## ERICK KENZIE

Teachers' and Students' Perspectives Routledge  
King John is one of those historical characters who needs little in the way of introduction. If readers are not already familiar with him as the tyrant whose misgovernment gave rise to Magna Carta, we remember him as the villain in the stories of Robin Hood. Formidable and cunning, but also cruel, lecherous, treacherous and untrusting. Twelve years into his reign, John was regarded as a powerful king within the British Isles. But despite this immense early success, when he finally crosses to France to recover his lost empire, he meets with disaster. John returns home penniless to face a tide of criticism about his unjust rule. The result is Magna Carta - a ground-breaking document in posterity, but a worthless piece of parchment in 1215, since John had no intention of honoring it. Like all great tragedies, the world can only be put to rights by the tyrant's death. John finally obliges at Newark Castle in October 1216, dying of

dysentery as a great gale howls up the valley of the Trent.

*1107* Letts and Lonsdale  
The definitive and fully illustrated guide to the Bayeux Tapestry. The full history of the events leading up to the Battle of Hastings and the story of the tapestry itself. Most people know that the Bayeux Tapestry depicts the moment when the last Anglo-Saxon king of England, Harold Godwinson, was defeated at the Battle of Hastings in 1066 by his Norman adversary William the Conqueror. However, there is much more to this historic treasure than merely illustrating the outcome of this famous battle. Full of intrigue and violence, the tapestry depicts everything from eleventh-century political and social life—including the political machinations on both sides of the English Channel in the

years leading up to the Norman Conquest—to the clash of swords and stamp of hooves on the battle field. Drawing on the latest historical and scientific research, authors David Musgrove and Michael Lewis have written the definitive book on the Bayeux Tapestry, taking readers through its narrative, detailing the life of the tapestry in the centuries that followed its creation, explaining how it got its name, and even offering a new possibility that neither Harold nor William were the true intended king of England. Featuring stunning, full-color photographs throughout, *The Story of the Bayeux Tapestry* explores the complete tale behind this medieval treasure that continues to amaze nearly one thousand years after its creation.

Let SHP successfully steer you through the new specification with an exciting, enquiry-based series that invigorates teaching and learning; combining best practice principles and worthwhile tasks to develop students' high-level historical knowledge and skills. - Tackle unfamiliar topics from the broadened

curriculum with confidence: the engaging, accessible text covers the content you need for teacher-led lessons and independent study - Ease the transition to GCSE: step-by-step enquiries inspired by best practice in KS3 help to simplify lesson planning and ensure continuous progression within and across units - Build the knowledge and understanding students need to succeed: the scaffolded three-part task structure enables students to record, reflect on and review their learning - Boost student performance across the board: suitably challenging tasks encourage high achievers to excel at GCSE while clear explanations make key concepts accessible to all - Rediscover your enthusiasm for source work: a range of purposeful, intriguing visual and written source material is embedded at the heart of each investigation to enhance understanding - Develop students' sense of period: the visually stimulating text design uses memorable case studies, diagrams, infographics and contemporary photos to bring fascinating events and people to life

### *Doomsday Book* Exploring History

A new approach to studying Britain from 1066 to 1485 with this lively and informative history text book for 11 to 14-year olds. Suitable for mixed abilities, it provides the knowledge and skills combined with an entertaining style to learn and build history skills. Contains clear objectives for students and includes taskwork that develops literacy, numeracy and thinking skills. History was never so entertaining! Oxford University Press - Children

Written to match the new 2014 National Curriculum with expert support from experienced Head of History, Aaron Wilkes, the third editions of this well-loved series will hook your students' interest in KS3 History whilst helping them prepare for GCSE. Invasion, Plague and Murder 1066-1509 is the first of four new third editions, and covers: Britain before 1066, the Norman Conquest, castles, religion in the Middle Ages, life in the Middle Ages, rulers, health and medicine, justice in Medieval Britain, wars of the Middle Ages and change over time.

### **The Story of the Bayeux Tapestry:**

### **Unraveling the Norman Conquest**

Cambridge University Press  
This book constitutes a major reappraisal of the late Anglo-Saxon state on the eve of its demise. Its principal focus is the family of Ealdorman Leofwine, which obtained power in Mercia and retained it throughout an extraordinary period of political upheaval between 994 and 1071. In doing so it explores a paradox: that earls were extraordinarily wealthy and powerful yet distinctly insecure. The book contains the first extended treatment of earls' powers in late Anglo-Saxon England and shows that although they wielded considerable military, administrative and political powers, they remained vulnerable to exile and other forms of political punishment including loss of territory. The book also offers a path-breaking analysis of land tenure and the mechanics of royal patronage, and argues that the majority of earls' estates were held from the king on a revocable basis for the duration of their period in office. In order to compensate for such insecurities, earls used lordship and religious patronage to

construct local networks of power. The book uses innovative methods for interpreting the representation of lordship in Domesday Book to reconstruct the affinity of the earls of Mercia. It also examines how the house of Leofwine made strategic use of religious patronage to cement local power structures. All this created intense competition between the earls of Mercia and their rivals for power, both at court and in the localities, and the book explores how factional rivalry determined the course of politics, and ultimately the fate of the late Anglo-Saxon state.

