A Straightforward System for Making Beginner Triathletes
Comfortable and Confident in the Water Rockridge Press

A regimen for training that can be followed by anyone, anywhere, any time of year, and that makes triathloning a pleasure rather than an ordeal. The explosion of interest in physical fitness that has sent Americans running, bicycling, and swimming by the tens of thousands now extends to the fitness competition that combines all three --triathloning. Steven Jonas, a former nonathlete who began endurance sports in middle age, offers an accessible program for anyone from beginner to experienced jogger. Dr. Jonas's own experiences are the basis of this user-friendly book, directed to the person who wants to do more than just run. He sets forth basic recommendations on equipment necessary for triathloning and outlines a three-phased training program that will take the untrained beginner to a state of fitness where he or she can complete a triathlon of moderate distance. The book includes a chapter on nutrition and a stretching program. Dr. Jonas has revised and updated the work to include information on how to run longer races, how to train for the increasingly popular duathlon (run/bike/run), and new tips from his further fifteen years of experience. Techniques, fitness, training, equipment, nutrition, pre-race, the race itself --a readable introduction for the aspiring recreational triathlete. A new chapter on duathlons and how to run longer races, and updated appendixes on the latest magazines and books of interest to triathlons.

The Endurance Diet Rowman & Littlefield

Much too often, the mental aspect of sport performance is overlooked. While all top athletes are in outstanding physical condition and technically exceptional, mental preparation is often what separates the best from the rest. This is just as true for young athletes as it is for pros and Olympians. And even though relatively few athletes will ever reach the top of their sport, the attitudes and life lessons learned from mental training—such as motivation, confidence, focus, perseverance, and resilience—will serve them well in all aspects of their lives. In *Train Your Mind for Athletic Success: Mental Preparation to Achieve Your Sports Goals*, Dr. Jim Taylor uses his own elite athletic experience and decades of working with some of the world's best athletes to provide competitors of every ability with insights, practical exercises, and tools they can use to be mentally prepared when it really counts. His Prime Sport System explores the attitudes that lay the foundation for athletic success, the mental obstacles that can hold athletes back, the preparations they must take, the mental muscles they should strengthen, and the mental tools they need to fine tune their competitive performances. Most

importantly, Dr. Taylor shows athletes practical strategies they can use to become mentally strong so they can perform their best when it matters most. *Train Your Mind for Athletic Success* goes well beyond the typical mental skills that are discussed in other mental training books. Readers will not only learn why mental preparation is so important to athletic success, but also where they personally are in each area thanks to brief mental assessments in each section of the book. In addition, each chapter includes exercises to show athletes how to incorporate mental training directly into their overall sport training regimen. The most comprehensive and in-depth book on mental preparation for athletes available, *Train Your Mind for Athletic Success* is an essential read for athletes, coaches, and parents. The Essential Training Tool and Information Source for the Triathlete and Duathlete Meyer & Meyer Verlag

From the latest on equipment and technology to preventing injuries and dehydration, this guide has you covered. Whether you're gearing up for your first race or you're a hard-core competitor looking to stay ahead of the pack, *Complete Triathlon Guide* is the one book you should not be without.

The Essential Training Log Human Kinetics

Of all three disciplines in triathlon, swimming is the one dreaded the most by age-group triathletes, many of whom have had little formal experience in the water. Fortunately, of the three sports, swimming might be the easiest in which to make improvements. "Triathlon Swimming Foundations" provides a simple, straightforward system developed BY a triathlete FOR triathletes, allowing them to become comfortable and confident in the water using a system of triathlon-specific drills and techniques. Triathletes who follow this program are sure to breathe easily in the water without panic, eliminate sinking legs, gain previously elusive speed, and swim smoothly in a triathlon from the start line right into transition, with plenty of energy left to take on the rest of the race. "Triathlon Taren" Gesell is a triathlete who has become known for his wildly popular Triathlon Taren YouTube page, Instagram account and podcast, where he shares tips, tricks, hacks and time-tested knowledge to help age-groupers get to their start lines confident and their finish lines strong. Based in Winnipeg, Canada, Triathlon Taren is also the head coach of Team Trainiac, a training platform supporting a growing community of triathletes from all around the world.

