All American Boys HarperCollins
Perfect for fans of James Dashner's *The Maze Runner*, *Feedback* is the heart-stopping sequel to *Variant*—which Pittacus Lore, author of *I Am Number Four*, praised as "an intense journey with some of the most shocking twists and turns I've ever read." Benson Fisher escaped from Maxfield Academy's deadly rules and brutal gangs. He thought that the worst was over. But now Benson is trapped in a different kind of prison—a town filled with familiar faces. Classmates from Maxfield who Benson had seen die. Friends he was afraid he had killed. They are all pawns in the school's twisted experiment, held captive and controlled by an unseen force. And while Benson struggles to figure out who, if anyone, can be trusted, he discovers that Maxfield Academy's plans are darker than anything he imagined—and they may be impossible to stop.

Nurses on the Medical Front HarperCollins

With the same unique vision that brought his now classic Mars trilogy to vivid life, bestselling author Kim Stanley Robinson boldly imagines an alternate history of the last seven hundred years. In his grandest work yet, the acclaimed storyteller constructs a world vastly different from the one we know. . . . "A thoughtful, magisterial alternate history from one of science fiction's most important writers."—*The New York Times Book Review* It is the fourteenth century and one of the most apocalyptic events in human history is set to occur—the coming of the Black Death. History

teaches us that a third of Europe's population was destroyed. But what if the plague had killed 99 percent of the population instead? How would the world have changed? This is a look at the history that could have been—one that stretches across centuries, sees dynasties and nations rise and crumble, and spans horrible famine and magnificent innovation. Through the eyes of soldiers and kings, explorers and philosophers, slaves and scholars, Robinson navigates a world where Buddhism and Islam are the most influential and practiced religions, while Christianity is merely a historical footnote. Probing the most profound questions as only he can, Robinson shines his extraordinary light on the place of religion, culture, power—and even love—in this bold New World.

"Exceptional and engrossing."—*New York Post* "Ambitious . . . ingenious."—*Newsday*

The Graveyard Book Penguin

A dead girl, a wealthy family, and indications of drug use. It's a toxic mix that leads Philadelphia detective Matt Payne deep into an unexpected maelstrom of deceit and madness in the latest entry in the *New York Times* bestselling *Badge of Honor* series. In the dark shadows of downtown Philadelphia, the body of a seventeen-year-old suburban high school cheerleader, clad only in her uniform top and with massive bruising on her throat, is found floating in the Delaware River. When Homicide Sergeant Matt Payne surveys the scene, he shakes his head at yet another vicious murder in a city that's suffering record number killings. And he knows this one, involving the petite pretty daughter of a wealthy entrepreneur, will play long and loud in the media. Payne soon learns that the father had his

vessel outfitted with miniature security cameras. Almost the entire crime was captured as digital video. Despite some imperfections, the video shows--in painful, shocking detail--what happened. And who the parents feared was responsible: The University of Pennsylvania student, an ill-mannered and arrogant Middle Easterner with movie star looks, who they had forbidden their daughter to see again. Still, it's not case closed. The murderer has gone underground. Payne races to find the killer before he can unleash an even more savage attack.

We are not alone. They are here. And there's no going back. Perfect for fans of The Fifth Wave and the I Am Number Four series, *Dark Energy* is a thrilling stand-alone science fiction adventure from Robison Wells, critically acclaimed author of *Variant* and *Blackout*. Five days ago, a massive UFO crashed in the Midwest. Since then, nothing—or no one—has come out. If it were up to Alice, she'd be watching the fallout on the news. But her dad is director of special projects at NASA, so she's been forced to enroll in a boarding school not far from the crash site. Alice is right in the middle of the action, but even she isn't sure what to expect when the aliens finally emerge. Only one thing is clear: everything has changed.

Before the war, Eden's life was easy. Then the revolution happened, and everything changed. Now a powerful group called the Wolfpack controls the

earth and its resources. And even though Eden has lost everything to them, she refuses to die by their hands. She knows the coordinates to the only neutral ground left in the world, a place called Sanctuary Island, and she is desperate to escape to its shores. Eden finally reaches the island and meets others resistant to the Wolves. But the solace is short-lived when one of Eden's new friends goes missing. Braving the jungle in search of their lost ally, they quickly discover Sanctuary is filled with lethal traps and an enemy they never expected. This island might be deadlier than the world Eden left behind, but surviving it is the only thing that stands between her and freedom.

Life Inside My Mind Delacorte Books for Young Readers

Shortlisted for the Scotiabank Giller Prize: With striking originality and precision, *Eden Robinson*, the author of the classic *Monkey Beach* and winner of the Writers' Trust of Canada Fellowship, blends humour with heartbreak in this compelling coming-of-age novel.

Everyday teen existence meets indigenous beliefs, crazy family dynamics, and cannibalistic river otters . . . The exciting first novel in her trickster trilogy. Everyone knows a guy like Jared: the burnout kid in high school who sells weed cookies and has a scary mom who's often wasted and wielding some kind of weapon. Jared does smoke and drink too much, and he does make the best cookies in town, and his mom is a mess, but he's also a kid who has an immense capacity for compassion and an impulse to watch over people more than twice his age, and he can't rely on anyone for consistent love and support, except for his flatulent pit bull, Baby Killer (he calls her Baby)--and now she's dead. Jared can't count on his mom to

stay sober and stick around to take care of him. He can't rely on his dad to pay the bills and support his new wife and step-daughter. Jared is only sixteen but feels like he is the one who must stabilize his family's life, even look out for his elderly neighbours. But he struggles to keep everything afloat...and sometimes he blacks out. And he puzzles over why his maternal grandmother has never liked him, why she says he's the son of a trickster, that he isn't human. Mind you, ravens speak to him--even when he's not stoned. You think you know Jared, but you don't.

