press

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review

• The Economist • The Christian Science Monitor • Bloomberg Businessweek • The Globe and Mail From the bestselling and award-winning author of *Paris 1919* comes a masterpiece of narrative nonfiction, a fascinating portrait of Europe from 1900 up to the outbreak of World War I. The century since the end of the Napoleonic wars had been the most peaceful era Europe had known since the fall of the Roman Empire. In the first years of the twentieth century, Europe believed it was marching to a golden, happy, and prosperous future. But instead, complex personalities and rivalries, colonialism and

ethnic nationalisms, and shifting alliances helped to bring about the failure of the long peace and the outbreak of a war that transformed Europe and the world. *The War That Ended Peace* brings vividly to life the military leaders, politicians, diplomats, bankers, and the extended, interrelated family of crowned heads across Europe who failed to stop the descent into war: in Germany, the mercurial Kaiser Wilhelm II and the chief of the German general staff, Von Moltke the Younger; in Austria-Hungary, Emperor Franz Joseph, a man who tried, through sheer hard work, to stave off the coming chaos in his empire; in Russia, Tsar Nicholas II and his wife; in Britain, King Edward VII, Prime Minister Herbert Asquith, and British admiral Jacky Fisher, the fierce advocate of naval reform who entered into the arms race with Germany that pushed the continent toward confrontation on land and sea. There are the would-be peacemakers as well, among them prophets of the horrors of future wars whose warnings went unheeded: Alfred Nobel, who donated his fortune to the cause of international understanding, and Bertha von Suttner, a writer and activist who was the first

woman awarded Nobel's new Peace Prize. Here too we meet the urbane and cosmopolitan Count Harry Kessler, who noticed many of the early signs that something was stirring in Europe; the young Winston Churchill, then First Lord of the Admiralty and a rising figure in British politics; Madame Caillaux, who shot a man who might have been a force for peace; and more. With indelible portraits, MacMillan shows how the fateful decisions of a few powerful people changed the course of history. Taut, suspenseful, and impossible to put down, *The War That Ended Peace* is also a wise cautionary reminder of how wars happen in spite of the near-universal desire to keep the peace. Destined to become a classic in the tradition of Barbara Tuchman's *The Guns of August*, *The War That Ended Peace* enriches our understanding of one of the defining periods and events of the twentieth century. Praise for *The War That Ended Peace* "Magnificent . . . *The War That Ended Peace* will certainly rank among the best books of the centennial crop."—The Economist "Superb."—The New York Times Book Review "Masterly . . . marvelous . . . Those looking to

understand why World War I happened will have a hard time finding a better place to start.”—The Christian Science Monitor

“The debate over the war’s origins has raged for years. Ms. MacMillan’s explanation goes straight to the heart of political fallibility. . . . Elegantly written, with wonderful character sketches of the key players, this is a book to be treasured.”—The Wall Street Journal “A magisterial 600-page panorama.”—Christopher Clark, London Review of Books

*The No-nonsense Guide to Conflict and Peace* IDEA

“When Gessen speaks about autocracy, you listen.” —The New York Times “A reckoning with what has been lost in the past few years and a map forward with our beliefs intact.” —Interview As seen on MSNBC’s Morning Joe and heard on NPR’s All Things Considered: the bestselling, National Book Award-winning journalist offers an essential guide to understanding, resisting, and recovering from the ravages of our tumultuous times. This incisive book provides an essential guide to understanding and recovering from the calamitous corrosion of American

democracy over the past few years. Thanks to the special perspective that is the legacy of a Soviet childhood and two decades covering the resurgence of totalitarianism in Russia, Masha Gessen has a sixth sense for the manifestations of autocracy—and the unique cross-cultural fluency to delineate their emergence to Americans. Gessen not only anatomizes the corrosion of the institutions and cultural norms we hoped would save us but also tells us the story of how a short few years changed us from a people who saw ourselves as a nation of immigrants to a populace haggling over a border wall, heirs to a degraded sense of truth, meaning, and possibility. *Surviving Autocracy* is an inventory of ravages and a call to account but also a beacon to recovery—and to the hope of what comes next.

**The Americans: Reconstruction Through the 20th Century** Cambridge University Press

Rogue State and its author came to sudden international attention when Osama Bin Laden quoted the book publicly in January 2006, propelling the book to the top of the bestseller charts in a matter of

hours. This book is a revised and updated version of the edition Bin Laden referred to in his address.

**Consumers' Guide** New Internationalist

This convenient teacher’s guide is all a parent or teacher needs to easily grade the 11th grade student assignments for *British History: Observations & Assessments from Early Cultures to Today*. Assignments with answers, learning objectives, grading criteria, and short essay questions are included. This course is designed for a student to practice independent learning. The guide will assist teachers by offering: 34 chapters for 34 weeks of study Chapters include 5 lessons taking approximately 30 minutes each The final lesson of the week is an exam covering the week’s instruction Student questions are organized in the back for easy use in testing and review Teachers, parents, or students can grade assignments daily or weekly As the teacher, you will enjoy partnering with your student as he or she processes British history while developing or strengthening a Christian world view.

