 SolutionsRenderoc FC Fosroc Renderoc FC constructive solutions Single component polymer
 modified cementitious pinhole filler Uses Renderoc FC is designed for application to minor imperfec-
 tions in concrete and masonry surfaces. It is suitable for application in the range of feather edge to 3
 mm, and can be used in the following situations :Fosroc Renderoc FC constructive solutionsFosroc is
 a global manufacturer of high performance chemicals and materials for the Construction industry.
 Fosroc's tailored Constructive Solutions are developed combining our extensive range of products
 with expertise and experience to meet the needs of the construction industry.Constructive Solutions
 | Building Services | FosrocRenderoc FC is supplied as a ready to use blend of dry powders requiring
 only the site addition of clean water to produce a highly consistent cementitious fairing mortar. The
 material has good handling characteristics, while minimising water demand.The product exhibits
 excellent thermal compatibility with concrete and is fully compatible with other Renderoc mortars
 and Dekguard coatings.Construction Products | Building Products | FosrocFosroc's great product
 range, from waterproofing to cement admixtures, enables us to provide innovative solutions to

complex building challenges.Construction Solutions | Building Solutions | FosrocFosroc constructive
