Popular and outspoken NFL cornerback Hanford Dixon offers an inside look at the turbulent, exciting, and frustrating Cleveland Browns seasons of the 1980s. A three-time Pro Bowler and co-inventor of the Dawg Pound, Dixon recalls both the roller-coaster on-field action and a culture of drug use that permeated the NFL and led to the tragic death of a teammate. He shares in detail what it was like to be a first-round NFL draft pick fighting for the starting job in training camp . . . What it took, mentally and physically, to play the toughest game at the highest level for a storied franchise . . . The adrenaline rush of whipping up a frenzied crowd of 80,000 rabid fans in Municipal Stadium . . . The thrill of being one game away from the Super Bowl—three times! . . . And the crushing disappointment of losing those big games. Dixon refers to himself as “a top-notch, speedy, loud-mouth, cocky, shutdown cornerback.” That gives an idea of his outsized personality as well as his willingness to say exactly what he means. He's not shy about delivering praise or criticism where he thinks it's due—to teammates, coaches, officials . . . or himself. This Dawg tells it the way it was.

Join #1 New York Times bestselling author Jan Karon on a trip to Mitford—a southern village of local characters so heartwarming and hilarious you'll wish you lived right next door. At last, Mitford's rector and lifelong bachelor, Father Tim, has married his talented and vivacious neighbor, Cynthia. Now, of

course, they must face love's challenges: new sleeping arrangements for Father Tim's sofa-sized dog, Cynthia's urge to decorate the rectory Italian-villa-style, and the growing pains of the thrown-away boy who's become like a son to the rector. Add a life-changing camping trip, the arrival of the town's first policewoman, and a new computer that requires the patience of a saint, and you know you're in for another engrossing visit to Mitford—the little town that readers everywhere love to call home. *The Illuminated Rumi* Simon and Schuster

The Inspiring True Story of the Mighty Mites Who Ruled Texas Football Willow Creek Press

Jim Dent, author of the New York Times bestselling *The Junction Boys*, returns with his most powerful story of human courage and determination. More than a century ago, a school was constructed in Fort Worth, Texas, for the purpose of housing and educating the orphans of Texas Freemasons. It was a humble project that for years existed quietly on a hillside east of town. Life at the Masonic Home was about to change, though, with the arrival of a lean, bespectacled coach by the name of Rusty Russell. Here was a man who could bring rain in the midst of a drought. Here was a man who, in virtually no time at all, brought the orphans' story into the homes of millions of Americans. In the 1930s and 1940s, there was nothing bigger in Texas high school football than the Masonic Home Mighty Mites—a group of orphans bound together by hardship and death. These youngsters, in spite of being outweighed

by at least thirty pounds per man, were the toughest football team around. They began with nothing—not even a football—yet in a few years were playing for the state championship on the highest level of Texas football. This is a winning tribute to a courageous band of underdogs from a time when America desperately needed fresh hope and big dreams. The Mighty Mites remain a notable moment in the long history of American sports. Just as significant is the depth of the inspirational message. This is a profound lesson in fighting back and clinging to faith. The real winners in Texas high school football were not the kids from the biggest schools, or the ones wearing the most expensive uniforms. They were the scrawny kids from a tiny orphanage who wore scarred helmets and faded jerseys that did not match, kids coached by a devoted man who lived on peanuts and drove them around in a smoke-belching old truck. In writing a story of unforgettable characters and great football, Jim Dent has come forward to reclaim his place as one of the top sports authors in America today. A remarkable and inspirational story of an orphanage and the man who created one of the greatest football teams Texas has ever known . . . this is their story—the original Friday Night Lights. "This just might be the best sports book ever written. Jim Dent has crafted a story that will go down as one of the most artistic, one of the most unforgettable, and one of the most inspirational ever. Twelve Mighty Orphans will challenge Hoosiers as the feel-good sports story of our lifetime. Naturally, being from Texas, I am biased. Hooray for the Mighty Mites." —Verne Lundquist, CBS Sports "Coach Rusty Russell and the Mighty Mites will steal your heart as they overcome every

obstacle imaginable to become a respected football team. Take an orphanage, the Depression, and mix it with Texas high school football, and Jim Dent has authored another winner, this one about the ultimate underdog." —Brent Musburger, ABC Sports/ESPN "No state has a roll call of legendary high school football stories like we do in Texas, and, admittedly, some of those stories have been 'expanded' over the years when it comes to the truth. But let Jim Dent tell you about the Mighty Mites of Masonic Home, the pride of Fort Worth in the dark days of the Depression. Read this book. You will think it's fiction. You will think it's a Hollywood script. But Twelve Mighty Orphans is the truth, and nothing but. It is powerful stuff. Some eighty years later, the Mighty Mites' story remains so sacred, not even a Texan would dare tamper with these facts. And Jim Dent tells it like it was." —Randy Galloway, columnist, Fort-Worth Star Telegram

