Effects of dietary zeolite (clinoptilolite) levels on ... Effects Of Dietary Zeolite Levels increased with zeolite levels. There

was a significant quadratic effect of dietary zeolite on serum cholesterol and alanine aminotransferase levels. Blood urea nitro-gen, aspartate

aminotransferase and alkaline phosphatase levels did not change in a particular trend with dietary zeolite levels, which was the case for sodium, EFFECTS OF DIETARY ZEOLITE LEVELS ON SOME BLOOD PARAMETERS ...Increasing dietary zeolite levels increased liver Fe levels and led to a quadratic affect on fillet Al levels ($P < 0.05$) but did not change liver Al or fillet Fe levels ($P > 0.10$). No differences in ADCs for dry matter, protein and lipid were detected but ADCs for energy had a quadratic trend ($P = 0.068$). Effects of dietary zeolite (clinoptilolite) levels on ...effect when zeolites are used as additives in animal nutrition. The effect of dietary zeolites on feed intake varies in different researches. For instance, Leonard most abundant zeolite in the nature) to trout diets, and found a significant improvement in weight gain over a 64-days feeding period. University Agricultural Center, Baton Rouge, Louisiana 70803 Effect of Dietary Sodium Zeolite A and Graded Levels of ...The aim of the present study was to determine the effects of different levels of dietary zeolite (0, 2, 4 or 6%) on the feeding performance and various serum health parameters (urea, LDL, glucose, uric acid, total Fe, total protein, globulin, triglyceride, cholesterol, HDL cholesterol, albumin, VLDL, creatinine, Ca, P, K, Mg, Na, Cl, Fe levels, Fe binding capacity and alkaline fosfatase activity) in rats. Effects of Dietary Zeolite on Serum Contents and Feeding ...In the present study, the influences of dietary zeolite levels on growth performance, nutrient utilization of *Tilapia zillii* and water quality parameters were investigated through-out a 45-days period. Each experimental diet was applied to tripli-cate groups of 10 fish (mean wet weight 1.08 ± 0.01 g). Fish Effects of natural zeolite (clinoptilolite) levels in fish ...Effect of dietary sodium zeolite A and graded levels of calcium and phosphorus on growth, plasma, and tibia characteristics of chicks. The addition of Ca, SZA, or both exacerbated the adverse effects of feeding low-P diets, yet

alleviated the adverse effects of feeding a low-Ca, high-P diet. Dietary SZA had no effect (P greater than .5)...Effect of dietary sodium zeolite A and graded levels of ...Dietary zeolite levels did not affect red blood cell, white blood cell and hemoglobin levels of sea bream.
