Engineering Signals and Systems by Ulaby and Yagle

Signals and Systems is a core course for students studying electrical engineering and computer engineering. A new textbook, Engineering Signals and Systems, by Prof. Fawwaz Ulaby and Prof. Andrew Yagle, will be used by students in the undergraduate course, Introduction to Signals and Systems (EECS 216). Signals and Systems is a core course for students studying electrical engineering and computer engineering at Michigan, and similar courses are taught at most institutions across the country.
