SYLVIA RICHARDSON

Dime! Middle Coast Foreign Language
 One of America's most influential Hispanics -- 'Maria' on Sesame Street -- presents a powerful novel set in New York's El Barrio in 1969. There are two secrets Evelyn Serrano is keeping from her Mami and Papo: her true feelings about growing up in her Spanish Harlem neighborhood, and her attitude about Abuela, her sassy grandmother who's come from Puerto Rico to live with them. Then, like an urgent ticking clock, events erupt that change everything. The Young Lords, a Puerto Rican activist group, dump garbage in the street and set it on fire, igniting a powerful protest. When Abuela steps in to take charge, Evelyn is thrust into the action. Tempers flare, loyalties are tested. Through it all, Evelyn learns important truths about her Latino heritage and the history makers who shaped a nation. Infused with actual news accounts from the time period, Sonia Manzano has crafted a gripping work of fiction based on her own life growing up during a fiery, unforgettable time in America, when

young Latinos took control of their destinies. *Where There is No Doctor* Simon and Schuster
 Finalist for the 2022 Will Rogers Medallion Award "Terrific."
 -Timothy Egan, The New York Times "A riveting investigation of both American myth-making and the real history that lies beneath." -Claudio Saunt, author of *Unworthy Republic* From the New York Times bestselling author of *Escape From Camp 14*, a "terrifically readable" (Los Angeles Times) account of one of the most persistent "alternative facts" in American history: the story of a missionary, a tribe, a massacre, and a myth that shaped the American West. In 1836, two missionaries and their wives were among the first Americans to cross the Rockies by covered wagon on what would become the Oregon Trail. Dr. Marcus Whitman and Reverend Henry Spalding were headed to present-day Washington state and Idaho, where they aimed to convert members of the Cayuse and Nez Perce tribes. Both would fail spectacularly as missionaries. But Spalding would succeed as a propagandist, inventing a story that recast his friend as a hero, and helped to fuel the massive westward migration that would eventually lead to the devastation of those they had purportedly set out to save. As Spalding told it, after uncovering a British and

Catholic plot to steal the Oregon Territory from the United States, Whitman undertook a heroic solo ride across the country to alert the President. In fact, he had traveled to Washington to save his own job. Soon after his return, Whitman, his wife, and eleven others were massacred by a group of Cayuse. Though they had ample reason - Whitman supported the explosion of white migration that was encroaching on their territory, and seemed to blame for a deadly measles outbreak - the Cayuse were portrayed as murderous savages. Five were executed. This fascinating, impeccably researched narrative traces the ripple effect of these events across the century that followed. While the Cayuse eventually lost the vast majority of their territory, thanks to the efforts of Spalding and others who turned the story to their own purposes, Whitman was celebrated well into the middle of the 20th century for having "saved Oregon." Accounts of his heroic exploits appeared in congressional documents, *The New York Times*, and *Life* magazine, and became a central founding myth of the Pacific Northwest. Exposing the hucksterism and self-interest at the root of American myth-making, *Murder at the Mission* reminds us of the cost of American expansion, and of the problems that can arise when history is told only by the victors.

Spanish and the Medical Interview: Clinical Cases and Exam Review Routledge

Zine queen Ayun Halliday confesses the best-and worst-of her globetrotting misadventures. "I laughed hard on nearly every page of this shockingly intimate memoir and deeply funny book." -- Stephen Colbert Ayun Halliday may not make for the most sensible travel companion, but she is certainly one of the zaniest, with a knack for inserting herself (and her unwitting cohorts) into bizarre situations around the globe. Curator of kitsch and unabashed aficionada of pop culture, Halliday offers bemused, self-deprecating narration of events from guerrilla theater in Romania to drug-induced *Apocalypse Now* reenactments in Vietnam to a perhaps more surreal collagen-implant demonstration at a Paris fashion show emceed by Lauren Bacall. On layover in Amsterdam, Halliday finds unlikely trouble in the red-light district -- eliciting the ire of a tiny, violent madam, and is forced to explain tampons to soldiers in Kashmir -- "they're for ladies. Bleeding ladies" -- that, she admits, "might have looked like white cotton bullets lined up in their box." A self-admittedly bumbling vacationer, Halliday shares -- with razor-sharp wit and to hilarious effect -- the travel stories most are too self-conscious to tell. Includes line drawings, generously provided by the author.

