Debates concerning the federal role in regulating industry and in managing the nation's public lands are becoming increasingly contentious. This is in part due to the rise of well-organized and ideologically energized land rights movements that have vowed to resist expansion of environmental regulations and even to roll back existing environmental statutes. *A Wolf in the Garden* is the only book available that assembles the arguments of key thinkers in the land rights and the environmental movements. The broad range of essays in this collection unveils hidden dimensions of the debate and explores opportunities for the environmental movement to revitalize itself by taking advantage of recent changes in the political landscape.

*Out There* addresses the theme of cultural marginalization - the process whereby various groups are excluded from access to and participation in the dominant culture. It engages fundamental issues raised by attempts to define such concepts as mainstream, minority, and "other," and opens up new ways of

thinking about culture and representation. All of the texts deal with questions of representation in the broadest sense, encompassing not just the visual but also the social and psychological aspects of cultural identity. Included are important theoretical writings by Homi Bhabha, Helene Cixous, Gilles Deleuze and Felix Guattari, and Monique Wittig. Their work is juxtaposed with essays on more overtly personal themes, often autobiographical, by Gloria Anzaldua, Bell Hooks, and Richard Rodriguez, among others. This rich anthology brings together voices from many different marginalized groups - groups that are often isolated from each other as well as from the dominant culture. It joins issues of gender, race, sexual preference, and class in one forum but without imposing a false unity on the diverse cultures represented. Each piece in the book subtly changes the way every other piece is read. While several essays focus on specific issues in art, such as John Yau's piece on Wilfredo Lam in the Museum of Modern Art, or James Clifford's on collecting art, others draw from debates in literature, film, and critical theory to provide a much broader context than is usually found in work aimed at an art audience. Topics range from the functions of language to the role of public art in the city, from gay pornography to the meanings of black hair styles. Out There also includes essays by Rosalyn Deutsche, Richard Dyer, Kobena Mercer, Edward Said, Gayatri Spivak, Gerald Vizenor and Simon Watney, as well as by the editors. Copublished with the New Museum of Contemporary Art, New York Distributed by The MIT Press.

In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-genius everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens

of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among *Grit's* most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).

Drawing on previously unavailable material and never-before-opened archives, *An Unfinished Life* is packed with revelations large and small -- about JFK's health, his love affairs, RFK's appointment as Attorney General, what Joseph Kennedy did to help his son win the White House, and the path JFK would have taken in the Vietnam entanglement had he survived. Robert Dallek succeeds as no other biographer has done in striking a critical balance -- never shying away from JFK's weaknesses, brilliantly exploring his strengths -- as he offers up a vivid portrait of a bold, brave, complex, heroic, human Kennedy.

In the 1930s, British colonial officials introduced drama performances, broadcasting services, and publication bureaus into Africa under the rubric of colonial development. They used theater, radio, and mass-produced books to spread British values and the English language across the continent. This project proved remarkably resilient: well after the end of Britain's imperial rule, many of its cultural institutions remained in place. Through the 1960s and 1970s, African audiences continued to attend Shakespeare performances and listen to the BBC, while African governments adopted English-language textbooks produced by metropolitan publishing houses. Imperial Encore traces British drama, broadcasting, and publishing in Africa between the 1930s and the 1980s—the half century spanning the end of British colonial rule and the outset of African national rule. Caroline Ritter shows how three major cultural institutions—the British Council, the BBC, and Oxford University Press—integrated their work with British imperial aims, and continued this project well after the end of formal British rule. Tracing these institutions and the media they produced through the tumultuous period of decolonization and its aftermath, Ritter offers the first account of the global footprint of British cultural imperialism.

As COVID-19 swept across the globe with merciless force, it was working people who kept the world from falling apart. Deemed "essential" by a system that has shown just how much it needs our labor but has no concern for our lives, workers sacrificed--and many were sacrificed--to keep us fed, to keep our shelves stocked, to keep our hospitals and transit running, to care for our loved ones, and so much more. But when we look back at this particular moment, when we try to write these days into history for ourselves and for future generations, whose voices will go on the record? Whose stories will be remembered? In late 2020 and early 2021, at what was then the height of the pandemic, Maximillian Alvarez conducted a series of intimate interviews with workers of all stripes, from all around the US--from Kyle, a sheet metal worker in Kentucky; to Mx. Pucks, a burlesque performer and producer in Seattle; to Nick, a gravedigger in New Jersey. As he does in his widely celebrated podcast, Working People, Alvarez spoke with them about their lives, their work, and their experiences living through a year when the world itself seemed to break apart. Those conversations, documented in these pages, are at times meandering, sometimes funny or philosophical, occasionally punctured by pain so deep that it hurts to read them. Filled with stories of struggle and strength, fear and loss, love and rage, *The Work of Living* is a deeply human history of one of the defining events of the 21st century told by the people who lived it.

A "provocative and seductive debut" of desire and doubleness that follows the life of a young Palestinian American woman caught between cultural, religious, and sexual identities as she endeavors to lead an authentic life (O, The Oprah Magazine). On a hot day in Bethlehem, a 12-year-old Palestinian-American girl is yelled at by a group of men outside the Church of the Nativity. She has exposed her legs in a biblical city, an act they deem forbidden, and their judgement will echo on through her adolescence. When our narrator finally admits to her mother that she is queer, her mother's response only intensifies a sense of shame: "You exist too much," she tells her daughter. Told in vignettes that flash between the U.S. and the Middle East—from New York to Jordan, Lebanon, and Palestine—Zaina Arafat's debut novel traces her protagonist's progress from blushing teen to sought-after DJ and aspiring writer. In Brooklyn, she moves into an apartment with her first serious girlfriend and tries to content herself with their comfortable relationship. But soon her longings, so closely hidden during her teenage years, explode out into reckless romantic encounters and obsessions with other people. Her desire to thwart her own destructive impulses will eventually lead her to *The Ledge*, an unconventional treatment center that identifies her affliction as "love addiction." In this strange, enclosed society she will start to consider the unnerving similarities between her own internal traumas and divisions and those of the places that have formed her. Opening up the fantasies and desires of one young woman caught between cultural, religious, and sexual identities, *You Exist Too Much* is a captivating story charting two of our most intense longings—for love, and a place to call home.
