Regaining Biblical Clarity in a Secular Culture Multnomah Books

Acclaimed church leader, blogger, founder and chief strategic officer of The Unstuck Group, Tony Morgan unpacks the lifecycle of a typical church, identifies characteristics of each phase, and provides practical next steps a church can take to move towards

sustained health. Think about your church for a moment. Is it growing? Is it diminishing? Is it somewhere in between? Acclaimed church leader, blogger, and founder and chief strategic officer of The Unstuck Group, Tony Morgan has identified the seven stages of a church's lifecycle that range from the hopeful and optimistic days of launch, to the stagnating last stages of life support. Regardless of the stage in which you find your church, it carries with it the world's greatest mission—to "go and make disciples of all the nations . . ." With eternity at stake the Church should be doing most everything within its power to see lives changed forever. The Church should strive for the pinnacle of the lifecycle, where they are continually making new disciples and experiencing what Morgan refers to as "sustained health." In *The Unstuck Church*, Morgan unpacks each phase of the church lifecycle, and offers specific and strategic next steps the church leader can take to find it's way to sustained health . . . and finally become unstuck. *The Unstuck Church* is a call for honest an assessment of where your church sits on the lifecycle, and a challenge to move beyond it.

Shameless Joel Comiskey

In *Roe v. Wade*, perhaps the most controversial United States Supreme Court decision, Norma McCorvey fought for and won the right to secure an abortion. Though she never had an abortion, under the pseudonym "Jane Roe," Norma reluctantly became the poster child for the pro-choice movement. Over the next two decades, Norma experienced the grief and despair of millions of women who chose to abort their babies; she witnessed the destruction of thousands of human lives in abortion clinics where she worked; and the "champion" of the pro-choice movement

was soon being crushed by the weight of so much pain, so much death, and so many ill-considered "choices." Finally, she began to break. She found out that the real choice she had been burdened with was not about abortion but about eternal life. It was a choice that would shock the world and change Norma's life forever.

The political philosopher Ryan T. Anderson, bestselling author of *When Harry Became Sally: Responding to the Transgender Moment*, teams up with the pro-life journalist Alexandra DeSanctis to expose the catastrophic failure—social, political, legal, and personal—of legalized abortion. Hope in the Ruins of *Roe* With the Supreme Court poised to return abortion law to the democratic process, a powerful new book reframes the coming debate: Our fifty-year experiment with unlimited abortion has harmed everyone—even its most passionate proponents. Women, men, families, the law, politics, medicine, the media—and, of course, children (born and unborn)—have all been brutalized by the culture of death fostered by *Roe v. Wade*. Abortion hollows out marriage and the family. It undermines the rule of law and corrupts our political system. It turns healers into executioners and “women’s health” into a euphemism for extermination. Ryan T. Anderson, a compelling and reasoned voice in our most contentious cultural debates, and the pro-life journalist Alexandra DeSanctis expose the false promises of the abortion movement and explain why it has made everything worse. Five decades after *Roe*, everyone has an opinion about abortion. But after reading *Tearing Us Apart*, no one will think about it in the same way.

Every church has far more work than any one person can do. Even a team of professionals is not enough. The New Testament solution was for every member to be a minister. Though the priesthood of all believers was a key idea in the Reformation, it is little practised today. Following secular models, churches usually organize around the clergy, who are paid by the laity to do the ministry. Paul Stevens argues that, according to Scripture, the primary task of a Christian leader is not to do the work but to equip the saints to do it. Exploring new options for pastors, tentmakers and laypeople, this book provides structures and strategies to best equip all the saints for ministry.

Why are so many well-intentioned women falling for pooreven false theology? The Devil has been effectively targeting women from the beginning, so why are they often left to fend for themselves in so-called women's ministries? Strengthening women in the church strengthens the whole church. Cultivating resolved, competent women equips them to fulfill their calling as Christ's disciples and men's essential allies. Writing to concerned women and church officers, Aimee Byrd pinpoints the problem, especially the commodification of women's ministry. Aimee answers the hot-button issues How can women grow in discernment? How should pastors preach to women? What are our roles within the church? and points us in the direction of a multifaceted solution.

