between the right of the states to self-regulate and the interests of the foreign investors. Abandoning or prohibiting FDI from one's territory would cripple many nations but at the same time, leaving FDI unregulated will result in just as much of a catastrophe. Introduction to International Investment Law | Law Guide Despite this recent paradigm shift in treaty drafting, international investment

law is still composed of traditional IIAs whose main function is to prescribe how host states treat foreign investors. International Investment Law and Sustainable Development When a company goes abroad to invest, what are the risks the company takes - whether political or economic - and what are the rules of international law that protect foreign investments? The laws

between the investing country and the host country as well as the interface between international investment law and other areas of international law are all covered in this course. International investment law | University of London About The Right to Regulate in International Investment Law Since the inception of the international investment law system, investment

promotion and protection have been the *raison d'être* of investment treaties and states have confined their policy space in order to attract foreign investment and protect their investors abroad. The Right to Regulate in International Investment Law ... Passionate and sometimes ill-informed discussions have resulted from this realisation. They have focused on the features of international

investment law, which has traditionally granted rights to foreign investors to foster States' economic development. Central to these discussions are the issues of: International Investment Law | edX "Fair and Equitable Treatment Standard in International Investment Law" clarifies the concept, based on jurisprudence and state practice. "Indirect Expropriation' and the 'Right to Regulate' in International

Investment Law" identifies the main criteria found in investment agreements and used by tribunals to articulate the difference between the two concepts. OECD iLibrary | "Indirect Expropriation" and the "Right to ... In the absence of a global treaty on the law of foreign investment, international courts, claims commissions and tribunals have tried to flesh out the main principles of the part of the

role of foreign investment and especially those relating to the requirements for a lawful expropriation and the nature of compensation, damages, reparation or restitution for: ~ lawful expropriation ~ the illegal or confiscatory actions of states. International investment law - University of London WorldwideThe right to expropriate inheres in every State. This right is recognised

under national law, as well as under international law. An act of expropriation, in and of itself, is neither prohibited by national law nor by international law. An expropriation is not objectionable so long as it satisfies prescribed cumulative conditions for lawfulness.
