Introduction by Archbishop Salvatore Cordileone. The Propers of the Mass book contains English chant settings for the Entrance and Communion Antiphons given in The Roman Missal, 2010, as well as suggestions for the Offertory Antiphons, following the pattern of the Graduale Romanum, 1974. For most antiphons, four levels of settings from complex to very simple are provided, : i. through-composed melismatic; ii. through-composed simple; iii. Gregorian psalm tone; iv. English psalm tone. Optional psalm verses are provided in the Gregorian psalm tone style. Thus this collection provides an option intended to suit the abilities and needs of any choir or cantor. Ordination and nuptial Masses are also included, as well as the Asperges me and Vidi aquam. The Gloria Patri is given in the eight Gregorian tones, solemn and simple.

 Many contemporary theologians seek to retrieve the concept of beauty as a way for people to encounter God. This groundbreaking book argues that while Martin Luther's view of beauty has often been ignored or underappreciated, it has much to contribute to that quest. Mark Mattes, one of today's leading Lutheran theologians, analyzes Luther's theological aesthetics

and discusses its implications for music, art, and the contemplative life. Mattes shows that for Luther, the cross is the lens through which the beauty of God is refracted into the world.

Contemporary worship music shapes the way evangelical Christians understand worship itself. Author Monique M. Ingalls argues that participatory worship music performances have brought into being new religious social constellations, or "modes of congregating". Through exploration of five of these modes--concert, conference, church, public, and networked congregations--*Singing the Congregation* reinvigorates the analytic categories of "congregation" and "congregational music." Drawing from theoretical models in ethnomusicology and congregational studies, *Singing the Congregation* reconceives the congregation as a fluid, contingent social constellation that is

actively performed into being through communal practice--in this case, the musically-structured participatory activity known as "worship." "Congregational music-making" is thereby recast as a practice capable of weaving together a religious community both inside and outside local institutional churches. Congregational music-making is not only a means of expressing local concerns and constituting the local religious community; it is also a powerful way to identify with far-flung individuals, institutions, and networks that comprise this global religious community. The interactions among the congregations reveal widespread conflicts over religious authority, carrying far-ranging implications for how evangelicals position themselves relative to other groups in North America and beyond.

"Tikkun Olam"--To Mend the World is premised on the conviction that artists and theologians have things to learn from one another, things about the complex interrelationality of life and about a coherence of things given and sustained by God. The ten essays compiled in this volume seek to attend to the lives, burdens, and hopes that characterize human life in a world broken but unforgotten, in travail but moving towards the freedom promised by a faithful Creator. They reflect on whether the world--wounded as it is by war, by hatred, by exploitation, by neglect, by reason, and by human imagination itself--can be healed. Can there be repair? And can art and theology tell the truth of the world's woundedness and still speak of its hope?

Anthony Ruff, O.S.B., has written a brilliant, comprehensive, well-researched book about the treasures of the Church's musical tradition, and about the transformations brought about by liturgical reform. The liturgy constitution *Sacrosanctum Concilium* stated many revolutionary principles of liturgical reform.

Regarding liturgical music, the Council's decrees mandated, on the one hand, the preservation of the inherited treasury of sacred music, and on the other hand, advocated adaptation and expansion of this treasury to meet the changed requirements of the reformed liturgy. In clear, precise language, he retrieves the Council's neglected teachings on the preservation of the inherited music treasury. He clearly shows that this task is not at odds with good pastoral practice, but is rather an integral part of it. The book proposes an alternate hermeneutic for understanding the Second Vatican Council's teachings on worship music.
