Travelers' tales Katha

The bestselling author of *Honeymoon with My Brother* hits the road again to learn about love and finally finds it closer to home. When you've been jilted at the altar and forced to take your pre-paid honeymoon with your brother, it's fair to say you could learn a thing or two about love. And that's what Franz Wisner sets out to do—traveling the globe with a mission: to discover the planet's most important love lessons and see if they can rescue him from the ruins of his own love life. Even after months on the road, he's still not sure he's found the secret. But a disastrous date with a Los Angeles actress and single mom keeps popping into Franz's head. While researching ideal love, could he have missed a bigger truth: that something unplanned and implausible could actually make him happy? Uproarious, tender, and studded with eye-opening insights on love, *How the World Makes Love* is the story of one average man's search for happiness—a search that turns into an improbable love story in the author's own backyard.

A USA Today bestseller and book club favorite! College student Joe Talbert has the modest goal of completing a writing assignment for an English class. His task is to interview a stranger and write a brief biography of the person. With deadlines looming, Joe heads to a nearby nursing home to find a willing subject. There he meets Carl Iverson, and soon nothing in Joe's life is ever the same. Carl is a dying Vietnam veteran—and a convicted murderer. With only a few months to live, he has been medically paroled to a nursing home, after spending thirty years in prison for the crimes of rape and murder. As Joe writes about Carl's life, especially Carl's valor in Vietnam, he cannot reconcile the heroism of the soldier with the despicable acts of the convict. Joe, along with his skeptical female neighbor, throws himself into uncovering the truth, but he is hamstrung in his efforts by having to deal with his dangerously dysfunctional mother, the guilt of leaving his autistic brother vulnerable, and a haunting childhood memory. Thread by thread, Joe unravels the tapestry of Carl's conviction. But as he and Lila dig deeper into the circumstances of the crime, the stakes grow higher. Will Joe discover the truth before it's too late to escape the fallout?

Barcelona is one of the most visited cities in Europe, a multilingual capital of an autonomous region that longs to be independent of Spain. The city is famous for its painters, modernist architecture, style of football, and its history, but as Peter Bush reveals it has always been a major centre of literary talent and creativity. *Barcelona Tales* presents a selection of newly translated short stories by 14 writers, many of them Catalan. The stories explore the themes of migration and class conflict in a city renowned in world literature from the day rural innocents Don Quixote and Sancho Panza visited its streets at the beginning of the seventeenth-century, and witnessed the wonders of the printing press and the cruelties of slavery. Together, they open up the city in ironic, tragic, and lyrical ways, inviting readers to explore fictional lives and literary styles that reflect the dynamic, conflict-ridden character and history of this great European city.

A Journey From Lost to Found. At 26, Cheryl Strayed thought she had lost everything. In the wake of her mother's rapid death from cancer, her family disbanded and her marriage crumbled. With nothing to lose, she made the most impulsive decision of her life: to walk eleven-hundred miles of the west coast of America - from the Mojave Desert, through California and Oregon, and into Washington State - and to do it alone. She had no experience of long-distance hiking and the journey was nothing more than a line on the map. This account captures the agonies - both mental and physical - of her incredible journey.

FORENSIC INVESTIGATOR Geoff Bernasconi had always been passionate about his job as a policeman in rural New South Wales and, from the earliest days of his career, went the extra mile, both for victims of crime and for their families. But one night in 1984, he was called to investigate the scene of an horrific car accident in which an entire family had been wiped out - and which it was impossible for him to forget. Geoff's day-to-day working life became a catalogue of tragedies, some of which involved people close to him, and he found himself spiralling downwards in the grip of post-traumatic stress disorder. When Esther McKay, fellow forensic investigator and author of the best-selling *Crime Scene*, heard that Geoff has been awarded maximum compensation for his suffering, she knew immediately this was a story that needed to be told. This is a harrowing account of what it is like to work on the front-line of crime and tragedy as a forensic investigator. But it is also the inspiring story of someone who has been exposed to sights and experiences many of us can hardly even imagine, yet has emerged from the darkness to begin his journey to recovery.

