This book on 'Configuring SAP General Ledger Accounting' in SAP S/4HANA Finance, covers configuring your SAP system for making use of the important functional areas of SAP General Ledger (G/L) Accounting. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you comprehend a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy reference. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. The coverage includes: Case Study SAP General Ledger Accounting: Overview Features & Functionalities Pre-requisites for Configuring SAP G/L Accounting Master Data Business Transactions Periodic Processing Preparation for Productive Start Information System The book starts with a case study, setting up the tone for further discussions, outlining the various business processes that you will be configuring towards implementing SAP G/L Accounting for your business. You will come across with the case study brief per configuration activity / step, in each Chapter. We discuss the overview of SAP G/L Accounting, before moving on to discuss its important features and functionalities. You will learn about extensibility, ledger concept, document splitting, parallel accounting, segment reporting, fast close and integration of SAP FI with SAP Controlling. We, then, move on to discuss the pre-requisites for configuring SAP G/L Accounting. Here, you will learn about the important FI general settings and also on how to configure the fields, ledgers and currencies. You will learn more about parallel accounting and the FI integration with CO. While on G/L master data, we discuss the G/L account master data, the profit center master data and segment master data. We bring out, in detail, the preparations that you need to make for creating these master data, besides elaborating their creation and processing. You will, then, be taken to learn about the

functionality as well as the configuration of G/L business transactions, including document splitting, open item clearing, bank account interest calculation, and adjustment posting / reversal. In periodic processing for G/L, you will learn about the various closing operations like check/count, value, reclassify, allocation and carry forward. We, then, discuss the preparations that you need to make for productive start of SAP G/L Accounting system. You will learn about the preparations, in detail, for new implementation, as well as for migration from an existing non-HANA SAP system. Finally, towards the end, we discuss the G/L information system. You will learn about the various G/L reports that are available for your business, including the drilldown reports and reports created with Report Painter / Report Writer. In all, you can use this book as a desktop-reference or a refresher for configuring SAP G/L Accounting. As the Chapters have been progressively elaborated, you will find the book very informative and easy to read.

 This book on 'Configuring SAP Financial Accounting' in SAP S/4HANA Finance (1909), has been published in two volumes: Volume I and Volume II. The Vol. II (this book) covers: Configuring SAP Financial Accounting - Vol. I Case Study (Project Dolphin & Project Starfish) Accounts Receivable and Accounts Payable Contract Accounts Receivable and Payable Bank Accounting Asset Accounting In Vol. I of the title we have covered: SAP HANA SAP S/4HANA SAP S/4HANA Finance Case Study (Project Dolphin & Project Oyster) Enterprise Structure FI Global Settings I (Fields, Ledgers, Fiscal Year, Posting Period, Parallel Accounting, Integration of SAP CO with SAP FI, and Company Code Global Parameters) FI Global Settings II (Documents, Inflation Accounting and Correspondence) FI Global Settings III (Taxes including Extended Withholding Tax) General Ledger Accounting To give you an idea of what has been covered in 'Configuring SAP Financial Accounting - Vol. I', we have captured the details, in this book, in a Chapter-wise summary of that coverage with configuration highlights that has been discussed in each of those Chapters, from 1 to 9. The book covers Accounts Receivable (FI-

A/R) and Accounts Payable (FI-A/P), in detail. It covers customer and vendor accounts, business transactions associated with both FI-A/R and FI-A/P and the information system. In business transactions, you will see topics like incoming invoices, release for payment, payments (outgoing & incoming, manual and automatic), dunning, open item clearing, down payment processing, adjustment posting, interest calculation and closing operations. In Contracts Accounts Receivable and Payable (SAP FICA), with a separate case study (Project Starfish), we discuss the functionality and the configuration required for setting up of SAP FICA for a business. In Bank Accounting (FI-BL), you will learn about bank master data (bank directory, house bank, business partner's bank, bank distribution etc.), bank chains, payment transactions including manual & electronic bank statement, lockbox processing, cash journal and online payments. The book covers Asset Accounting (FI-AA) in great detail. It covers the organizational structure, structuring fixed assets in FI-AA (including special forms of assets, asset classes etc.), integration of FI-AA with other SAP components including SAP FI-G/L, general & special valuation, depreciation, master data, transactions (like acquisitions, retirements, transfers, capitalization of assets under construction etc.), FI-AA information system, asset data transfer, preparations for going live and overview for experts. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. This book, SAP FICO Black Book, brings to you a simple to the

point non-technical jargon free discussion on SAP FICO along with comprehensive real life examples based on authors real life implementations. One of the first FICO books which cover business cycles rather than plain technical configuration. Targeting intermediate and advanced-level readers, this book discusses Implementation Tools; Enterprise Structure; New GL Configuration; Online Document Splitting; AR; AP; AA; Bank accounting; Integration of FI with Other Modules; Business Processes; Controlling; Cost Center Accounting; Product Costing; Material Ledger Configuration and Profit Center Accounting. The author has spent the last 10 years of his career acquiring this knowledge through the trial and error method. It covers the end user as well as technical configuration perspective. It can serve as a starting point for the people who want to comprehend how the financial and managerial accounting functions in an ERP. Most of the FICO text deals with technical configuration and throws little light on its functional implementation. This book is author s humble attempt to bridge the gap by providing real life scenarios along with technical details.