Effective Teaching And Learning HarperCollins UK  
Five years in the writing by one of science fiction's most honored authors, Domesday Book is a storytelling triumph. Connie Willis draws upon her understanding of the universalities of human nature to explore the ageless issues of evil, suffering and the indomitable will of the human spirit. For Kivrin, preparing an on-site study of one of the deadliest eras in humanity's history was as simple as receiving inoculations against the diseases of the fourteenth century

and inventing an alibi for a woman traveling alone. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of superstition and fear, Kivrin—barely of age herself—finds she has become an unlikely angel of hope during one of history's darkest hours. Praise for Domesday Book “A stunning novel that encompasses both suffering and hope. . . . The best work yet from one of science fiction’s best writers.”—The Denver Post “Splendid work—brutal, gripping and genuinely harrowing, the product of diligent research, fine writing and well-honed instincts, that should appeal far beyond the normal science-fiction constituency.”—Kirkus Reviews (starred review) “The world of 1348 burns in the mind’s eye, and every character alive that year is a fully recognized being. . . . It becomes possible to feel . . . that Connie Willis did, in fact, over the five years

Doomsday Book took her to write, open a window to another world, and that she saw something there.”—The Washington Post Book World

The years between 900 and 1200 saw transformative social change in Europe, including the creation of extensive town-dwelling populations and the proliferation of feudalised elites and bureaucratic monarchies. In England these developments were complicated and accelerated by repeated episodes of invasion, migration and changes of regime. In this book, scholars from disciplines including history, archaeology and literature

reflect on the major trends which shaped English society in these years of transition and select key themes which encapsulate the period. The authors explore the landscape of England, its mineral wealth, its towns and rural life, the health, behaviour and obligations of its inhabitants, patterns of spiritual and intellectual life and the polyglot nature of its population and culture. What emerges is an insight into the complexity, diversity and richness of this formative period of English history.

**Focus On... Britain**

**1066-1500** Hodder Murray

Matilda, wife of William the Conqueror, was the first woman to be crowned Queen of England and formally recognised as such by her subjects. Beyond this, however, little is known of her. No contemporary images of her remain, and the chroniclers of her age left us only the faintest clues as to her life. Who was this spectral queen? In this first major biography, Tracy Borman sifts through the shards of evidence to uncover an extraordinary story. Matilda was loving and pious, possessed strength, ambition and

intelligence, and was fiercely independent. All of these attributes gave her unparalleled influence over William. But although Matilda would provide an inspiring template for future indomitable queens, it led to treachery, revolt and the fracturing of a dynasty.

"Matilda: Queen of the Conqueror" takes us from the courts of Flanders to the opulence of royal life in England. Alive with intrigue, rumour and betrayal, it illuminates for the first time the life of an exceptional, brave and complex queen pivotal to the history of England.

Get a head start in AQA GCSE (9-1) History by using Key Stage 3 to build the skills required for GCSE success. Easily incorporated into your existing two or three-year KS3 curriculum, and perfect for classwork or homework, these Workbooks: - Introduce and develop GCSE skills in the context of the KS3 content that you already teach, ensuring that pupils work towards the GCSE Assessment Objectives from Year 7 onwards - Break down the skills that pupils need to answer the AQA GCSE question types into short, focused and accessible activities that can be completed at any stage in your KS3 course - Coach pupils through common challenges by simplifying interpretations to KS3-level and supplying writing frames, word banks and model answers to support extended writing tasks - Make pupils feel confident about their progress through KS3 as the Unit Aims and Skills Tracker illustrate and reinforce how the Workbooks prepare them for GCSE - Facilitate formative assessment and

reporting, providing termly opportunities for pupils to answer gradable GCSE-style questions that identify strengths and weaknesses in their skills

- Help you measure attainment against the GCSE criteria, using real pupil responses to the GCSE-style questions, available online and marked by teachers with explanatory comments

[The Fall of the Anglo-Saxons and the Rise of the Normans](#) Galore Park

This book examines how teachers and students actually go about their classroom business. It carefully avoids the assumptions of policy-makers and theorists about what ought to be happening and focuses on what is happening. In doing so, Cooper and McIntyre offer: \* a detailed look at how teachers are responding to the National Curriculum \* a unique insight into

secondary school students as learners \* a grounded analysis of teaching and learning strategies drawing on the psychological theories of Bruner and Vygotsky The book follows on from Donald McIntyre's previous book Making Sense of Teaching and will be of interest to student teachers, teachers studying for advanced degrees and academics involved in teacher education.
