Portable Edition is comprised of four books, each representing a major period of art history: Long established as the classic and seminal introduction to art of the Western world, the Eighth Edition of Janson's History of Art is groundbreaking. When Harry Abrams first published the History of Art in 1962, John F. Kennedy occupied the White House, and Andy Warhol was an emerging artist. Janson offered his readers a strong focus on Western art, an important consideration of technique and style, and a clear point of view. The History of Art, said Janson, was not just a stringing together of historically significant objects, but the writing of a story about their interconnections, a history of styles and of stylistic change. Janson's text focused on the visual and technical characteristics of the objects he discussed, often in extraordinarily eloquent language. Janson's History of Art helped to establish the canon of art history for many generations of scholars. The new Eighth Edition, although revised to remain current with new discoveries and scholarship, continues to follow Janson's lead in important ways: It is limited to the Western tradition, with a chapter on Islamic art and its relationship to Western art. It keeps the focus of the discussion on the object, its manufacture, and its visual character. It considers the contribution of the artist as an

important part of the analysis. This edition maintains an organization along the lines established by Janson, with separate chapters on the Northern European Renaissance, the Italian Renaissance, the High Renaissance, and Baroque art, with stylistic divisions for key periods of the modern era. Also embedded in this edition is the narrative of how art has changed over time in the cultures that Europe has claimed as its patrimony.

Discovering the Humanities helps students see context and make connections across the humanities by tying together the entire cultural experience through a narrative storytelling approach. Pearson Prentice Hall is proud to offer Discovering the Humanities-the new brief version of The Humanities: Culture, Continuity, and Change adapted by author Henry Sayre himself.

Discovering the Humanities continues to help students see the big picture and make important

connections through Henry Sayre's captivating narrative that has made the comprehensive text successful at schools across the nation. Henry Sayre took the introduction to the humanities course as a sophomore and was inspired to devote his life to the study of the humanities. He has always wanted to write a book that passes along the important and compelling stories of the humanities. Henry believes that students learn best by remembering stories, not by memorizing facts. What makes Discovering the Humanities special is that it tells the stories and captures the voices that have shaped and influenced human thinking and creativity.

Provide your students with an introduction to art that is inclusive and emphasizes critical thinking!

Henry Sayre's art appreciation text, The World of Art, is an amazing introduction to the world of art. Students with little background in the arts routinely reach out to Henry to share how the text has influenced their lives. This is so meaningful because Henry's inspiration for A World of Art was his own students. His students wanted to see themselves reflected in their textbook. Henry decided to write an art appreciation textbook that represented all artists, not just the Western canon found at that time in the other texts. He also created a text that fostered critical thinking through looking at, talking about, and questioning works of art for his students. The result was A World of Art and the new seventh edition continues to build on those two themes- coverage of contemporary global art and a strong critical thinking framework throughout the text. This edition includes new ways for students to experience art with the new MyArtsLab, which includes ART 21 videos, Discovering Art simulations, Closer Look tours, and an eText of Writing about Art, also by Henry Sayre. A better teaching and learning experience This program will provide a better teaching and learning experience-- for you and your students. Here's how: Personalize Learning --

Engage Students -- The new MyArtsLab Challenge is a fresh take on assessment offering a "game-like" atmosphere for students to master chapter material. Upon successful completion of each level, students unlock works of art to create their own personal gallery to share with their peers. Support Instructors --

This edition addresses such fundamental matters as: description versus analysis; critical approaches to art (e.g., formal analysis; cultural materialism; gender studies); getting ideas for an essay; developing paragraphs; organizing a comparison; using bibliographic tools, including the internet; writing a catalog entry; quoting sources; documenting sources, using either the Art Bulletin style or the Chicago Manual style; avoiding sexist and Eurocentric language; writing citations for illustrations; engaging in peer review; editing the final draft; writing essay examinations.

The Western Tradition Enhanced Edition Diamond Pocket Books Pvt Ltd

Why A World of Art? Henry Sayre wrote the first edition of World of Art because he wanted to use a text in his own art appreciation course that truly represented all artists, not just the Western canon found at that time in the other texts. He also wanted a text that fostered critical thinking through looking at, talking about, and questioning works of art for his students. We are proud to present the new sixth edition of World of Art, which further strengthens these two key aspects of the text while presenting hot topics like video and time-based media.
