This collection  
showcases the very

best of Russell's  
writings on an  
impressively diverse  
range of subjects. From  
sex and marriage, to  
education and politics,  
this is a delightfully  
funny introduction to  
one of the twentieth  
century's greatest

thinkers.

The Autobiography of Bertrand Russell BuK

In keeping with his character and beliefs, his life story is told with vigour, disarming charm and total frankness.

*The Autobiography of Bertrand Russell*

Bloomsbury Publishing

The eloquent and intimate biography of one of the most significant figures of the last century.

Bertrand Russell was a British philosopher, logician, mathematician, historian, writer, social critic, political activist and won the Nobel Prize for literature. Born into the high world of the Whig aristocracy, among people for whom Waterloo was still almost a personal memory, Russell lived

to inspire the campaign against nuclear warfare. He was imprisoned in 1918 for his Pacifism. Ronald Clark, with access to a mass of material, provides a fascinating and graphic portrait of the man. There is virtually no aspect of Russell's long life to which something new - and often unexpected - is not added by this remarkable and incisive book.

*The Autobiography of Bertrand Russell:*

*1872-1914* Routledge

In 1944, Albert Einstein invited three close friends, giants of contemporary science and thought, to his home at 112 Mercer Street in Princeton, New Jersey to discuss science, philosophy, and world events. These were

Bertrand Russell, the incomparable logician, philosopher, and humanist; Wolfgang Pauli, the great physicist; and Kurt Godel, the groundbreaking logician. Using these historic meetings as a starting point, Burton Feldman provides a highly original examination of these four very outsized personalities as friends, colleagues and rivals—particularly the stubborn and supremely self-confident Einstein and the aristocratic Russell. Masterfully researched, this accessible book illuminates the feelings of these great men about the world of science that was then beginning to pass them by, and about the dawning atomic age

that terrified them all. [The Autobiography of Bertrand Russell Vol.III. The Final Years 1944-1969](#)  
 IndyPublish.com  
 One of the world's best-known radicals relives the early years of the protest movement. What makes a young radical? Reissued to coincide with the fiftieth anniversary of 1968, *Street Fighting Years* captures the mood and energy of an era of hope and passion as Tariq Ali tracks the growing significance of the 1960s protest movement, as well as his own formation as a leading political activist. Through his personal story, he recounts a counter-history of a sixties rocked by the Prague Spring, student protests on the streets

of Europe and America, the effects of the Vietnam war, and the aftermath of the revolutionary insurgencies led by Che Guevara. It is a story that takes us from Paris and Prague to Hanoi and Bolivia, encountering along the way Malcolm X, Bertrand Russell, Marlon Brando, Henry Kissinger, and Mick Jagger. This edition includes the famous interview conducted by Tariq Ali and Robin Blackburn with John Lennon and Yoko Ono In 1971.

*The Conquest of Happiness* Spokesman Books

Bertrand Russell remains one of the greatest philosophers and most complex and controversial figures of the twentieth century. Here, in this frank,

humorous and decidedly charming autobiography, Russell offers readers the story of his life - introducing the people, events and influences that shaped the man he was to become. Originally published in three volumes in the late 1960s, *Autobiography* by Bertrand Russell is a revealing recollection of a truly extraordinary life written with the vivid freshness and clarity that has made Bertrand Russell's writings so distinctively his own.

University of Chicago Press

A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit

www.luminosoa.org to learn more. The *Eternal Dissident* offers rare insight into one of the most inspiring and controversial Reform rabbis of the twentieth century, Leonard Beerman, who was renowned both for his eloquent and challenging sermons and for his unrelenting commitment to social action. Beerman was a man of powerful word and action—a probing intellectual and stirring orator, as well as a nationally known opponent of McCarthyism, racial injustice, and Israeli policy in the occupied territories. The shared source of Beerman’s thought and activism was the moral imperative of the Hebrew prophets, which he believed bestowed upon the

Jewish people their role as the “eternal dissident.” This volume brings Beerman to life through a selection of his most powerful writings, followed by commentaries from notable scholars, rabbis, and public personalities that speak to the quality and ongoing relevance of Beerman’s work.

Bertrand Russell's life from 1872-1914.

### **Autobiography**

Routledge

Bertrand Russell was born in 1872 and died in 1970. One of the most influential figures of the twentieth century, he transformed philosophy and can lay claim to being one of the greatest philosophers of all time. He was a Nobel

Prize winner for Literature and was imprisoned several times as a result of his pacifism. His views on religion, education, sex, politics and many other topics, made him one of the most read and revered writers of the age. This, his autobiography, is one of the most compelling and vivid ever written. This one-volume, compact paperback edition contains an introduction by the politician and scholar, Michael Foot, which explores the status of this classic nearly 30 years after the publication of the final volume.