NEW YORK TIMES BESTSELLER • The story of how the NFL, over a period of nearly two decades, denied and sought to cover up mounting evidence of the connection between football and brain damage “League of Denial may turn out to be the most influential sports-related book of our time.”—The Boston Globe
“Professional football players do not sustain frequent repetitive blows to the brain on a regular basis.” So concluded the National Football League in a December 2005 scientific paper on concussions in America’s most popular sport. That judgment, implausible even to a casual fan, also contradicted the opinion of a growing cadre of neuroscientists who worked in vain to convince the NFL that it was facing a deadly new scourge: a chronic brain disease that was driving an alarming

number of players—including some of the all-time greats—to madness. In League of Denial, award-winning ESPN investigative reporters Mark Fainaru-Wada and Steve Fainaru tell the story of a public health crisis that emerged from the playing fields of our twenty-first-century pastime. Everyone knows that football is violent and dangerous. But what the players who built the NFL into a \$10 billion industry didn’t know—and what the league sought to shield from them—is that no amount of padding could protect the human brain from the force generated by modern football, that the very essence of the game could be exposing these players to brain damage. In a fast-paced narrative that moves between the NFL trenches, America’s research labs, and the boardrooms where the NFL went to war against science, League of Denial examines how the league used its power and resources to attack independent scientists and elevate its own flawed research—a campaign with echoes of Big Tobacco’s fight to deny the connection between smoking and lung cancer. It chronicles the tragic fates of players like Hall of Fame Pittsburgh Steelers center Mike Webster, who was so disturbed at the time of his death he fantasized about shooting NFL executives, and former San Diego Chargers great Junior Seau, whose diseased brain became the target of an unseemly scientific battle between researchers and the NFL. Based on exclusive interviews, previously undisclosed documents, and private emails, this is the story of what the NFL knew and when it knew it—questions at the heart of a crisis that threatens football, from the highest levels all the way down to Pop Warner.

Nineteen-year-old Joy Louie has run away from her home in 1950s America to start a new life in China. Idealistic and unafraid, she believes that Chairman Mao is on the side of the people, despite what her family keeps telling her. How can she trust them, when she has just learned that her parents have lied to her for her whole life, that her mother Pearl is really her aunt and that her real father is a famous artist who has been living in China all these years? Joy arrives in Green Dragon Village, where families live in crowded, windowless huts and eke out a meagre existence from the red soil. And where a handsome young comrade catches her eye... Meanwhile, Pearl returns to China to bring her daughter home - if she can. For Mao has launched his Great Leap Forward, and each passing season brings ever greater hardship to cities and rural communes alike. Joy must rely on her skill as a painter and Pearl must use her contacts from her decadent childhood in 1930s Shanghai to find a way to safety, and a chance of joy for them both. Haunting, passionate and heartbreakingly real, this is the unforgettable new novel by the internationally acclaimed Lisa See.

A dramatic, inspiring memoir by legendary rock climber Tommy Caldwell, the first person to free climb the Dawn Wall of Yosemite's El Capitan. On January 14, 2015, Tommy Caldwell, along with his partner, Kevin Jorgeson, summited what is widely regarded as the hardest climb in history Yosemite's nearly vertical 3,000-foot Dawn Wall, after nineteen days on the route. Caldwell's odds-defying feat was the culmination of an entire lifetime of pushing himself to his limits as an athlete. This engrossing memoir chronicles the journey of a boy with a fanatical mountain-guide father who was determined to instill toughness in his son to a teen whose obsessive nature drove him to the top of the sport-climbing circuit. Caldwell's affinity for adventure then led him to the vertigo-inducing and little understood world of big wall free climbing. But his evolution as a climber was not without challenges; in his early twenties, he was held hostage by militants in a harrowing ordeal in the mountains of Kyrgyzstan. Soon after, he lost his left index finger in an accident. Later his wife, and main climbing partner, left him. Caldwell emerged from these hardships with a renewed sense of purpose and determination. He set his sights on free climbing El Capitan's biggest, steepest, blankest face the Dawn Wall. This epic assault took more than seven years, during which time Caldwell redefined the sport, found love again, and became a father. The Push is an arresting story of focus, drive, motivation, endurance, and

transformation, a book that will appeal to anyone.

UPDATED FOR 2020 WITH A NEW PREFACE BY NATE SILVER "One of the more momentous books of the decade." —The New York Times Book Review
Nate Silver built an innovative system for predicting baseball performance, predicted the 2008 election within a hair's breadth, and became a national sensation as a blogger—all by the time he was thirty. He solidified his standing as the nation's foremost political forecaster with his near perfect prediction of the 2012 election. Silver is the founder and editor in chief of the website FiveThirtyEight. Drawing on his own groundbreaking work, Silver examines the world of prediction, investigating how we can distinguish a true signal from a universe of noisy data. Most predictions fail, often at great cost to society, because most of us have a poor understanding of probability and uncertainty. Both experts and laypeople mistake more confident predictions for more accurate ones. But overconfidence is often the reason for failure. If our appreciation of uncertainty improves, our predictions can get better too. This is the "prediction paradox": The more humility we have about our ability to make predictions, the more successful we can be in planning for the future. In keeping with his own aim to seek truth from data, Silver visits the most

successful forecasters in a range of areas, from hurricanes to baseball to global pandemics, from the poker table to the stock market, from Capitol Hill to the NBA. He explains and evaluates how these forecasters think and what bonds they share. What lies behind their success? Are they good—or just lucky? What patterns have they unraveled? And are their forecasts really right? He explores unanticipated commonalities and exposes unexpected juxtapositions. And sometimes, it is not so much how good a prediction is in an absolute sense that matters but how good it is relative to the competition. In other cases, prediction is still a very rudimentary—and dangerous—science. Silver observes that the most accurate forecasters tend to have a superior command of probability, and they tend to be both humble and hardworking. They distinguish the predictable from the unpredictable, and they notice a thousand little details that lead them closer to the truth. Because of their appreciation of probability, they can distinguish the signal from the noise. With everything from the health of the global economy to our ability to fight terrorism dependent on the quality of our predictions, Nate Silver's insights are an essential read.
