LIN GABRIELLE

Life Skills, Grade 4 DK Children

In both Europe and North America during the past 20 years, controversy has surrounded the education of children from linguistic minority backgrounds. An increasing number of minority children are experiencing difficulties at school and many leave school with no formal qualifications. There are fears among many educators and policy-makers that an entire generation of alienated youth with no future prospects is being produced by western educational systems. This book analyses policy issues regarding the education of minority students in western industrialised societies and presents a number of case studies of programs that have been successful in reversing the pattern of minority students' academic failure. A central theme throughout the volume is that the causes of minority students' academic difficulties are rooted in the power relations between the dominant and subordinate groups in society. Schools have typically reflected and reinforced these power relations through strategies such as punishment of children for speaking their mother tongue at school with the result that minority students have not developed confidence in their own cultural identity or academic abilities. Reversal of minority students' school failure requires that educators set out to enable both minority students and communities to empower themselves. The presentation of case studies in which this empowerment has been successfully achieved is complemented by the perspectives of individuals and minority communities who have been involved in the struggle for educational and linguistic rights of minority children.

Special Needs Education Penguin

Afrikaans Sonder Grense 3 NB Publishing

Comprehensive, up to date, and highly practical, this volume discusses factors that affect struggling readers in grades 7-12 and provides research-based strategies for improving their reading and writing skills. Chapters from leading authorities examine why some adolescents have trouble achieving reading proficiency, describe schoolwide policies and programs that support literacy, and suggest age-appropriate classroom practices for promoting reading success. The book shows how literacy skills and strategies can be incorporated into instruction in all areas of the curriculum. Essential topics include assessment; building core competencies, such as fluency, comprehension, and vocabulary; and working with struggling adolescent English language learners.

Study and Master Economic and Business Management Grade 7 for CAPS Learner's Book Juta and Company Ltd

South Africa has become a nation defined by its protests. Protests can, and do, bring societal problems to public attention in direct, at times dramatic, ways. But governments the world over are also tempted to suppress this right, as they often feel threatened by public challenges to their authority. Apartheid South Africa had a shameful history of repressing protests. The architects of the country's democracy expressed a determination to break with this past and recognise protest as a basic democratic right. Yet, today, there is concern about the violent nature of protests. Protest Nation challenges the dominant narrative that it has become necessary for the state to step in to limit the right to protest in the broader public interest because media and official representations have created a public perception that violence has become endemic to protests. Bringing together data gathered from municipalities, the police, protestor and activist interviews, as well as media reports, the book analyses the extent to which the right to protest is respected in democratic South Africa. It throws a spotlight on the municipal role in enabling or mostly thwarting the right. This book is a call to action to defend the right to protest: a right that is clearly under threat. It also urges South Africans to critique the often-skewed public discourses that inform debates about protests and their limitations. Jane Duncan is a professor in the Department of Journalism, Film and Television at the University of Johannesburg. She was the executive director of the Freedom of Expression Institute, and has written widely on freedom of expression, the right to protest and media policy. [Subject: African Studies, Politics, Sociology]

The Mildenhall Treasure University of Kwazulu Natal Press

This five-volume collection lays out the foundations and nuances of literacy studies. Beginning with the theoretical and epistemological perspectives that have been influential in shaping contemporary approaches in literacy studies, the set further explores new digital literacies, literacy in educational and institutional contexts, and the crucial issues of literacy in relation to social mobility, multilingualism and globalization. With a full introduction to the set and to each volume, researchers will find in this set a comprehensive guide to this crucial area of study.

Twee dinge gebeur daardie dag met my: Ek kry die vreeslike nuus, en ek kry 'n groot geskenk. Ma het my my hand gevat en dit sag aan my probeer verduidelik: "Elmar, sulke dinge gebeur maar tussen grootmense. Ek en jou pa het gedink ons het mekaar lief, maar dinge het verander." Maar toe ontdek ek die rooi vlieër ...

Die Dae van die rooi vlieër Penguin Random House South Africa

Set in South Africa, *MindF**k* is a powerful, disturbing, and at times frightening story. Chris Burns, and his friends - Kerbs and Sky Eyes - take to the road, heading for the MindF**k rock festival. Along the way they pick up the gorgeous Partygirl. Burns and Partygirl connect immediately. But on the first night, while the rockmusic blasts from the stage, something unexpected happens - Burns's world gets turned on its head as one of the boys emerges from the tent with blood on his hands. *MindF**k* is a real page-turner. The gripping, character-focused, first-person narrative delves right to the heart of a life on-the-edge and virtually out of control. Gritty, hard-hitting, and often shocking, it is packed with drama, emotion, suspense and intrigue from one page to the next. And there is a serious sting in the tail. *MindF**k* is part of the Cutting Edge series: fast-paced, quick reads for teens and young adults looking for fiction which chimes with their perspective on life. *MindF**k* is a title in the highly contemporary Cutting Edge fiction series for young adults. The series features fast-paced quick reads. Each book focuses on difficult topics and situations that many teenagers will have experienced first-hand or through friends. Cutting Edge is ideal for readers aged 14+ with a reading age of 12+.

Study and Master Geography Grade 10 CAPS Study Guide Guilford Press

Dutch: A Comprehensive Grammar is a complete reference guide to modern Dutch grammar. This completely updated new edition covers the new spelling system introduced in 1997 and the latest reform of 2005. A new section covers modal particles. Concentrating on the real patterns of use in modern Dutch through lively and accessible descriptions of the language, the Grammar is an essential reference source for the learner of Dutch, irrespective of level. It is ideal for use in schools, colleges, universities and adult classes of all types as well as being indispensable to those teaching themselves. The volume is organized to promote a thorough understanding of Dutch grammar. It offers a stimulating analysis of the complexities of the language, and provides full and clear explanations. Throughout, the emphasis is on Dutch as used by present-day native-speakers. An extensive index and numbered paragraphs provide readers with easy access to the information they require. Features include: • detailed treatment of the common grammatical structures and parts of speech • extensive exemplification • particular attention to areas of confusion and difficulty • Dutch-English parallels highlighted throughout the book

The Hidden Life of Hanna Why SAGE Publications Limited

The Book of Squares by Fibonacci is a gem in the mathematical literature and one of the most important mathematical treatises written in the Middle Ages. It is a collection of theorems on indeterminate analysis and equations of second degree which yield, among other results, a solution to a problem proposed by Master John of Palermo to Leonardo at the Court of Frederick II. The book was dedicated and presented to the Emperor at Pisa in 1225. Dating back to the 13th century the book exhibits the early and continued fascination of men with our number system and the relationship among numbers with special properties such as prime numbers, squares, and odd numbers. The faithful translation into modern English and the commentary by the translator make this book accessible to professional mathematicians and amateurs who have always been intrigued by the lure of our number system.

The Educator as Mediator of Learning University of Chicago Press

Describes how a British plowman unearthed a collection of Roman silver in the 1940s and the events that followed this tremendous discovery.