With extraordinary concision and clarity, A. J. Ayer gives an account of the major incidents of Bertrand Russell's life and an exposition of the whole range of his philosophy. "Ayer considers Russell to be, except possibly for Wittgenstein, the most influential philosopher of our time. In this book [he] gives a lucid account of Russell's philosophical achievements."—James Rachels, New York Times Book Review "I am sure [this] is the best introduction of any length to Russell, and I suspect that it might serve as one of the best introductions to modern philosophy. . . . Ayer begins with a brief, austere, and balanced account of Russell's life: as in

Russell's autobiography this means his thought, books, women, and politics. Tacitus (and Russell) would have found the account exemplary. Ayer ends with a sympathetic and surprisingly detailed survey of Russell's social philosophy. But the bulk of this book consists of a chapter on Russell's work in logic and the foundations of mathematics, followed by a chapter on his epistemological views and one on metaphysics. . . . I find it impossible to imagine that this book will not remain indefinitely the very best book of its sort."—Review of *Metaphysics* "The confrontation or conjunction of Ayer and Russell is a notable

event and has produced a remarkable book—brilliantly argued and written."—Martin Lebowitz, *The Nation*

Russell's first strictly philosophical work, this study remains one of the most important studies of Leibniz every

published. It established an approach to studying philosophers of the past that emphasises the philosophical rather than the historical.

1944-1969 Simon and Schuster

The Conquest of Happiness is Bertrand Russell's recipe for good living. First published in 1930, it pre-dates the current obsession with self-help by decades. Leading the reader step by step through the causes of unhappiness and the personal choices, compromises and sacrifices that (may) lead to the final, affirmative conclusion of The Happy Man

Portraits from Memory  
Routledge

First published in 1967. Routledge is an imprint of Taylor & Francis, an informa company.

*The Autobiography of Bertrand Russell* Verso Books

This modern morality tale told in just 21 words, written in 1962 by the influential British philosopher and set to images by a noted illustrator, is sure to blow your mind, among other things.

**The Autobiography of Bertrand Russell**  
Spokesman Books

'I have come to think that one of the main causes of trouble in the world is dogmatic and fanatical belief in some doctrine for which there is no adequate evidence.' - Bertrand Russell, Portraits from Memory Portraits from Memory is one of

Bertrand Russell's most self-reflective and engaging books. Whilst not intended as an autobiography, it is a vivid recollection of some of his celebrated contemporaries, such as George Bernard Shaw, Sidney and Beatrice Webb and D. H. Lawrence. Russell provides some arresting and sometimes amusing insights into writers with whom he corresponded. He was fascinated by Joseph Conrad, with whom he formed a strong emotional bond, writing that his *Heart of Darkness* was not just a story but an expression of Conrad's 'philosophy of life'. There are also some typically pithy Russellian observations; H. G. Wells 'derived his

importance from quantity rather than quality', whilst after a brief and fraught friendship Russell thought D. H. Lawrence 'had no real wish to make the world better, but only to indulge in eloquent soliloquy about how bad it was'. This engaging book also includes some of Russell's customary razor-sharp essays on a rich array of subjects, from his ardent pacifism, liberal politics and morality to the ethics of education, the skills of good writing and how he came to philosophy as a young man. These include 'A Plea for Clear Thinking', 'A Philosophy for Our Time' and 'How I Write'. Portraits from Memory is Russell at his best and will enthrall those new to

Russell as well as those already well-acquainted with his work. This Routledge Classics edition includes a new foreword by the Russell scholar Nicholas Griffin, editor of *The Selected Letters of Bertrand Russell*.

*The Autobiography of Bertrand Russell* Simon & Schuster

THE attempt to conceive imaginatively a better ordering of human society than the destructive and cruel chaos in which mankind has hitherto existed is by no means modern: it is at least as old as Plato, whose "Republic" set the model for the Utopias of subsequent philosophers. Whoever contemplates the world in the light of an ideal - whether what he seeks be intellect, or art, or

love, or simple happiness, or all together - must feel a great sorrow in the evils that men needlessly allow to continue, and - if he be a man of force and vital energy - an urgent desire to lead men to the realization of the good which inspires his creative vision. It is this desire which has been the primary force moving the pioneers of Socialism and Anarchism, as it moved the inventors of ideal commonwealths in the past. In this there is nothing new. What is new in Socialism and Anarchism, is that close relation of the ideal to the present sufferings of men, which has enabled powerful political movements to grow out of the hopes of solitary thinkers. It is

this that makes Socialism and Anarchism important, and it is this that makes them dangerous to those who batten, consciously or unconsciously upon the evils of our present order of society. [...]
