GARDNER SCHMITT

The Wars of the British 1603-1776 Random House (UK)

Focusing on the most prominent and wide-ranging empire in world history, the British Empire, Jeremy Black provides not only a history of that empire, but also a perspective from which to consider the issues of its strengths and weaknesses, and rights and wrongs. The book addresses global decline, decolonisation, and the complex nature of post-colonialism and different imperial activity in modern and contemporary history.

A History of Britain, 1885-1939 Dk Pub

A richly detailed history of Britain at its imperial zenith, revealing the simmering tensions and explosive rivalries beneath the opulent surface of the late Victorian and Edwardian eras. The popular memory of Britain in the years before the Great War is of a powerful, contented, orderly, and thriving country. Britain commanded a vast empire: she bestrode international commerce. Her citizens were living longer, profiting from civil liberties their grandparents only dreamed of and enjoying an expanding range of comforts and pastimes. The mood of pride and self-confidence can be seen in Edward Elgar's Pomp and Circumstance marches, newsreels of George V's coronation, and London's great Edwardian palaces. Yet beneath the surface things were very different. In *The Age of Decadence*, Simon Heffer exposes the contradictions of late-Victorian and Edwardian Britain. He explains how, despite the nation's massive power, a mismanaged war against the Boers in South Africa created profound doubts about her imperial destiny. He shows how attempts to secure vital social reforms prompted the twentieth century's gravest constitutional crisis—and coincided with the worst industrial unrest in British history. He describes how politicians who conceded the vote to millions more men disregarded women so utterly that female suffragists' public protest bordered on terrorism. He depicts a ruling class that fell prey to degeneracy and scandal. He analyses a national psyche that embraced the motor-car, the sensationalist press, and the science fiction of H. G. Wells, but also the nostalgia

of A. E. Housman.

A History and a Debate Weidenfeld & Nicolson

Simon Schama's dramatic, broad-ranging, and immensely readable epic history of Britain reaches its triumphant conclusion in this third and final volume, which stretches from the American Revolution to the present. "The Fate of Empire tells the eventful and exhilarating story of Britain's rise and fall as an imperial power, from the political turmoil of the 1770s to the struggle of present day leaders to find a way to make a different national future. The volume also examines the Romantic generation, the role of women in Victorian England, industrialization, and the liberal empire from Ireland to India, which promised material improvement, but delivered coercion and famine. As in the previous volumes, Schama vividly portrays the lives of extraordinary personalities - Queen Victoria, Churchill, Dickens, and "ordinary" individuals including the author of the first British travel guide, and Elizabeth Anderson, the first woman doctor. Finally, Schama asks an essential question: what kind of Britain can hold together when its island isolation and its imperial dominion have both vanished? An examination of the legacy of the British ideal of freedom is at the heart of this entertaining and well-researched book. With "The Fate of Empire, Simon Schama has proven himself, again, as a masterful writer of narrative history.

At the Edge of the World? 3000 B.C.--A.D. 1603 Faber & Faber
First Published in 2005. Routledge is an imprint of Taylor & Francis, an informa company.

Brief History of Great Britain OUP Oxford

Indiana University Press

The history of the book from 1400 to 1557: the transition from manuscripts to printed books.

A History of Britain Stacey International Publishers

THE CLASSIC HISTORY OF BRITAIN, FULLY UPDATED Roy Strong has written an exemplary introduction to the history of Britain, as first designated by the Romans. It is a brilliant and balanced account of successive ages bound together by a compelling narrative which answers the questions: 'Where do we come from?' and 'Where are we going?' Beginning with the earliest recorded Celtic times, and ending with the present day of Brexit Britain, it is a remarkable achievement. With his passion, enthusiasm and wide-ranging knowledge, he is the ideal narrator. His book should be read by anyone, anywhere, who cares about Britain's national past, national identity and national prospects.

A History of Self-representation in Britain, 1832-1920

Cambridge University Press

A Brief History of Great Britain narrates the history of Great Britain from the earliest times to the 21st century, covering the

entire island England, Wales, and Scotland as well as associated archipelagos such as the Channel Islands, the Orkneys, and Ireland as they have influenced British history. The central story of this volume is the development of the British kingdom, including its rise and decline on the world stage. The book is built around a clear chronological political narrative while incorporating treatment of social, economic, and religious issues. Coverage includes: Early Settlements, Celts, and Romans Anglo-Saxons, Scots, and Vikings Scotland, England, and Wales Britain in the Late Middle Ages The Making of Protestant Britain Industry and Conquest Britain in the Age of Empire An Age of Crisis The Age of Consensus A House Divided.

