Harmony of the
Gospels of Matthew,
Mark, Luke and John:
Biblical Studies Press*

This second edition of Jesus and the Gospels prepares readers for an intensive study of Matthew, Mark, Luke, John, and the events they narrate. Craig Blomberg considers the historical context of the Gospels and sheds light on the confusing

interpretations brought forth over the last two centuries. The original 1997 book won a Gold Medallion Award from the Evangelical Christian Publishers Association, and this updated version, factoring in new scholarship, debate, critical methods, and the ongoing quest of the historical Jesus, ensures the work will remain a top tool for exploring the life of Christ through the first four books of the New Testament.

The Gospel According to Matthew Trafford Publishing

The classic Harmony of the Gospels by J. W. McGarvey and Philip Y. Pendleton with interspersed comments. Attractively re-typeset, this enduring work is a valuable resource to

modern Bible students. "In most commentaries a fifth or sixth of the space is taken up in drawing distinctions between the texts of the four Gospels, while in this work these distinctions are placed before the reader's eye, where he can see them for himself at a glance. Moreover, in other commentaries, which give the text, another sixth or seventh of the work is taken up in reprinting in the notes that portion of the text concerning which the commentator wishes to speak. Our interjected method avoids all this needless repetition, and makes it possible for us to present the comment with the least preliminary verbiage or introductory setting. Time is also saved

because the reader does not have to look back and forth from the text at the top to the comment at the bottom of the page. Again, other commentaries lose a large amount of space by using the King James text. Those which preceded the revision waste space correcting the translation and modernizing its English: those published since the revision suffer a similar waste by drawing endless comparisons between the two texts. By choosing the American revision as the basis for our work, we have a text which needs but little explanation or apology, and we are thereby enabled to employ the reader's time and strength to his best

advantage." --

 A synopsis is a tool which displays different passages of a text side by side for comparison. This is most commonly done with the four Gospels of the New Testament because of their similar material, but it could reasonably be done with any text that has similar passages, such as the Old Testament historical narratives. The synopsis you presently hold contains the four Gospels of the New Testament. It is different from comparing parallel versions, such as one English translation to another, because all of the passages displayed in this synopsis are from the same version,

the NET Bible. It is different from a harmony because the passages are not reorganized into one story; each Gospel in a synopsis is separate from the others and can be read by itself or in comparison with the others. This parallel arrangement enables fruitful comparison of the Gospels to each other so each may be understood well on its own in light of the others.

A DISCIPLE IN THE GARDEN of Gethsemane cuts off the ear of the high priest's servant according to all four Gospels. But only John tells us the servant's name, and that it was Peter who wielded the sword. And only Luke

tells us that Jesus healed the wound. This book allows you to see all of this at a glance. THE FOUR GOSPELS are presented here in parallel columns, in roughly chronological order, with corresponding passages side by side. Among the differences that set this work apart from others are its use of the World English Bible, its copyright-free status, and its readable arrangement of the text. THE WORLD ENGLISH BIBLE, which provides the Gospel texts used in this book, is a copyright-free modern English translation. Editor DAVID A. REED served for a decade as a contributing editor of Dr. Walter Martin's Christian Research Journal and has taught

at Spurgeon's annual School of Theology at London's Metropolitan Tabernacle. He has authored twenty books on Bible topics. Reed is pastor of Immanuel Baptist Church in New Bedford, Massachusetts.

Studying the Gospels from a New Perspective. Readers of the Bible have always known that the Gospels tell many of the same

stories, usually with differences in detail, but sometimes with significant variations. Comparing the Gospels identifies these parallel passages and lays them side by side so you can compare them more easily. Relieved of the burden of flipping Bible pages back and forth among two, three, or all four of the Gospels, you can focus on what each witness has to report. As a rule, you will end up with a more complete picture of each episode, as details from each can often be combined. But you will also find some sources of perplexity, where two or more of the Gospel witnesses tell inconsistent stories. Sometimes it even seems not all the accounts of a particular episode can possibly

be true. Bible students using this book will find it necessary to decide what to make of these conflicting pieces of evidence. Bible study leaders and students will find this approach intellectually challenging and a welcome change from classic book-of-the-Bible studies. Pastors developing a sermon on a particular theme will also find it useful to have at their fingertips all the Gospel passages that report on an episode in Christ's ministry.