This is the true story of Franz Wisner, a man who thought he had it all - a high profile career and the fiancée of his dreams - when suddenly, his life turned upside down. Just days before they were to be married, his fiancée called off the wedding. Luckily, his large support network of family and friends wouldn't let him succumb to his misery. They decided Franz should have a wedding and a honeymoon anyway - there just wouldn't be a bride at the ceremony, and Franz' travel companion would be his brother, Kurt. During the "honeymoon," Franz reconnected with his brother and began to look at his life with newfound perspective. The brothers decided to leave their old lives behind them. They quit their jobs, sold all their possessions, and traveled around the world, visiting fifty-three countries for the next two years. In *Honeymoon With My Brother*, Franz recounts this remarkable journey, during which he turned his heartbreak into an opportunity to learn about himself, the world, and the brother he hardly knew.

'Structure and Architecture' is an essential textbook for students and practitioners of architecture and structural engineering. MacDonald explains the basic principles of structure and describes the ranges of structure types in current use. Furthermore, the book links these topics directly with the activity of architectural design and criticism. An update of the first edition, 'Structure and Architecture 2ed' includes a revised opening chapter, and a new section that discusses prominent buildings constructed since the last edition was published in 1994. Angus MacDonald deals with structures holistically, relating detailed topics back to the whole structure and building. He aims to answer the questions: What are architectural structures? How does one define the difference between the structure of a building and all of the other components and elements of which it consists? What are the requirements of structures? What is involved in their design? An understanding of the concepts involved in answering these questions and an appreciation of how the structure of a building functions enhances the ability of an individual to appreciate its architectural quality. This book is unique in that it discusses the structural component of architectural design in the context of visual and stylistic issues.

In this close study of a key figure in the history of technology, Leonard K. Eaton examines Hardy Cross's training, his work, his teaching, and his ideas, demonstrating how his achievements represent a pivotal moment in the history of structural engineering. During Cross's tenure at the University of Illinois (1921-37), he developed the "moment distribution method," allowing mathematicians to calculate statistically indeterminate frames of reinforced concrete for the first time. Later known as the Cross method, this achievement made possible the calculations that allowed for safe and efficient designs from reinforced concrete—a new material at the time—and the subsequent architectural revolution.

Chasing Secrets Hassell Street Press

On March 14, 2012, more than three million people read Greg Smith's bombshell Op-Ed in the New York Times titled "Why I Am Leaving Goldman Sachs." The column immediately went viral, became a worldwide trending topic on Twitter, and drew passionate responses from former Fed chairman Paul Volcker, legendary General Electric CEO Jack Welch, and New York City mayor Mike Bloomberg. Mostly, though, it hit a nerve among the general public who question the role of Wall Street in society -- and the callous "take-the-money-and-run" mentality that brought the world economy to its knees a few short years ago. Smith now picks up where his Op-Ed left off. His story begins in the summer of 2000, when an idealistic 21-year-old arrives as an intern at Goldman Sachs and learns about the firm's Business Principle #1: Our clients' interests always come first. This remains Smith's mantra as he rises from intern to analyst to sales trader, with clients controlling assets of more than a trillion dollars. From the shenanigans of his summer internship during the technology bubble to Las Vegas hot tubs and the excesses of the real estate boom; from the career lifeline he received from an NFL Hall of Famer during the bear market to the day Warren Buffett came to save Goldman Sachs from extinction—Smith will take the reader on his personal journey through the firm, and bring us inside the world's most powerful bank. Smith describes in page-turning detail how the most storied investment bank on Wall Street went from taking iconic companies like Ford, Sears, and Microsoft public to becoming a "vampire squid" that referred to its clients as "muppets" and paid the government a record half-billion dollars to settle SEC charges. He shows the evolution of Wall Street into an industry riddled with conflicts of interest and a profit-at-all-costs mentality: a perfectly rigged game at the expense of the economy and the society at large. After conversations with nine Goldman Sachs partners over a twelve-month period proved fruitless, Smith came to believe that the only way the system would ever change was for an insider to finally speak out publicly. He walked away from his career and took matters into his own hands. This is his story.
