In the past two decades, Muslim countries across the globe have been faced with a crisis in governance. Starting with a summary of Islamic Law (Sharia) and its implications for law enforcement, this book will highlight the unique needs and challenges of law enforcement, and particularly policing, in these communities. It will provide a scholarly exposition of Sharia law and how it is compatible (or not) with policing in a modern context. The role and contribution of Sharia Law towards conceptualizing law enforcement in a modern context is certainly worth looking forward to, especially understanding its co-existence with civil law in countries with minority Muslim communities. Featuring case studies from throughout the Muslim world, this volume will highlight key qualities of Sharia law and Muslim culture that play a role in law enforcement, including: case processing, community policing, police administration, human rights, and the influence of globalization. Taking a comprehensive approach, this work provides a historical context for colonization events in Muslim countries and their influence on current law enforcement systems, as well as providing key insights into the

particular norms that make up the bases for Muslim societies, and their unique needs. Looking into the future, it provides guidelines for how community policing can play a proactive role in law enforcement and crime prevention.

Majoritarian State traces the ascendance of Hindu nationalism in contemporary India. Led by Prime Minister Narendra Modi, the BJP administration has established an ethno-religious and populist style of rule since 2014. Its agenda is also pursued beyond the formal branches of government, as the new dispensation portrays conventional social hierarchies as intrinsic to Indian culture while condoning communal and caste- and gender-based violence. The contributors explore how Hindutva ideology has permeated the state apparatus and formal institutions, and how Hindutva activists exert control over civil society via vigilante groups, cultural policing and violence. Groups and regions portrayed as 'enemies' of the Indian state are the losers in a new order promoting the interests of the urban middle class and business elites. As this majoritarian ideology pervades the media and public discourse, it also affects the judiciary, universities and cultural institutions, increasingly captured by Hindu nationalists. Dissent and difference

silenced and debate increasingly sidelined as the press is muzzled or intimidated in the courts. Internationally, the BJP government has emphasised hard power and a fast- expanding security state. This collection of essays offers rich empirical analysis and documentation to investigate the causes and consequences of the illiberal turn taken by the world's largest democracy.

The volume attempts to gauge and analyse the level of denial and deprivation faced by Indian Muslims by evaluating their status after a gap of several years of Sachar Committee (2006) and Rangnath Mishra Commission (2007) Reports. It presents and discusses the current conditions with respect to outcome indicators such as population, education, economy, poverty, unemployment, consumption level, availability of bank loans, infrastructure and civic facilities and representation in government employment. By placing facts in perspective, it also discusses community-specific issues such as use of Urdu, madrasa education and Waqf. In the post-Sachar era, governments started many schemes to improve the condition of Muslims whose reach and impact is assessed with the help of latest data. It presents the social structure of Muslims, presence of OBCs and Dalits and suggests a practical pattern for reservation. It follows up the process of implementation of recommendations of these reports and highlights how the governments adopted tokenism, attempted to implement minor recommendations and shied away from major ones. The volume highlights the lopsided attitude of the previous UPA governments, hostile attitude of the present NDA regime and accelerated marginalization of Muslims in today's scenario due to open discrimination, mob-violence, lynching and hate crimes in the name of various communal issues. Police and Political Development in India APH Publishing

This book is the first empirical study of police discretion in India. Going beyond anecdotal accounts, it addresses the issues and concerns of arrest discretion behaviour of police with analysis of available literature internationally, testing the validity in the context of police in India and explaining the gap that exists between the legislative intent and field law enforcement. It establishes how extralegal determinants like subculture, environment and situations influence arrest discretion as much as legal determinants such as statutes, rules, manuals and court rulings. It also provides vital explanations on the working of the police system in India. The volume will be of great interest to policymakers, police leaders, officers of judiciary, scholars and researchers of criminology and criminal justice, sociology and social anthropology and South Asian studies.

