The "Light" is consciousness.

Consciousness is one, manifesting in legions of forms or levels of consciousness. There is no one that is not all that is, for consciousness, though expressed in an infinite series of levels, is not divisional. There is no real separation or gap in consciousness. I AM cannot be divided. I may conceive myself to be a rich man, a poor man, a beggar man or a thief, but the center of my being remains the same, regardless of the concept I hold of myself. At the center of manifestation, there is only one I AM manifesting in legions of forms or concepts of itself and "I am that I am".

Want to make a move but scared to leave your comfort zone? Go anyway. "Jessica's perspective of global sisterhood and the power of lifting each other up in the midst of fear and scarcity is exactly what we need today. This book is both an invitation and a challenge to bravely show up for ourselves, for the people we love, and for the strangers that we will one day call family. I say, Amen!" —Brené Brown, Ph.D., Author of the #1 New York Times bestseller *Braving the Wilderness* In *Imperfect Courage*, the founder of the popular fair trade jewelry brand Noonday Collection shares her story of starting the rapid-growing business that impacts over 4,500 artisans in vulnerable communities across the globe—and invites readers on a journey of transformation, challenging them to trade their comfort zones for a life of impact and adventure. In 2015, Inc. magazine recognized Noonday Collection as one of the fastest-growing companies in America. But years earlier, as Jessica Honegger stood at a pawn-shop counter in Austin, Texas, and handed over her grandmother's gold jewelry, her goal was much more personal: to fund the adoption

of her Rwandan son, Jack, by selling artisan-made jewelry. This first step launched an unexpected side-hustle that would grow into Noonday Collection.

Jessica embarked on this new journey and teamed up with her first artisan partner, Jalia, a Ugandan jewelry maker. She saw the meaningful impact Noonday brought to Jalia's community and knew it was the right move. Fear crept into Jessica's heart as she realized her success, or failure, meant the same for Jalia. But refusing to let fear hinder her goals, Jessica found the necessary (if imperfect) courage she needed along the way--the courage to leave comfort and embrace a life of risk and impact. Discover Your Imperfect Courage In *Imperfect Courage*, Jessica takes you by the hand and invites you to trade your comfort zone for a life of impact and meaning. • First, she invites you to draw a circle of compassion around yourself and leads you through some soul-searching aimed at setting you free from shame. • Next, she challenges all of us to come together, dare to be vulnerable with one another, and commit to building a culture of collaboration. • Finally, Jessica calls on you to broaden your circle of compassion to embrace the entire globe--and to bring your beautifully imperfect courage to a world that needs you.

Success is attainment, without regard to the things attained. Success is essentially the same in all cases; the difference is in the things the successful people want, but not in the success. Success is essentially the same, whether it results in the attainment of health, wealth, development or position; success is attainment, without regard to the things attained. And it is a

law in nature that like causes always produce like effects. You will learn many of the hidden secrets of Prof. Wattles and the art and science of success in this book.

The ONE Thing Pelican Publishing

The finance sector of Western economies is too large and attracts too many of the smartest college graduates.

Financialization over the past three decades has created a structure that lacks resilience and supports absurd volumes of trading. The finance sector devotes too little attention to the search for new investment opportunities and the stewardship of existing ones, and far too much to secondary-market dealing in existing assets. Regulation has contributed more to the problems than the solutions. Why? What is finance for? John Kay, with wide practical and academic experience in the world of finance, understands the operation of the financial sector better than most. He believes in good banks and effective asset managers, but good banks and effective asset managers are not what he sees. In a dazzling and revelatory tour of the financial world as it has emerged from the wreckage of the 2008 crisis, Kay does not flinch in his criticism: we do need some of the things that Citigroup and Goldman Sachs do, but we do not need Citigroup and Goldman to do them. And many of the things done by Citigroup and Goldman do not need to be done at all. The finance sector needs to be reminded of its primary purpose: to manage other people's money for the benefit of businesses and households. It is an aberration when the some of the finest mathematical and scientific minds are tasked with devising algorithms for the sole purpose of exploiting the weakness of other algorithms for computerized trading in securities. To travel further down that road leads to ruin. A Financial Times Book of the Year, 2015 An Economist Best Book of the Year, 2015 A Bloomberg Best Book of the Year, 2015
