Rather its contents and subject matters have been specially designed to help a common man achieve maximum command on the language in a very short time. The most important part of this self-study course is confidence building measures because it has been found from the long experience that biggest problem in the path of fluently speaking a foreign language is hesitation, that arises out of lack of confidence. Many people, who have good command over the language and are well

are of its grammar and composition, can't speak the language fluently. Why? The answer is simple. While speaking they try to construct a sentence in their mother language and do the mental translation before uttering a single line. This creates not only confusion but utter chaos in their mind. As a result they feel great hesitation to speak simple sentences. In some cases, however, the problem is more complex, as they lack the basic knowledge of the English language. Rapidex English Speaking Course takes care of both the cases. So, what are you waiting for? Go ahead and discover the secret of fluency in English speaking. Explore and develop your hidden potential and face the world with a new-found confidence and smartness. Only the sky should be your limit. No matter which language you know or speak, be it Hindi, Marathi, Gujarati, Tamil, Telegu, Assami, Oriya, Kannad, Punjabi, Bengali, Nepali or Urdu, with the help of this book English will no more be a foreign language for you. A must for every Indian home.

This book analyzes how the urban disadvantaged in the city of New Delhi learn English. Using qualitative methods the author discusses the pedagogy, texts and contexts in which biliteracy occurs and links English language teaching and learning in India with the broader social and economic processes of globalization in a developing country. The study is situated in a government school, a site where classrooms have rarely been qualitatively described, and where the Three Language Formula (TLF) is being fundamentally transformed due to increasing demand from the community for earlier access to the linguistic capital of English. Through research conducted in a call centre the author also shows what the requirements of new workplaces are and how government schools are trying to meet this demand.