Bioethics and the Christian Life Crossway

. *Renewal of Life by Transmission*. The most notable distinction between living and inanimate things is that the former maintain themselves by renewal. A stone when struck resists. If its

resistance is greater than the force of the blow struck, it remains outwardly unchanged. Otherwise, it is shattered into smaller bits. Never does the stone attempt to react in such a way that it may maintain itself against the blow, much less so as to render the blow a contributing factor to its own continued action. While the living thing may easily be crushed by superior force, it none the less tries to turn the energies which act upon it into means of its own further existence. If it cannot do so, it does not just split into smaller pieces (at least in the higher forms of life), but loses its identity as a living thing. As long as it endures, it struggles to use surrounding energies in its own behalf. It uses light, air, moisture, and the material of soil. To say that it uses them is to say that it turns them into means of its own conservation. As long as it is growing, the energy it expends in thus turning the environment to account is more than compensated for by the return it gets: it grows. Understanding the word "control" in this sense, it may be said that a living being is one that subjugates and controls for its own continued activity the energies that would otherwise use it up. Life is a self-renewing process through action upon the environment.

In *Equipping Christians for Kingdom Purpose in Their Work*, Tom Lutz and Heidi Unruh offer advice to those who seek to influence the faith of people outside the church. Pastors, Christian educators, life coaches, workplace mentors, college professors, and any Christian who considers their vocation to be one of discipleship will find nourishment in this book. Few resources are designed for personal disciplers—those who connect with other

believers on a personal basis with a deep interest in their spiritual growth. This book fills the gap. This one-of-a-kind resource shows how to disciple others in and for their work. Most “faith and work” books focus on pastors and church programs, or they speak directly to workers. But this resource comes to the aid of those who offer spiritual guidance to working Christians. This guide makes faith-and-work discipleship accessible to anyone who influences the faith of another. With short, readable chapters filled with case studies, examples, and practical resources, readers will learn how to equip others to fulfill their kingdom purpose in their work. Sample topics include: Principles for Effectively Connecting with Adult Learners Structure for One-on-One Discipleship Meetings Research on Vocational Discipleship and Kingdom-Centered Spiritual Maturity Various Leadership Models Scripture Passages on Being an Image-Bearer Selected Scriptures for Faith and Work Principles

Pro-life Christians, take heart: the pro-life message can compete in the marketplace of ideas-provided Christians properly understand and articulate that message. Too many Christians do not understand the essential truths of the pro-life position, making it difficult for them to articulate a biblical worldview on issues like abortion, cloning, and embryo research. The Case for Life provides intellectual grounding for the pro-life convictions that most evangelicals hold. Author Scott Klusendorf first simplifies the debate: the sanctity of life is not a morally complex issue. It's not about choice, privacy, or scientific progress. To the contrary, the debate turns on one key question: What is the unborn? From there readers learn how to engage the great bio-

tech debate of the twenty-first century, how to answer objections persuasively, and what the role of the pro-life pastor should be.

Don't worry-almost everyone is. Either we think the subject is too impolite, or we don't want to be branded an intolerant fanatic, or we worry that we won't represent the pro-life side well enough. You can overcome this fear, says Trent Horn in his new book, *Persuasive Pro-Life*-With a little knowledge and a few proven techniques, you can become a bold and effective apologist for the unborn. Drawing on over a decade as a pro-life activist Horn helps you cut through the diversions and obfuscations of the "pro-choice" side in order to accurately frame the legal, historical, and medical issues. Using vivid real-life examples, he drives home the critical importance of charity-no matter how loud the debate gets. For we must be not just warriors for the pro-life cause, he says, but ambassadors for it. Then Horn leads you on a guided tour of the many types of pro-abortion opponent or inquirer ("the pragmatist" "the skeptic," "the conflicted"), along with more true stories from the field. In each case he teaches you specific approaches-what to say, what not to say, and how to bear yourself-that are custom-tailored to every situation. The struggle over abortion has never been hotter, and the stakes could not be higher. Read *Persuasive Pro-Life* today and never again be afraid to speak up for the precious and fundamental right to life. Book jacket.