Bringing Up Bébé meets *Last Child in the Woods* in this "fascinating exploration of the importance of the outdoors to childhood development" (*Kirkus Reviews*) from a Swedish-American mother who sets out to discover if the nature-centric parenting philosophy of her native Scandinavia holds the key to healthier, happier lives for her American children. Could the Scandinavian philosophy of "There's no such thing as bad weather, only bad clothes" hold the key to happier, healthier lives for American children? When Swedish-born Linda Åkeson McGurk

moved to Indiana, she quickly learned that the nature-centric parenting philosophies of her native Scandinavia were not the norm. In Sweden, children play outdoors year-round, regardless of the weather, and letting babies nap outside in freezing temperatures is common and recommended by physicians. Preschoolers spend their days climbing trees, catching frogs, and learning to compost, and environmental education is a key part of the public-school curriculum. In the US, McGurk found the playgrounds deserted, and preschoolers were getting drilled on academics with little time for free play in nature. And when a swimming outing at a nearby creek ended with a fine from a park officer, McGurk realized that the parenting philosophies of her native country and her adopted homeland were worlds apart. Struggling to decide what was best for her family, McGurk embarked on a six-month journey to Sweden with her two daughters to see how their lives would change in a place where spending time in nature is considered essential to a good childhood. Insightful and lively, *There's No Such Thing as Bad Weather* is a fascinating personal narrative that illustrates how Scandinavian culture could hold the key to raising healthy, resilient, and confident children in America.

President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America's foremost deal-maker. "I like thinking big. I always have. To me it's very simple: If you're going to be thinking anyway, you might as well think big."—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker's art. And throughout, Trump talks—really talks—about how he does it. *Trump: The Art of the Deal* is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for *Trump: The Art of the Deal* "Trump makes one believe for a moment in the American dream again."—*The New York Times* "Donald Trump is a deal maker. He is a deal maker the way lions are carnivores and water is wet."—*Chicago Tribune* "Fascinating . . . wholly absorbing . . . conveys Trump's larger-than-life demeanor so vibrantly that the reader's attention is instantly and fully claimed."—*Boston Herald* "A chatty, generous, chutzpa-filled autobiography."—*New York Post*

"Halting State [is] a near-future story that is at once over-the-top and compellingly believable." – Vernor Vinge, author of *Rainbows End* In the year 2018, Sergeant Sue Smith of the Edinburgh constabulary is called in on a special case. A daring bank robbery has taken place at Hayek Associates—a dot-com start-up company that's just floated onto the London stock exchange. But this crime may be a bit beyond Smith's expertise. The prime suspects are a band of marauding orcs with a dragon in tow for fire support. The bank is located within the virtual reality land of Avalon Four, and the robbery was supposed to be impossible. When word gets out, Hayek Associates and all its virtual "economies" are going to crash hard. For Smith, the investigation seems pointless. But the deeper she digs, the bigger the case gets. There are powerful players—both real and pixelated—who are watching her every move. Because there is far more at stake than just some game-head's fantasy financial security...

Ralph Moody was eight years old in 1906 when his family moved from New Hampshire to a Colorado ranch. Through his eyes we experience the pleasures and perils of ranching there early in the twentieth century. Auctions and roundups, family picnics, irrigation wars, tornadoes and wind storms give authentic color to Little Britches. So do adventures, wonderfully told, that equip Ralph to take his father's place when it becomes necessary. Little Britches was the literary debut of Ralph Moody, who wrote about the adventures of his family in eight glorious books, all available as Bison Books.

The undisputed master of the crime novel strikes again with this powerfully entertaining story, set in 1920s Oklahoma, that introduces one of the toughest lawmen ever to come out of the west. . . . Carlos Webster was 15 the day he witnessed his first murder—but it wouldn't be his last. It was also his first introduction to the notorious gunman, Emmet Long. By the time Carlos is 20, he's being sworn in as a deputy United States marshal and now goes by the name Carl. As for Emmet, he's robbing banks with his new partner, the no-good son of an oil millionaire. Carl Webster and Emmet Long may be on opposite sides of the law but their long-time game of cat and mouse will turn them both into two of the most famous names in crime and punishment.

An Essential Course in Modern Spanish Simon and Schuster
The second edition of the Impact Evaluation in Practice handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates

real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.

Claudette Colvin Harper Collins

"One of the most profound and illuminating studies of this century to have been published in recent decades."—John Gray, New York Times Book Review Hailed as "a magisterial critique of top-down social planning" by the New York Times, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail—sometimes catastrophically—in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. "Beautifully written, this book calls into sharp relief the nature of the world we now inhabit."—New Yorker "A tour de force."—Charles Tilly, Columbia University

The Landlord's Law Book: Rights and responsibilities NOLO

Amid the aroma of the sea and the Galician pines, a young saxophonist is found dead in his swanky flat overlooking the beach. The murder seems to have taken place after a sexual encounter with a lover: there are two glasses filled with gin in the living room, and the dead man, Luis Reigosa, is tied by the wrists to the headboard of the bed. But the way he was killed makes it impossible to obtain any more clues about his activities that night: his stomach, groin and thighs are horribly burned, and his genitals look hideously like a toasted cashew. The unusually cold-blooded and cruel murder is assigned to Leo Caldas, a disheartened police inspector still searching for his place in the world. The case unfolds between inviting nights at the jazz clubs and the tense, affected atmosphere of affluent Vigo.
