Channel happiness and find your purpose with stories from the world's leading minds Work is Love Made Visible offers the insights of some of the world's greatest thought leaders as they tackle one of life's most difficult treasure hunts: finding purpose. The word "purpose" is big. Very big. And heavy. It carries the weight of a lifetime of work and struggle; the weight of legacy, and the mass of days spent not doing something else. It's something we all grapple with at some point—some of us find our purpose, others spend a lifetime searching. A lucky few grow to realize they've been working their purpose all along. Most of us aren't quite that lucky; often, fulfilling your purpose requires some kind of change—career, lifestyle, habits, family—and what then? Are we selfish for the upheaval, or are we fulfilling destiny? Once we know our purpose, how do we pursue it? This book asked those very questions of people who have followed their purpose and succeeded on a global scale. Their un-distilled answers are here, lending you the wisdom of their experiences, their examples, inspiration, and motivations as they: Tackle the universal struggle with individual purpose and meaning Illustrate how personal thought patterns contribute to real-world action Move challenges into the opportunities of their lives Reveal how they arrived at their life's purpose, and what they sacrificed to get there We all want a meaningful life. We want to work together for a

brighter future, we want to celebrate our differences and commit to good. We want to inspire others, nurture their talents, and help them grow. We want to look back one day on a life well-lived, and leave something behind that matters to the world. Work is Love Made Visible shows you how some of us have succeeded, and offers you insight and guidance so that you can do the same.

In every passing moment (whether you are aware of it or not) you are in either your Endogenic or Exogenic state of mind. Depending on which state you are in, you feel, think, and act differently. These differences affect how others experience you. They shape your character traits and your path in life. In *The Duogenic Leader*, Dr. Aebi-Magee presents her innovative and ground-breaking psychological theory about our two states of mind and describes how this discovery can rapidly advance leadership, innovation, intelligence, and personal power. Learning to choose between Endogenic and Exogenic unlocks a realm of self-awareness and psychological knowledge. In an inspiring and uplifting way, Dr. Aebi-Magee guides readers to a new understanding of themselves and others that is clear and thought-provoking. As a leadership consultant for two decades, Dr. Aebi-Magee has helped successful leaders improve their companies, advance their careers, boost strategic thinking, and become greater leaders. A native of Switzerland, Dr. Aebi-Magee has a PhD and masters in psychology from the University of Zürich and earned the title of Psychoanalyst in association with the Freud Institute and the Psychoanalytical Institute of Zürich. The *Duogenic Leader* takes you on a journey of human discovery. Seeing the Endogenic and Exogenic states in yourself and others leads to startling realizations about awareness, confidence, and authenticity that help you live a

richer and more meaningful life. For business professionals, this manifests in a new and deeper understanding of human dynamics, communication, charisma, and leadership. Reading *The Duogenic Leader* triggers frequent contemplation. It inspires ideas about how you might unlock your innovative potential, overcome self-imposed limitations, better understand others, solve problems faster, have less confusion in life, advance your intelligence, improve your relationships with others, be a better parent, advance your career faster, prevent dysfunctional behavior, find more joy, and lead a more fulfilling life. Critical of Exogenic dominance in society and rich with sharp human observations, *The Duogenic Leader* offers profound clarity and insight for anyone who wants to advance personally or professionally. Broken into two distinct parts, *The Duogenic Leader* makes an academic subject fully accessible. Part One precisely explains the underlying dynamics and introduces the new terms "Endogenic" and "Exogenic" to describe the two states of being in which we experience every moment of life. Part Two illustrates more than fifty specific situations that show you how to spot repeating patterns of these dynamics in all aspects of work and life. The author sheds new light on topics like collaboration, trust, confidence, authority, innovation, learning, love, motivation, manipulation, authenticity, power, fear, and dozens of other issues important to business, leadership, and self-development.

When entrepreneur Len Forkas learned that his nine-year-old son had leukemia, his own life changed forever. In 2003, Len founded Hopecam, a nonprofit that uses technology to connect young cancer patients with their friends at school. Ten years later, Len's fight against childhood cancer rose to a new level. He qualified as a solo competitor in Race Across America, a 3,000-mile bicycle race that traverses scorching deserts and 11,000-foot mountain elevations. As Len fought to finish the race is just 12 days, an all-volunteer crew supported him around the clock. What Spins the Wheel is a true story about fatherhood and fortitude, business grit and growth ? and the power of combining the right mission with the right team to help others.

"Managerial styles are influenced by habit, familiarity, and workplace culture. It's no wonder that well-intentioned professionals doing their best to be good organizational leaders often repeat unhelpful supervisory practices experienced in their early careers, even if they disliked them at the time. In the DUH! Book of Management and Supervision, the author disagrees with many accepted leadership principles (unabashedly referring to them as myths) and makes new and different approaches easier to imagine. Her challenging and controversial concepts illustrated with poignant stories suggest common-sense and immediately applicable alternatives more suitable in today's workplace"--Back cover.

