Lectures scheduled xviii Notes on Discrete Mathematics Norman Linstead Biggs (born 2 January 1941) is a leading British mathematician focusing on discrete mathematics and in particular algebraic combinatorics.

Norman L. Biggs - Wikipedia The usual tool in mathematics to do so is the notion of a set. Any collection of things, called elements, is a set. The deck of cards is a set, whose

<p>elements are the cards. The participants of the party form a set, whose elements are Alice, Bob, Carl, Diane, Eve, Frank and George (let us denote this set by P).