Triathlon is certainly physically demanding, to say the least, but most triathletes would agree that it is the mental aspect that can determine whether or not they achieve their competitive goals. Resources addressing this key aspect have been hard to come by -- until now. In ""The Triathlete's Guide to Mental Training, the authors -- both accomplished sport psychologists and Ironman triathletes -- offer readers in-depth, practical information and skills they can use to build mental muscle. Readers learn first how to assess their psychological strengths and weaknesses, and then discover the six mental factors that most affect triathlon performance. The book includes essential tools for training and competition, such as routines, mental imagery, and tips on getting organized and setting goals, and also explores what it takes to be an Ironman, the unhealthy side of triathlon, and valuable lessons to be learned from the world's best triathletes.

Strength Training for Triathletes offers a comprehensive strength training program for triathlon that will help triathletes build power, speed, and muscular endurance for faster racing over any race distance. Certified USA Triathlon coach and NSCA Personal Trainer of the Year Patrick Hagerman, EdD, reveals a focused, triathlon-specific strength training program that will enable triathletes to push harder during training and on the racecourse when the effort is hardest. Triathletes who master this progressive strength training program will also become more resistant to injury, meaning fewer missed workouts. *Strength Training for Triathletes* features 75 of the most effective strength

training exercises for triathlon swimming, cycling, and running plus core strength and general conditioning. Full-color photographs illustrate each simple exercise, and exercises are grouped so athletes can focus on their own individual performance limiters. Hagerman simplifies the science underlying strength training, offering easy-to-follow guidelines on resistance and reps that will make triathletes stronger through every phase of the season. Strength Training for Triathletes develops these abilities in triathletes: More powerful, longer-lasting muscles Resistance to fatigue and injury Improved body composition with stronger, leaner muscle mass Better performance without added bulk New in this second edition are sample strength training programs for the most popular triathlon race distances and for each of triathlon's three sports, full-color photographs showing detailed body positions for each exercise, several new exercises, new indexes that specify body-weight exercises and weighted exercises, an exercise log template to track your goal weights, and a new index to improve usability. Strength training often separates the top performers in triathlon from the middle of the pack. Even small improvements in muscle strength can add up to big race results. Strength Training for Triathletes makes it simple for triathletes of all levels to get stronger and race faster.

From bad weather to business travel to traffic safety, there are dozens of reasons why cyclists and triathletes take their rides inside. Although indoor cycling workouts offer the ultimate control over workout conditions, most inside riders don't get the most out of their trainers or spin bikes. RIDE INSIDE offers cyclists and triathletes a smart guide to getting more fitness from every indoor cycling workout. From the world's most experienced personal cycling coach, Joe Friel, RIDE INSIDE reveals all the unique aspects of indoor riding: · Mental aspects like motivation, focus, and enjoyment · Changes in upper body stability, posture, and pedaling technique on a stationary bike · Respiration, hydration, and cooling · Inherent changes in power output · Lower leg tension and eccentric loading from flywheel momentum · Lower effort from lack of terrain changes, headwinds, and crosswinds · Road-like feel · Different shifting patterns All these differences of indoor riding add up to a big impact when the

rubber hits the road. Drawing from the foundations of Friel's classic training guides, The Cyclist's Training Bible and The Triathlete's Training Bible, RIDE INSIDE shows how to apply smart and proven training concepts to indoor cycling. Riders will get expert guidance on the best ways to set up a trainer or smart trainer, how to modify outdoor workouts for indoor cycling, how to better monitor power and RPE, and how to use social online training platforms like Zwift to make training better and not worse. Most critically, RIDE INSIDE shows cyclists and triathletes how to do indoor cycling workouts that actually meet their training goals instead of compromising.

Racing Weight Velopress

The 1989 Ironman World Championship was the greatest race ever in endurance sports. In a spectacular duel that became known as the Iron War, the world's two strongest athletes raced side by side at world-record pace for a grueling 139 miles. Driven by one of the fiercest rivalries in triathlon, Dave Scott and Mark Allen raced shoulder to shoulder through Ironman's 2.4-mile swim, 112-mile bike race, and 26.2-mile marathon. After 8 punishing hours, both men would demolish the previous record-- and cross the finish line a mere 58 seconds apart. In his new book Iron War, sports journalist Matt Fitzgerald writes a riveting epic about how Allen and Scott drove themselves and each other through the most awe-inspiring race in sports history. Iron War goes beyond the pulse-pounding race story to offer a fascinating exploration of the lives of the world's two toughest men and their unquenchable desire to succeed. Weaving an examination of mental resolve into a gripping tale of athletic adventure, Iron War is a soaring narrative of two champions and the paths that led to their stunning final showdown.