A Century of Innovation Simon and Schuster

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

Homeland meets Marie Lu's Legend in Blackout, which #1 New York Times bestselling author Ally Condie called "a thrilling combination of Wells's trademark twists and terror. Fantastic!" Laura and Alec are highly trained teenage terrorists. Jack and Aubrey are small-town high school students. There was no reason for their paths ever to cross. But now a mysterious virus is spreading throughout America, infecting teenagers with impossible superpowers—and all teens are being rounded up, dragged to government testing facilities, and drafted into the army to fight terrorism. Suddenly, Jack, Laura, Aubrey, and Alec find their lives intertwined in a complex web of deception, loyalty, and catastrophic danger—where one wrong choice could trigger an explosion that ends it all.

A Blackout Novella HarperCollins

New York Times Bestseller: The "gripping" true story of a beautiful Texas socialite, her ambitious husband, and a string of mysterious deaths (Los Angeles Times). Joan Robinson Hill was a world-class equestrian, a glamorous member of Houston high society, and the wife of Dr. John Hill, a handsome and successful plastic surgeon. Her father, Ash Robinson, was a charismatic oil tycoon obsessed with making his daughter's every dream come true. Rich, attractive, and reckless, Joan was one of the most celebrated women in a town infatuated with money, power, and fame. Then one morning in 1969, she fell mysteriously ill. The sordid events that followed comprise

“what may be the most compelling and complex case in crime annals” (Ann Rule, bestselling author of *The Stranger Beside Me*). From the elegant mansions of River Oaks, one of America’s most exclusive neighborhoods, to a seedy underworld of prostitution and murder-for-hire, New York Times–bestselling author Thomas Thompson tracks down every bizarre motive and enigmatic clue to weave a fascinating tale of lust and vengeance. Full of colorful characters, shocking twists, and deadly secrets, *Blood and Money* is “an absolute spellbinder” and true crime masterpiece (Newsweek).

A Novel Harper Collins

"It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible. In California, wildfires now rage year-round, destroying thousands of homes. Across the US, "500-year" storms pummel communities month after month, and floods displace tens of millions annually. This is only a preview of the changes to come. And they are coming fast. Without a revolution in how billions of humans conduct their lives, parts of the Earth could become close to uninhabitable, and other parts horrifically inhospitable, as soon as the end of this century. In his travelogue of our near future, David Wallace-Wells brings into stark relief the climate troubles that await -- food shortages, refugee emergencies, and other crises that will reshape the globe. But the world will be remade by warming in more profound ways as well, transforming our politics, our culture, our relationship to technology, and our sense of history. It will be all-encompassing, shaping and distorting nearly every aspect of human life as it is

lived today. Like *An Inconvenient Truth* and *Silent Spring* before it, *The Uninhabitable Earth* is both a meditation on the devastation we have brought upon ourselves and an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation"--

Son of a Trickster Tor Science Fiction

This 50-page digital original novella introduces readers to *Blackout*, a series by acclaimed author Robison Wells that combines the high-stakes intensity of television's *Homeland* with the lightning-fast action of *Marie Lu's Legend*.

Benson Fisher thought that a scholarship to Maxfield Academy would be the ticket out of his dead-end life. He was wrong. Now he's trapped in a school that's surrounded by a razor-wire fence. A school where video cameras monitor his every move. Where there are no adults. Where the kids have split into groups in order to survive. Where breaking the rules equals death. But when Benson stumbles upon the school's real secret, he realizes that playing by the rules could spell a fate worse than death, and that escape—his only real hope for survival—may be impossible.

A Fire Upon The Deep Harper Collins

As the healthcare debate rages on with the growth of the HMO industry, nurses quietly continue to provide the day-to-day grit and deeply-felt passion that hold the healing profession together. Within these remarkable women and men are poignant, outrageous stories drawn from the edge of life. But fear of career backlash and reprisals have made them reluctant to talk to outsiders about their experience. Now Echo Heron, New York Times bestselling author of *Intensive Care*, draws truths far stranger than fiction out of her colleagues--and allows the nurses to speak to us in their own words. Ranging from inspiring to tragic to outrageously funny, these narratives are real life medical dramas as experienced by nurses across the country--each practicing in a variety of specialties, including cardiac care, labor and delivery, burns, the ER--even a nurse who works in dolphin care. *Tending Lives* portrays a penitentiary

nurse responsible for orchestrating a murderer's execution; a stroke victim who rose out of his depression when his nurses began telling him jokes; and, perhaps the most riveting testimony, the moment-by-moment memories of several nurses who served in the aftermath of the Oklahoma City bombing--gripping accounts that give us new perspectives on the horror and heroism of that nightmare day. Pediatric nurses, psychiatric nurses, home-care nurses, intensive care nurses--all with distinct voices and unique stories to tell. Filled with both tears and laughter, and charged with the issues that afflict nursing care today, *Tending Lives* is a gripping, moving, inspiring book, a fitting tribute to a noble profession.