The Most Dangerous Enemy Infobase Publishing

This book is open access under a CC BY license and charts the rise and fall of various self-harming behaviours in twentieth-century Britain. It puts self-cutting and overdosing into historical perspective, linking them to the huge changes that occur in mental and physical healthcare, social work and wider politics.

A History of Britain, Vol 4 Miramax

The period between 1885 and 1939 was a pivotal half century in British history, in which the Victorian political system yielded to a system far more recognisably modern, in response to popular pressure for social reform and the implications of global superpower status. Dr Davis relates these political developments to the background of social and economic change and to the consequences of Britain's position as an imperial power. Drawing extensively upon the new historical scholarship of the 1980s and 1990s, John Davis presents an original analysis of political change in a crucial period of Britain's recent past.

This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. This book is available as an open access ebook under a CC-BY-NC-ND licence. What is autism and where has it come from? Increased diagnostic rates, the rise of the 'neurodiversity' movement, and growing autism journalism, have recently fuelled autism's fame and controversy.

The metamorphosis of autism is the first book to explain our current fascination with autism by linking it to a longer history of childhood development. Drawing from a staggering array of primary sources, Bonnie Evans traces autism back to its origins in the early twentieth century and explains why the idea of autism has always been controversial and why it experienced a 'metamorphosis' in the 1960s and 1970s. Evans takes the reader on a journey of discovery from the ill-managed wards of 'mental deficiency' hospitals, to high-powered debates in the houses of parliament, and beyond. The book will appeal to a wide market of scholars and others interested in autism.

Divided Kingdom A History of Britain

A journey through the events of the postwar years that "makes the outcome of Britain's Brexit referendum much easier to comprehend" (Julian Lewis, member of Parliament). In 2016, Britain stunned itself and the world by voting to pull out of the European Union, leaving financial markets reeling and global politicians and citizens in shock. But was Brexit really a surprise, or are there clues in Britain's history that pointed to this moment? In *A History of Britain: 1945 to Brexit*, award-winning historian Jeremy Black reexamines modern British history, considering the social changes, economic strains, and cultural and political upheavals that brought Britain to Brexit. This sweeping and engaging book traces Britain's path through the destruction left behind by World War II, Thatcherism, the threats of the IRA, the Scottish referendum, and on to the impact of waves of immigrants from the European Union. Along the way, Black overturns many conventional interpretations of significant historical events, provides context for current developments, and encourages the reader to question why we think the way we do about Britain's past.

A Personal Selection Createspace Independent Publishing Platform

This comprehensive visual guide presents a timeline chronicling key events in the history of Britain and Ireland, from the Roman conquest of 43 CE and the Norman conquest of 1066 through the Elizabethan age to the present day.

A history of child development in Britain Ashgate Publishing, Ltd. A clear, comprehensive survey of British history from 1900 to the present, integrating political, economic, social and cultural history.

A History of the World in 21 Women Manchester University Press

"The magnitude and vital importance of the Battle of Britain has found a superb chronicler in Stephen Bungay, whose book is the best single-volume history to be published in over a decade." - Andrew Roberts Stephen Bungay's magisterial history is acclaimed as the account of the Battle of Britain. Unrivalled for its synthesis of all previous historical accounts, for the quality of its strategic analysis and its truly compulsive narrative, this is a book ultimately distinguished by its conclusions - that it was the British in the Battle who displayed all the virtues of efficiency, organisation and even ruthlessness we habitually attribute to the Germans, and they who fell short in their amateurism, ill-preparedness, poor engineering and even in their old-fashioned notions of gallantry. An engrossing read for the military scholar and the general reader alike, this is a classic of military history that looks beyond the mythology, to explore all the tragedy and comedy; the brutality and compassion of war.

A Historical Introduction Routledge

Simon Schama explores the forces that tore Britain apart during two centuries of dynamic change - transforming outlooks, allegiances and boundaries. From the beginning of July 1637, battles raged on for 200 years - both at home and abroad, on sea and on land, up and down the length of burgeoning Britain, across Europe, America and India. Most would be wars of faith - waged on wide-ranging grounds of political or religious conviction. But as wars of religious passions gave way to campaigns for profit, the British people did come together in the imperial enterprise of 'Britannia Incorporated'. The British Wars is a story of revolution and reaction, inspiration and disenchantment, of progress and catastrophe, and Schama's evocative narrative brings it vividly to life.
