RICHARD BLAZE

Go Kiss the World Forgotten Books

When this classic collection of stories first appeared—in 1962, on the author's thirtieth birthday—Arthur Mizener wrote in The New York Times Book Review: "Updike is a romantic [and] like all American romantics, that is, he has an irresistible impulse to go in memory home again in order to find himself. . . . The precise recollection of his own family-love, parental and marital, is vital to him; it is the matter in which the saving truth is incarnate. . . . Pigeon Feathers is not just a book of very brilliant short stories; it

is a demonstration of how the most gifted writer of his generation is coming to maturity; it shows us that Mr. Updike's fine verbal talent is no longer pirouetting, however gracefully, out of a simple delight in motion, but is beginning to serve his deepest insight."

This ambitious and vivid study in six volumes explores the journey of a single, electrifying story, from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery, but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt; he is saved when the

statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth-century Paris, before its translation into English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today. In this volume Jan Ziolkowski follows the juggler of Notre Dame as he cavorts through new media, including radio, television, and film, becoming closely associated with Christmas and embedded in children's literature. Presented with great clarity and simplicity, Ziolkowski's work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore, performance studies, and reception studies.

"This book is called a manifesto because it has an unapologetically political objective. Richard Utz wants to help reform the way we think about and practise our academic engagement with medieval culture, and he uses his own observations as a medievalist and medievalism-ist over the last twenty-five years to offer ways in which we might reconnect with the general public that has allowed us to become, since the late nineteenth century, a rather exclusive clan of specialists who communicate mostly with each other. The traditional academic study of the Middle Ages, after more than a century of growing and plateauing, is now on the decline. While, at least over the

next five to ten years, we will still be basking in the reassuring proximity (at conferences) of thousands of others who are involved in what we do ourselves, there is a manifest discrepancy between the large number of students who request that we address their love of Harry Potter, Lord of the Rings, Game of Thrones, and medieval-themed video and computer games, and the decreasing number of actual medievalists hired to replace retiring colleagues. We should pursue more lasting partnerships with so-called amateurs and enthusiasts for the sake of a sustainable future engagement with medieval culture. Richard Utz suggests some ways we might do this, and looks forward to "a more truly co-disciplinary, inclusive, democratic, and humanistic engagement with what we call, for better or worse, the Middle Ages"."--Bloomsbury Publishing.

'Go, kiss the world' were Subroto Bagchi's blind mother's last words to him. These words became the guiding principle of his life. Subroto Bagchi grew up amidst what he calls the 'material simplicity' of rural and small-town Orissa, imbibing from his family a sense of contentment, constant wonder, connectedness to a larger whole and learning from unusual sources. From humble beginnings, he went on to achieve extraordinary professional success, eventually co-founding MindTree, one of India's most admired software services companies. Through personal anecdotes and simple words of wisdom, Subroto Bagchi brings to the young professional lessons in working and living, energizing ordinary people to lead extraordinary lives. Go Kiss the World will be an inspiration to 'young India', and to those who come from small-town India, urging them to recognize and develop their inner strengths, thereby helping them realize their own, unique potential.