*History Buff’s Guide to World War II* Random House

At no time in American history has an understanding of the role and the art of diplomacy in international relations been more essential than it is today. Both the history of U.S. diplomatic relations and the current U.S. foreign policy in the twenty-first century are major topics of study and interest across the nation and around the world. Spanning the entire history of American diplomacy—from the First Continental Congress to the war on terrorism to the foreign policy goals of the twenty-first century—*Guide to U.S. Foreign Policy* traces not only the growth and development of diplomatic policies and traditions but also the shifts in public opinion that shape diplomatic trends. This comprehensive, two-volume reference shows how the United States gained "the strength of a giant" and also analyzes key world events that have determined the United States' changing relations with other nations. The two volumes' structure makes the key concepts and issues accessible to researchers: The set is broken up into seven parts that feature 40 topical and historical chapters in which expert writers cover the diplomatic initiatives of the United States from

colonial times through the present day. Volume II's appendix showcases an A-to-Z handbook of diplomatic terms and concepts, organizations, events, and issues in American foreign policy. The appendix also includes a master bibliography and a list of presidents; secretaries of state, war, and defense; and national security advisers and their terms of service. This unique reference highlights the changes in U.S. diplomatic policy as government administrations and world events influenced national decisions. Topics include imperialism, economic diplomacy, environmental diplomacy, foreign aid, wartime negotiations, presidential influence, NATO and its role in the twenty-first century, and the response to terrorism. Additional featured topics include the influence of the American two-party system, the impact of U.S. elections, and the role of the United States in international organizations. *Guide to U.S. Foreign Policy* is the first comprehensive reference work in this field that is both historical and thematic. This work is of immense value for researchers, students, and others studying foreign policy, international relations, and U.S. history.

**ABOUT THE EDITORS** Robert J. McMahon is the Ralph D. Mershon Professor of History in the Mershon Center for International Security Studies at The Ohio State University. He is a leading historian of American diplomatic history and is author of several books on U.S. foreign relations. Thomas W. Zeiler is professor of history and international affairs at the University of Colorado at Boulder and is the executive editor of the journal *Diplomatic History*.

*Destructive Politics* McDougal Littel

This is a new release of the original 1949 edition.

*British History - Teacher Guide* Cambridge University Press

Winner of the 2019 William E. Colby Award

"The book I had been waiting for. I can't recommend it highly enough." —Bill Gates

The era of autonomous weapons has arrived. Today around the globe, at least thirty nations have weapons that can search for and destroy enemy targets all on their own. Paul Scharre, a leading expert in next-generation warfare, describes these and other high tech weapons systems—from Israel's Harpy drone to the American submarine-hunting

robot ship Sea Hunter—and examines the legal and ethical issues surrounding their use. “A smart primer to what’s to come in warfare” (Bruce Schneier), *Army of None* engages military history, global policy, and cutting-edge science to explore the implications of giving weapons the freedom to make life and death decisions. A former soldier himself, Scharre argues that we must embrace technology where it can make war more precise and humane, but when the choice is life or death, there is no replacement for the human heart.

**Mussolini and Hitler** Oxford University Press

A new look at the drama that lay behind the end of the war in the Pacific Signed on September 2, 1945 aboard the American battleship USS Missouri in Tokyo Bay by Japanese and Allied leaders, the instrument of surrender that formally ended the war in the Pacific brought to a close one of the most cataclysmic engagements in history. Behind it lay a debate that had been raging for some weeks prior among American military and political leaders. The surrender fulfilled the commitment that Franklin Roosevelt had made in 1943 at the Casablanca

conference that it be "unconditional." Though readily accepted as policy at the time, after Roosevelt's death in April 1945 support for unconditional surrender wavered, particularly among Republicans in Congress, when the bloody campaigns on Iwo Jima and Okinawa made clear the cost of military victory against Japan. Germany's unconditional surrender in May 1945 had been one thing; the war in the Pacific was another. Many conservatives favored a negotiated surrender. Though this was the last time American forces would impose surrender unconditionally, questions surrounding it continued through the 1950s and 1960s--with the Korean and Vietnam Wars--when liberal and conservative views reversed, including over the definition of "peace with honor." The subject was revived during the ceremonies surrounding the 50th anniversary in 1995, and the Gulf and Iraq Wars, when the subjects of exit strategies and "accomplished missions" were debated. Marc Gallicchio reveals how and why the surrender in Tokyo Bay unfolded as it did and the principle figures behind it, including George C. Marshall and Douglas MacArthur. The latter would effectively

become the leader of Japan and his tenure, and indeed the very nature of the American occupation, was shaped by the nature of the surrender. Most importantly, Gallicchio reveals how the policy of unconditional surrender has shaped our memory and our understanding of World War II.