Groomed for a place at a Big Name School since their obsessed, status-conscious helicopter parents passed out cigars at the Stockstill General Hospital Neonatal Unit, the privileged students of Pembrocton College Preparatory are ratcheting up the stakes in the race to get into the nation's most prestigious colleges. The PCP juniors are gloating, jubilant at the rumor that the valedictorian presumptive has received a B on her report card, a grade that will relegate her to in-state hell. Her heir apparent, a three-generation Yale legacy, is the sole mourner at the demise of her future—if only because her thoughtless academic lapse is going to derail his plans to attend MIT. Across town, in the graffiti-covered halls of Stockstill High School, the students slink to class, praying that they arrive without a knife wound—and dream of ivy-covered walls. And with the help of a take-no-prisoners principal and an enterprising parent, the students at SHS dare to encroach shamelessly on territory normally reserved for their wealthy private school rivals. Join the fray as a memorable cast of characters engages in the latest rage in extracurricular activities: college admissions as a blood sport. Laugh out loud funny, *The Applicants* lampoons the heights we scale—and the depths to which we sink—to get into the “right” college. ?

A devoted employee of the FIA (Federal Intelligence Agency), Eurian lives a comfortable and secure life, spanned with bureaucratic conflicts and desires for promotion. He will find himself thrust into an international conflict to track down and stop a subversive cyberterrorist movement. His desire for a foreign assignment will finally be met, but not in the way he expected. Assigned to Kerploueck, a sleepy village at the far edge of the world, he will be forced to let go of the comfort and stability of his previous lifestyle. With this temporary assignment, the complacent bureaucrat finds himself a spy-but with none of the excitement and adventure he had dreamed of. He now must find new objectives to survive this wholly uninteresting assignment. What happens to the FIA and to the success of the worldwide search for the subversive cyber-terrorists will slowly drift away from Eurian's mind. Interestingly enough, when this book was started, internet spying, hacking, and cyberterrorism were rhetorical discussions. Today, we live in a different reality. Truth and facts are not as important as swaying unmindful, gullible populations. George Orwell's "alternative facts" are common place and universally acceptable. With the ocean of information now accessible to anyone, individuals, organizations, and even governments are scrambling to control its sources and promulgate their agendas. This is the essence of "The Happy Fools." Following Eurian and his unanticipated quest for truth, many topics of modern society will be discussed. This book also serves as a compendium of the latest technologies, sciences, ideas and movements. Focusing primarily on the most pertinent latest developments, each providing hope and insights that could change our lives. The underlying prerequisite of being happy is to avoid stress and the unknown. Therein lies a potential philosophical issue. Shutting the doors to outside turmoil, to world problems and issues, is a good safeguard for happiness. Close-mindedness brings confidence, as the world's problems appear simple and the solutions two-sided. Inversely, knowledge creates a spirit of inquiry, a burning desire for more knowledge, spurring new questions that beg for answers, ultimately resulting in a loss of conviction and an understanding that we will never truly understand the world in its endless complexities. Do we choose closed-minded confidence, or a life dedicated to the pursuit of knowledge with the uncertainties, frustrations, and complexities that it yields?

New York Times Bestseller How women can make it to the top by adopting the new rules of leadership Women hold just 11 percent of the most senior-level leadership positions in U.S. Corporations—a number that hasn't changed in over 30 years. How can women break through? Break Your Own Rules distills the six faulty assumptions (or "rules") most women follow that get in the way—then delivers the correlating new rules that promise to clear that path. For example, the old rule of "Focus on Others" must be replaced by "Take Center Stage," "Hard Work Will Get You There" must yield to "Be Politically Savvy." "Play It Safe" must give way to "Play to Win." "Ask Permission" must be replaced by "Proceed Until Apprehended." Features the results of over 1,700 interviews with executives in Fortune 1000 companies, as well as the authors' new research and ongoing work with over 5,000 professional women Showcases previously-untold stories from high profile women including Ann Moore (CEO, Time Inc.), Susan Ivey (CEO, Reynolds American), Cathy Bessant (Global Executive for Technology and Operations for Bank of America), Lynn Ford (CEO, ING Solutions), and more Reveals what it really takes for any woman to succeed at the highest levels Foreword by Sharon Allen, Chairman of Deloitte This hands-on guide is for women who are ready to transform their assumptions and join the senior ranks of American business.

Innovation is an imperative for any organization seeking sustained growth. To infuse the organization with urgency and focus, CEOs are hiring Chief Innovation Officers (CINO). It's the hottest new "C" in the executive suite. But how should a CEO hire the right CINO, and what can executives aspiring to the CINO role do to develop themselves for the challenge? "Innovation Alchemists: What every CEO should know to hire the right Chief Innovation

Officer", is the first book focused on the CINO opportunity for large organizations. Rich in frameworks for the CEO and Executive Committee to shape decisive thinking, the book also speaks to current and future CINO's seeking to refine their professional capabilities for success. Twenty renowned business leaders (many of them CINO's) share their points of view on what it takes to fulfill the promise of innovation leadership.
