We discussed a variety of things:- How kids and monsters relate to electricity. - The reality of solar power and the super easy practical aspects of getting it designed and installed o  
**\*\*BONUS\*\***: we even have design a questionnaire to help you gauge exactly what you

need- What I describe as the "critical mission parameters" - or the two main concerns about solar power- A simplified strategy to increase your amp-hours when hooking up your batteries- What came first, the chicken or the egg? Actually there is no chick or egg, just appliances versus solar power- Do you want a quantitative or qualitative approach in choosing your solar panels-

Putting it all together: general step-by-step instructions to do-it-yourself- Moving from grid to solar power in your home has unique benefits book we break down these benefits to ultimately help you determine if this is the right move for you. - But doesn't it cost too much? NO, not anymore. We will show you how you can save money with a solar installation in your home, RV, or your