[The Americans](#) Penguin Books India

A fresh treatment of Fascist Italy and Nazi Germany, revealing the close ties between Mussolini and Hitler and their regimes From 1934 until 1944 Mussolini met Hitler numerous times, and the two developed a relationship that deeply affected both countries. While Germany is generally regarded as the senior power, Christian Goeschel demonstrates just how much history has underrepresented Mussolini's influence on his German ally. In this highly readable book, Goeschel, a scholar of twentieth-century Germany and Italy, revisits all of Mussolini and Hitler's key meetings and asks how these meetings constructed a powerful image of a strong Fascist-Nazi relationship that still resonates with the general public. His portrait of Mussolini draws on sources ranging beyond political history to reveal a

leader who, at times, shaped Hitler's decisions and was not the gullible buffoon he's often portrayed as. The first comprehensive study of the Mussolini-Hitler relationship, this book is a must-read for scholars and anyone interested in the history of European fascism, World War II, or political leadership.

**The Rome-Berlin Axis** Penguin  
Destructive Politics explains who controls the United States economy and what these controllers did to wreck our economy and put millions out of work. Through power, corruption and lies, a handful of mischievous politicians have created havoc in the United States economy which rippled through the world. Government, Global Warming, Health Care, Religion, History, Media, Taxes, Energy the United Nations are all important issues and subjects which directly touch every part of our lives. Destructive Politics the book helps readers understand how all those important issues have been tainted by the federal government. The trail of destruction is clear and present, from mortgage melt down to high unemployment and lost savings, all these things are a direct result

of politicians playing politics with our lives. Destructive Politics will help you understand how we can all put a stop to this and put an end to recessions and depressions once and for all!

**The Complete Idiot's Guide to World War II, 3rd Edition** CQ Press

"[This is] a textbook that offers students a good introduction to the science of politics while emphasizing the moral, empirical, and prudential dimensions of politics."  
—Prosper Bernard, Jr., College of Staten Island  
This updated Sixth Edition of *The Challenge of Politics* enables students to see how the subfields of political science converge around a set of crucial questions, such as "Can we as citizens and students articulate and defend a view of the good political life and its guiding political values?" "Can we bring political wisdom to bear on judgments about politics and public issues?" and "Can we develop a science of politics to help us understand significant political phenomena—the empirical realities of politics?" Balancing lessons of classic and contemporary theory with contemporary politics and empirical study, the book equips students with the tools they need

to explore the impact of philosophy and ideology, recognize major forms of government, evaluate empirical findings, and understand how policy issues directly affect people's lives. The updated Sixth Edition includes new material on the 2016 presidential elections, the role of social media in politics, and an expanded discussion on the rise of populist movements. Give your students the SAGE edge! SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review, study, and further exploration, keeping both instructors and students on the cutting edge of teaching and learning. Learn more at [edge.sagepub.com/simon6e](http://edge.sagepub.com/simon6e).  
Speakers Guide ... for Service Spokesmen  
Zed Books  
Highly regarded for its concise clarification of the complexities of World War II, this book illuminates the origins, course, and long-range effects of the war. It provides a balanced account that analyzes both the European and Pacific theaters of operations and the connections between them. The Fifth Edition incorporates new material based on the latest scholarship,

offering updated conclusions on key topics and expanded coverage throughout.

**The War That Ended Peace** McDougall Littel

This invaluable guide is excellent for students, peace groups and activists. With tables, maps, case studies and quotes it looks at how conflict escalates and ways it can be prevented. It examines the changing types of war, including the War on Terror and ethnic conflict such as in Rwanda; the role of diplomacy and the UN and what steps ordinary people are taking to re-build communities. It also offers ideas and inspiration for creating lasting peace.

*A Study Guide for Political Theories for Students: PACIFISM* Penguin

The Cold War shaped the world we live in today - its politics, economics, and military affairs. This book shows how the globalization of the Cold War during the last century created the foundations for most of the key conflicts we see today, including the War on Terror. It focuses on

how the Third World policies of the two twentieth-century superpowers - the United States and the Soviet Union - gave rise to resentments and resistance that in the end helped topple one superpower and still seriously challenge the other. Ranging from China to Indonesia, Iran, Ethiopia, Angola, Cuba, and Nicaragua, it provides a truly global perspective on the Cold War. And by exploring both the development of interventionist ideologies and the revolutionary movements that confronted interventions, the book links the past with the present in ways that no other major work on the Cold War era has succeeded in doing.

**The Complete Idiot's Guide to the Gulf War** Prabhat Prakashan

Discusses the causes, military tactics, battles, and effects of the Persian Gulf War.

*The Americans* Gale, Cengage Learning

Once the world's bastion of liberal, democratic values, Europe is now having to confront demons it thought it had laid to rest. The old pathologies of anti-

Semitism, populist nationalism, and territorial aggression are threatening to tear the European postwar consensus apart. In riveting dispatches from this unfolding tragedy, James Kirchick shows us the shallow disingenuousness of the leaders who pushed for "Brexit;" examines how a vast migrant wave is exacerbating tensions between Europeans and their Muslim minorities; explores the rising anti-Semitism that causes Jewish schools and synagogues in France and Germany to resemble armed bunkers; and describes how Russian imperial ambitions are destabilizing nations from Estonia to Ukraine. With President Trump now threatening to abandon America's traditional role as upholder of the liberal world order and guarantor of the continent's security, Europe may be alone in dealing with these unprecedented challenges. Based on extensive firsthand reporting, this book is a provocative, disturbing look at a continent in unexpected crisis.
