WEBB MARQUES

Higher Level Chemistry OUP Oxford

This completely new title is written to specifically cover the new IB Diploma Mathematical Studies syllabus. The significance of mathematics for practical applications is a prominent theme throughout this coursebook, supported with Theory of Knowledge, internationalism and application links to encourage an appreciation of the broader contexts of mathematics. Mathematical modelling is also a key feature. GDC tips are integrated throughout, with a dedicated GDC chapter for those needing more support. Exam hints and IB exam-style questions are provided within each chapter; sample exam papers (online) can be tackled in exam-style conditions for further exam preparation. Guidance and support for the internal assessment is also available, providing advice on good practice when writing the project.

IB Business and Management Springer

Developed in collaboration with the International Baccalaureate Organization, Oxford's Course Companions provide extra support for students taking IB Diploma Programme courses. They present a whole-course approach with a wide range of resources, and encourage a deep understanding of each subject by making connections to wider issues and providing opportunities for critical thinking. It has been written by a principal examiner for the IB Diploma Programme Chemistry and has been extensively reviewed by teachers, consultants and the IBO. With material integrated to include international and historical perspectives, students are encouraged to think critically and make connections to other subjects and to world issues. Includes material for cross curricular connections to help students think critically about science and consider its evolution, full coverage of the core and AHL as well as selective coverage of the Options, provides a wealth of illustrations to help explain difficult concepts, material for CAS and the extended essay as well as examination questions included for critical thinking, examination practice and reinforcement of concepts learned.

Oxford IB Study Guides: Chemistry for the IB Diploma Addison-Wesley

A very challenging subject IB chemistry requires tremendous effort to understand fully and attain a high grade. 'IB Chemistry Revision Guide' simplifies the content and provides clear explanations for the material.

The Best Articles on the Human Side of 20th-Century Chemistry from the Archives of the Chemical Intelligencer Cambridge University Press

Chemistry for the IB Diploma, Second edition, covers in full the requirements of the IB syllabus for Chemistry for first examination in 2016. This workbook is specifically for the IB Chemistry syllabus, for examination from 2016. The Chemistry for the IB Diploma Workbook contains straightforward chapters that build learning in a gradual way, first outlining key terms and then providing students with plenty of practice questions to apply their knowledge. Each chapter concludes with exam-style questions. This structured approach reinforces learning and actively builds students' confidence using key scientific skills - handling data, evaluating information and problem solving. This helps empower students to become confident and independent learners. Answers to all of the questions are on the CD-ROM.

Sears & Zemansky's College Physics Hodder Education

An in-depth guide containing accurate and accessible notes, examiner advice and exam-style questions on each IB key topic, including 'Section B' type questions and multi-stage problems, this text covers all the theory and knowledge needed for the latest IB Mathematics syllabus

Biology OUP Oxford

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

Ib Chemistry SL and HL Examination Flashcard Study System John Catt Educational Ltd

This comprehensive Study Guide reinforces all the key concepts for the 2014 syllabus, ensuring students develop a clear understanding of all the crucial topics at SL and HL. Breaking concepts down into manageable sections and with diagrams and illustrations to cement understanding, exam preparation material is integrated to build student confidence and assessment potential. Directly linked to the new Oxford Chemistry Course Book to extend and sharpen comprehension, this book supports maximum achievement in the course and assessment. About the series: Reinforce student understanding of all the crucial subject material. Fully comprehensive and matched to the most recent syllabuses, these resources provide focused review of all important concepts, tangibly strengthening assessment potential.

Oxford IB Study Guides: Biology for the IB Diploma OUP Oxford

This comprehensive Study Guide reinforces all the key concepts for the 2014 syllabus, ensuring students develop a clear understanding of all the crucial topics at SL and HL. Breaking concepts down into manageable sections and with diagrams and illustrations to cement understanding, exam preparation material is integrated to build student confidence and assessment potential. IB Economics (SL and HL) Examination Flashcard Study System Heinemann Educational Publishers

Driving an active approach to learning, this second edition was developed with the IB and most closely embodies the IB way of teaching. New digital material is loaded with hands-on activities to extend active inquiry, and the most thorough assessment preparation is included, with built-in guidance straight from the IB.

Improving Advanced Study of Mathematics and Science in U.S. High Schools Prentice Hall

This IB Chemistry book may be your best bet for a comprehensive and effective review of the SL or HL course material. The book has friendly and understandable explanations of complex concepts, with 250 practice questions for the test, as well as a complete listing of all related terms and their explanation. Important equations are listed throughout each content chapter, covering what you need to know in order to excel in the SL or HL test. Questions with answers include an overview section, and an additional in-depth section if you need further clarification. The user-friendly format makes it one of the best IB Chemistry review book available. It provides a means for developing study plans that you can customize to fit your needs. It isn't too skimpy or too overwhelming with information. It also provides a great way for structuring your studying, which is helpful if you consider yourself somewhat less than a totally organized student.

Ib study guide: physics (2014). Per le Scuole superiori Createspace Independent Publishing Platform

Completely revised new editions of the market-leading Chemistry textbooks for HL and SL, written for the new 2014 Science IB Diploma curriculum. Now with an accompanying four-year student access to an enhanced eText, containing simulations, animations, quizzes, worked solutions, videos and much more. The enhanced eText is also available to buy separately and works on desktops and tablets - click here to watch a video to learn more. Follows the organizational structure of the new Chemistry guide, with a focus on the Essential Ideas, Understanding, Applications & Skills for complete syllabus-matching. Written by the highly experienced IB author team of Catrin Brown and Mike Ford, with additional e-features by Richard Thornley and David Moore, you can be confident that you and your students have all the resources you will need for the new Chemistry curriculum. Features: Nature of Science and ToK boxes throughout the text ensure an embedding of these core considerations and promote concept-based learning. Applications of the subject through everyday examples are described in utilization boxes, as well as brief descriptions of related industries, to help highlight the relevance and context of what is being learned. Differentiation is offered in the Challenge Yourself exercises and activities, along with guidance and support for laboratory work on the page and online. Exam-style assessment opportunities are provided from real past papers, along with hints for success in the exams, and guidance on how to avoid common pitfalls. Clear links are made to the Learner profile and the IB core values. Table of Contents: Stoichiometric Relationships Atomic Structure Periodicity Chemical Bonding and Structure Energetics/Thermochemistry Chemical Kinetics Equilibrium Acids and Bases Redox Processes Organic Chemistry Measurement and Data Processing Option A: Materials Option B: Biochemistry Option C: Energy Option D: Medicinal Chemistry
