A tiny American town's plans for radical self-government overlooked one hairy detail: no one told the bears. Once upon a time, a group of libertarians got together and hatched the Free Town Project, a plan to take over an American town and completely eliminate its government. In 2004, they set their sights on Grafton, NH, a barely populated settlement with one paved road. When they descended on Grafton, public funding for pretty much everything shrank: the fire department, the library, the schoolhouse. State and federal laws became meek suggestions, scarcely heard in the town's thick wilderness. The anything-goes atmosphere soon caught the attention of Grafton's neighbors: the bears. Freedom-loving citizens ignored hunting laws and regulations on food disposal. They built a tent city in an effort to get off the grid. The bears smelled food and opportunity. *A Libertarian Walks Into a Bear* is the sometimes funny,

sometimes terrifying tale of what happens when a government disappears into the woods. Complete with gunplay, adventure, and backstabbing politicians, this is the ultimate story of a quintessential American experiment -- to live free or die, perhaps from a bear.

And Then There Were None Facsimile Edition Simon and Schuster "Then There Were None, by award-winning Honolulu writer and artist Martha H. Noyes, is a personal and emotional account, in words and pictures, of the effect of Western contact on the Hawaiian population. Drawing from a variety of sources, Noyes chronicles the effects, from the arrival of Capt. Cook to the present, of disease, written language, the missionaries, landownership, the overthrow of the monarchy, and the suppression of hula and Hawaiian language, concluding with a look at present-day activism. Photographs vividly contrast tourist images with scenes from the real Hawaii and highlight the contrast between a culture rooted in cosmology and the material culture of those who made Hawaii their own." -- Amazon.com viewed August 4, 2020.

Ten people find themselves stranded in the lonely house on Indian Island when their supposed hosts send word that they have been detained. A mysterious voice, afterwards discovered to come from a gramophone record, indicts each one of them -- the eight guests and the two servants -- of murder. It transpires that no-one has met their hosts and that they have evidently been decoyed to the island. First one and then another dies; each death according to the rhyme of "Ten little Indians," and with each death one of the little china figurines on the mantelpiece is found broken. The tension grows as they realize that the killer is, in fact, one of themselves. Eventually only two little Indians are left; the real killer appears (his death having been feigned) and the remaining two are able to outwit him--Publisher's description
