*Winning Forex Trading Strategies 2021* Jim Brown

I will tell you more about my book later, but first, let me tell you a story to make my point even more clear. The other day I took my wife to a B&B to an island not too far from where I live. We drove about 30 min to get to the place It was a beautiful day the sun was up. The ocean was calm and nice, no wind you could glide on the surface if you wanted to. Man...this island was beautiful, flowers blooming everywhere in February. Keep reading we will get to the strawberries! So I get to this B&B, my wife is like gleaming can't wait to see what's in the house, the house was set up in a old colonial style at least that's what my wife told me. So before I get in the house I go around, cause there is a beautiful garden and I see that there is a basement floor which is completely empty. By the way what I am telling you has a lot to do with Forex trading, I have a purpose to my madness, so bear with me. But before I go further let me tell you what happened. I go and ask the host about the basement floor... you know why they are not using it, looks decent to me. So she goes ahead and tells me at least a dozen hurricane stories and how last time there was a hurricane, the water stood up eight feet strong on the street and that floor was always stuck under water and had to be completely wiped out and cleaned and how they decided not to use it any more. See my friend Forex trading can be like that beautiful island and a gorgeous paradise... The problem is that storms and hurricanes are a normal events in tropical paradise. The reason I wrote this book is so you don't end up being on the basement of Forex and get flushed every time there is a hurricane. If you are newbie or even a somewhat experienced trader, but live in the basement of Forex, you will get wiped out every single time. I promise you! The basement of Forex is full with indicator worship going on, in all kinds of indicator temples. Of course your broker is leading the main quire... fast to give you the free education and all of the stochastic, bands and other ropes so you can hang yourself fast. See in most cases your broker is on the opposite side of your trades unless he is an ECN broker(tip there is no guarantees the ECN brokers are not doing it, since they have all the info of your trades and stops.) So basically they have to hedge your trades, because they are not a price maker, but continually bidding for better quotes from the banks. So you the innocent retail trader enter the trade and the slaughter begins. I am sick and tired of seeing innocent hard working people, like you get slaughtered every day by the broker. I wrote this book for you, so it doesn't happen again. I have done all the hard work for you, and put a system that will give you a step by step guidance for success with Forex. You are just a few keyboard clicks away from getting your eyes open to the Forex reality and trading like the pros. Take a click of faith, punch few buttons and jump the gap. See you on the other side!

You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section on any other book store. I have paid thousands of dollars

on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you.This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. The book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market lose money and give up. The market is continually replaced by fresh blood like yourself. Don't become part of the statistics, read this book and get a map to success in FOREX. You can make a success in FOREX if you know what you are doing. Yes you can make a living with FOREX and quit your job. You can achieve your dreams. Buy this book and find out How?

"How to Trade Forex and Currency Markets: A Beginner's Guide to Professional Forex Trading" is a practical and easy-to-follow workbook for people interested in forex (foreign exchange) trading. Geared for newcomers to currency trading, the book takes its readers through the fundamentals of the market and provides easily-understood explanations of basic principles and terminology. One particularly interesting feature that distinguishes Zac Zarr's book from other publications on forex trading is that it provides its readers with a novel way of gaining insight into market developments. As Zarr points out early in the book, forex trading is the playground of two basic types of traders: individuals like Zarr (and presumably his readers), and what he terms the "big players." It's a dramatically uneven playing field, pitting relatively inexperienced amateurs trading alone with their own limited funds against corporate professionals trading with the advice and copious budgets of their employers. The ability of these solitary traders to influence the directions of markets is negligible, while the big players have the money and the volume to place their collective hands on the steering wheel. So, Zarr concluded early in his ten-year trading career, if you can't beat them, join them - not by applying for a job with your corporate competitors, but by getting inside their heads and figuring out how they think. That way, you can not only understand their moves, you can also anticipate them. Unlike some of his counterparts, Zac Zarr is no snake oil salesman. He offers no wild promises of amazing profits for just following a few simple directions. Zarr does, however, establish a warm and empathetic relationship with his readers as he provides straightforward step-by-step explanations with hundreds of examples based on his own real-life forex trading

experiences. Although "How to Trade Forex and Currency Markets: A Beginner's Guide to Professional Forex Trading" was written primarily for beginners, it's a book that many veteran traders will also want to read to gain new insights into the workings of currency markets.