How did intentionally killing human beings in the womb become

"health care"? When did sacrificing the innocent become the path to "freedom"? Planned Parenthood and their allies are normalizing abortion and selling a lie. In *Contenders*, Dr. Marc Newman shows you the spiritual underpinnings of the abortion industry and how its advocates "argue in retreat." With every shift in the conversation, you will learn how to winsomely respond to abortion-choice supporters and help them to see that their view of the unborn is not only scientifically insupportable, but morally disfiguring, placing all human beings at risk. Drawing on decades as a nationally-recognized pro-life communication trainer, apologist, professor, and director of intercollegiate speech and debate, Newman equips readers to: Strip the mask off of abortion? Understand why the church has remained so silent? Recognize and defeat abortion advocate's Five Big Shifts? Give you confidence to speak up for the unborn? Become powerfully persuasive while remaining winsome? Combat a culture of death by creating tangible, life-affirming alternatives? Empower Christians to change the world

Defending Life is arguably the most comprehensive defense of the pro-life position on abortion - morally, legally, and politically - that has ever been published in an academic monograph. It offers

a detailed and critical analysis of *Roe v. Wade* and *Planned Parenthood v. Casey* as well as arguments by those who defend a Rawlsian case for abortion-choice, such as J. J. Thomson. The author defends the substance view of persons as the view with the most explanatory power. The substance view entails that the unborn is a subject of moral rights from conception. While defending this view, the author responds to the arguments of thinkers such as Boonin, Dworkin, Stretton, Ford and Brody. He also critiques Thomson's famous violinist argument and its revisions by Boonin and McDonagh. *Defending Life* includes chapters critiquing arguments found in popular politics and the controversy over cloning and stem cell research.

As many as 96% of Christians are not leading anyone to Jesus. Which means that the vast majority of the wider church is, at best, simply sowing. The kingdom of God, however, requires both sowing and reaping. If we neglect reaping, we will not have a healthy harvest. *Jesus at the Door* offers a unique tool--an Equipping Card to use with anyone you know, anywhere--and practical, step-by-step instructions, helping readers witness to friends, family, even strangers on the street. This tried-and-tested method is framed around nine points and a picture, and takes about two minutes from introduction to salvation.

The Death and Life of Great American Cities Thomas Nelson

The author of *Abortion: The Ultimate Exploitation of Women* offers a blueprint for the American Church to handle abortion in our country. Consider that for the past forty years, a staggering fifty-six million Americans have been killed by abortion. It claims the lives of over 1.2 million children every year, or roughly one

child every twenty-five seconds. So why isn't the American church doing something to stop this atrocity, which is the greatest holocaust in American history? The majority of American churches, God's institutions for spreading the gospel of peace and defending the weak and innocent, remain silent. Feeding the poor, stopping human trafficking, rescuing children from abuse, and protecting women from exploitation are all issues the church is addressing. Yet abortion remains eerily absent from the list of church priorities in America. Why isn't it the church's highest priority? Is the American church silent because abortion has become politicized and church leaders are afraid to discuss it or because we simply don't know what the Bible says about it? What will cause the church to wake up, rise up and take this issue to task to save our children? In his latest book, *Deliver Us From Abortion*, Brian Fisher, co-founder and president of Online for Life, breaks the veil of silence and uncovers the reality of abortion in

the church, what the Bible really says about it, and how God has empowered His church to end this unspeakable tragedy. Praise for *Deliver Us from Abortion* "This book provides a powerful defense for the children who can't speak for themselves." —Josh McDowell, bestselling author of 138 books including *More Than a Carpenter* "Abortion is the greatest moral crisis of our generation, yet far too many churches have remained silent. In *Deliver Us From Abortion*, Brian Fisher offers a blueprint for the American church that is both instructive and encouraging. I pray that we can all hear and accept his challenge." —Dr. Tony Evans, president, The Urban Alternative, senior pastor, Oak Cliff Bible Fellowship "Growing up in the King family during the Civil Rights era, I know what the church can accomplish. I am so glad Brian has written this book. May it challenge and equip the church to end the abortion holocaust in America." —Dr. Alveda King, director of African-American outreach, Priests for Life