Khaki in Dust Storm is a gripping story of immersive investigations led by the celebrated police officer Amod K. Kanth who found himself at the vortex of India's tumultuous period of the 1980s and early 1990s. An era of dramatic crime, assassinations and terrorism, this period witnessed the assassination of Indira Gandhi in 1984 and the horrific riots that followed; the assassination of Rajiv Gandhi; the murder of Lalit Maken and General Vaidya; public attacks by terrorists and bloodbaths at the peak of the Khalistani militancy; India's first-ever organised mass explosions through improvised electronic device in 1985, popularly known as 'transistor bombs'; and the growing influence of drug abuse and financial frauds. Leading into the minefield of these most sensational crime investigations that rocked India, he reveals in this book facts, stories and anecdotes that have hitherto remained outside the public discourse. He pieces together the details, narrates behind-the-scene manoeuvres, and carefully constructs the psyche of the perpetrators and the backdrop, weaving together a fantastic and powerful tale. This is also a story of a cathartic evolution of a police officer who, after landing in the coveted Indian Police Service, finds his dreams challenged and confined to the restricted role in the face of India's myopic conventional policing. This resulted in his eventual metamorphosis, overwhelmed by the need to search for a wider and transformative perspective in policing that could lay the groundwork for more expanded and gratifying interactions between the police and the community.

This book untangles the components of police education and advocates a robust community-based training model with significant civilian oversight. The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education, for it is they who must both support and be served by their police. The police must be role models for society, demonstrating that freedom and rights come with obligations, both to the community as a whole and to individuals in need within that community. Ultimately, the quality of police training and the public's safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community's trust in its police. The issues of police recruitment, education, and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement. Several incidents, including, most notably, George Floyd's murder by police, have sparked new training initiatives regarding police de-escalation and community engagement. At the same time, the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing. In this context, reform of the police education system is urgent. This book examines police training at all levels of government—local, regional, state, and federal. In addition, citizen participation programs,

including the role of the media and programs for furthering law-related education (LRE), are highlighted. The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education, for it is they who must both support and be served by their police. The focus is on teaching a "guardian style" of policing at the local level. Police education would combine higher education, necessary practical proficiencies, and intensive field experiences through a gradual level of greater responsibility—likely extending over a 2-plus-year period for trainees with less than a year of previous college credits. This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers, including those in executive development programs in police departments; community leaders, scholars, and policy experts who specialize in policing; concerned citizens; and students of criminal justice, especially those interested in police organization and management, criminal justice policy, and the historical development of police.

About the book Frauds and economic crime rates remain at a record high, impacting more and more companies in diverse ways than ever before. The only way to reduce the impact of such frauds is to get a detailed understanding of the subject and adopt preventive measures instead of reactive measures. As a pervasive and relatively modernized element of Indian society, the police are potentially a powerful vanguard in the establishment of a stable democratic process and a major factor in public attitudes toward the government. Professor Bayley's book, based upon 3,600 interviews during two extended periods of research in India, explores in depth the formative role police play in the maintenance and development of the Indian political system. As a first study of police and political development in a relatively non-modernized country, this book will be a guide for the exploration of a topic critical in the political life of many nations, both developed and underdeveloped. Policing as a global form is often fraught with excessive violence, corruption, and even criminalization. These sorts of problems are especially omnipresent in postcolonial nations such as India, where Beatrice Jauregui has spent several years studying the day-to-day lives of police officers in its most populous state, Uttar Pradesh. In this book, she offers an empirically rich and theoretically innovative look at the great puzzle of police

authority in contemporary India and its relationship to social order, democratic governance, and security. Jauregui explores the paradoxical demands placed on Indian police, who are at once routinely charged with abuses of authority at the same time that they are asked to extend that authority into any number of both official and unofficial tasks. Her ethnography of their everyday life and work demonstrates that police authority is provisional in several senses: shifting across time and space, subject to the availability and movement of resources, and dependent upon shared moral codes and relentless instrumental demands. In the end, she shows that police authority in India is not simply a vulgar manifestation of raw power or the violence of law but, rather, a contingent and volatile social resource relied upon in different ways to help realize human needs and desires in a pluralistic, postcolonial democracy. Provocative and compelling, *Provisional Authority* provides a rare and disquieting look inside the world of police in India, and shines critical light on an institution fraught with moral, legal and political contradictions.