Would you like to learn to trade Forex like a fund manager? With the method explained in this book, you can do it from your home studio. Hi, I am David; I have over 25 years of experience in financial markets and two as a fund manager. Forex is the most exciting and dynamic market; with its 4 trillion dollars traded each day, it is the largest financial market in the world, and that's why it is also the most speculated. Trading with currencies is very easy, you have only to make a Google search, and you will find many brokers who will be happy to open an account for you, even with a deposit of only a few dollars. What is not so easy, it is to get constant profits month after month. With "Forex with Fundamental Analysis" you will discover a new way of seeing the Forex, of analysing a currency pair. You will learn the dynamics that really move the currencies. You will understand the motivations behind specific movements; you will get a clear analysis of each currency, and you will know how to use it to your advantage. It is not certainly an indicator that makes a currency pair will rise or fall, but much larger force. You will learn a correct and well-defined method to trade a currency pair. You will follow the trail of the big speculators, by distancing yourself from the mass of small fish that every day get eaten by sharks that swim in the "forex ocean." A method that comes from over 25 years of experience in financial markets, even as a fund manager for a small Italian investment bank, and which I imported and adapted to my way to trade, and that you too can use. At first glance, probably some concepts may seem complicated, but I assure you that with time and practice you will assimilate them without any problems, and it will become natural to apply them in your forex analysis. You just have to stop seeing a currency pair as a single entity, like a price, and start, instead, to see it as two opposing economies because a currency is the mirror of its economy. You do not have to see Eur-Usd as a single market, but as the Eurozone economy versus the American economy. This concept is the starting point of the entire analysis that you will learn reading this e-Book. "Forex with Fundamental Analysis" is an e-Book that will change your way to trade in the forex market. What you will learn reading "Forex Fundamental Analysis": - to compare two economies;- to trace fundamental supports and resistances;- to read reports and minutes;- to make a macro-data analysis;- to correctly analyse a currency pair;- to use subjective probability to select the best trade entry;- to set the stop-loss using the Value-at-Risk;- and other important aspects with clear examples. If you are a novice, you have little experience with Forex trading and would like to learn this activity, or you are a trader that, despite continuous study and constancy in following the currencies, you are not fully satisfied with the results obtained so far, "Forex Fundamental Analysis" is the starting point for your career as a Forex trader

You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section on any other book store. I have paid thousands of dollars on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you. This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on

**Real and actionable techniques for profiting from the currency markets** CreateSpace Ever felt like knocking your boss the eff out? Even if you're your own boss? I have. I remember the day I decided to punch my boss in the face. One of the best decisions I ever made by far. It was glorious. A "V" day of sorts. I just walked in his office, looked him straight in the eyes, and did a spinning back fist. Yeah, that's right ... a spinning back fist. Bruce Lee style, baby. I missed of course. And fell. But nevertheless ... my point had been made. I picked myself back up off the floor, slotted back to my cubic-hell, and resumed my daily torchores like a good little drone. And then I woke up. Literally. Like ... in a bed. I was just a stupid dream. "Man", I thought. "If I can't even punch my boss the right way in my dreams, how the heck am I ever gonna do it in real life?" So I decided to do what every sensible human being does in his mid-thirties ... give up on my dreams. Luckily for me I had two dreams. One was to punch my boss in the face. The other was to quit my job and get filthy rich doing stuff that made me happy. Swing-and-a-miss on the first dream (pun intended). Home run on the second one. Like ... grand slam home run. I wanna tell you both how I did it and how you can be one of my "RBI"s. I've done all the hard work for you. All you have to do is quit your job and come on home. Here's my point ... You can have and do whatever the heck you want. You can, to a certain degree, create your own reality. But it's not easy. Which is why I've decided to create your reality for you. Wanna see it? Step into it even? You would if you knew what was on the other side. All ya gotta do is punch a few buttons and get this book. But you're going to have to take a click of faith.
