In a world of unprecedented (diachronic and synchronic) complexities like ours, firms are forced to deal with an increasing number of organizational paradoxes that challenge their strategic choices. Under

these circumstances, ambidexterity could become a (dynamic) core competence for firms, making the ambidextrous organization an imperative for businesses more than ever before. Solving Strategic Paradoxes through Organizational ... Strategy paradoxes are opposite demands placed on the organization that seem to be contradictory at a certain level, but can be combined in innovative ways. Viewing a strategy tension as a paradox challenges the strategist to find a way to get the best of both worlds. Strategy perspectives are views on how to deal with certain strategy paradoxes.
