Looking back on one's life can bring forth memories of regret as well as exultation. The home and family is most generally a place of comfort and security; however, many can testify that it is often a place of trouble, heartache, and shame. Missionary life, as well, can be both exhilarating and frightening with its many unforeseen experiences. Learning a new language and culture may serve to deepen and enrich the life in so many ways but at the same time cause one to recognize the need for someone beyond oneself to provide some necessary help. It is in reflecting on what life has handed us that we are grateful for the unseen hand which has upheld us and led us regardless of the situations we've known. For my family and me, there was never a dull moment.

A New Yorker staff writer investigates his grandfather, a Nazi Party Chief, in "a finely etched memoir with the powerful sweep of history" (David Grann, #1 bestselling author of *Killers of the Flower Moon*) "Fatherland maintains the momentum of the best mysteries and a commendable balance."—The New York Times "Unflinching and illuminating . . . Bilger's haunting memoir reminds us, the past is prologue to who we are, as well as who we choose to be."—The Wall Street Journal A BEST BOOK OF THE YEAR: The New Yorker, The Washington Post, Kirkus Reviews One spring day in northeastern France, Burkhard Bilger's

mother went to the town of Bartenheim, where her father was posted during the Second World War. As a historian, she had spent years studying the German occupation of France, yet she had never dared to investigate her own family's role in it. She knew only that her father was a schoolteacher who was sent to Bartenheim in 1940 and ordered to reeducate its children—to turn them into proper Germans, as Hitler demanded. Two years later, he became the town's Nazi Party chief. There was little left from her father's era by the time she visited. But on her way back to her car, she noticed an old man walking nearby. He looked about the same age her father would have been if he was still alive. She hurried over to introduce herself and told him her father's name, Karl Gönner. "Do you happen to remember him?" she said. The man stared at her, dumbstruck. "Well, of course!" he said. "I saved his life, didn't I?" Fatherland is the story behind that story—the riveting account of Bilger's nearly ten-year quest to uncover the truth about his grandfather. Was he guilty or innocent, a war criminal or a man who risked his life to shield the villagers? Long admired for his profiles in *The New Yorker*, Bilger brings the same open-hearted curiosity to his family history and the questions it raises: What do we owe the past? How can we make peace with it without perpetuating its wrongs?

Biographical fiction. Charlotte Salomon is often remembered as the Anne Frank of the Art World. Her biographical paintings remain a remarkable witness of the Holocaust, celebrating the life of an artistic genius. "Had I not created my whole world I would certainly have died

The Grantchester Mysteries New York :
 H.W. Wilson Company
 A Pulitzer Prize-winning critic's "lyrical
 and haunting" (Alex Ross, *The New
 Yorker*) reflection on the meaning and
 emotional impact of a Bach masterwork.
 As his mother was dying, Philip Kennicott
 began to listen to the music of Bach
 obsessively. It was the only music that
 didn't seem trivial or irrelevant, and it
 enabled him to both experience her
 death and remove himself from it. For
 him, Bach's music held the elements of
 both joy and despair, life and its
 inevitable end. He spent the next five
 years trying to learn one of the
 composer's greatest keyboard
 masterpieces, the Goldberg Variations.
 In *Counterpoint*, he recounts his efforts
 to rise to the challenge, and to fight
 through his grief by coming to terms
 with his memories of a difficult,
 complicated childhood. He describes the
 joys of mastering some of the piano
 pieces, the frustrations that plague his
 understanding of others, the technical
 challenges they pose, and the
 surpassing beauty of the melodies,
 harmonies, and counterpoint that
 distinguish them. While exploring Bach's
 compositions he sketches a cultural
 history of playing the piano in the
 twentieth century. And he raises two
 questions that become increasingly
 interrelated, not unlike a contrapuntal
 passage in one of the variations itself:
 What does it mean to know a piece of
 music? What does it mean to know
 another human being?

J. S. Bach composed some of the best-loved and most moving music in Western culture. Surviving mostly in manuscript collections, his music also exists in special and unique publications that reveal much about his life and thoughts as a composer. In this book, Peter Williams, author of the acclaimed *J. S. Bach: A Life in Music*, revisits Bach's biography through the lens of his music. Reviewing all of Bach's music chronologically, Williams discusses the music collection by collection to reveal the development of Bach's interests and priorities. While a great deal has been written about the composer's vocal works, Williams gives the keyboard music its proper emphasis, revealing it as crucial to Bach's biography, as a young organist and a mature composer, as a performer in public and teacher in private, and as a profound thinker in the language of music.

Sound Advice is a valuable resource for college students, beginning teachers, and experienced conductors of children's choirs. It covers the vast array of skills needed by today's conductor and will benefit all choir directors who want their choirs to reach a higher level of artistry. This book will be useful on many levels: for the college student studying the child voice and elementary teaching methods; for the teacher beginning to direct choirs in schools, synagogues, churches and communities; for experienced children's choir directors who wish to know more about orchestral repertoire for treble voices, conducting an orchestra, and preparing a children's choir to sing a major work with a professional orchestra. The underlying educational philosophy is sound; the author sees development of musicianship through singing as the primary goal of a children's choir program. This philosophy differs dramatically from the traditional concept of the conductor as all-knowing and the singers as receptacles. An outstanding aspect of the book is how the author leads the reader to an understanding of how to teach musicianship. Developing literacy in the choral setting is a mysterious, amorphous process to many conductors, but the author clearly outlines this important process with practical suggestions, well-documented examples,

and a clear reading style which will reach readers on many levels. The comprehensive repertoire, skill-building sheets, and programs for all types of children's choirs will provide teachers with immediate and highly valuable resources.

When *Black Culture and Black Consciousness* first appeared thirty years ago, it marked a revolution in our understanding of African American history. Contrary to prevailing ideas at the time, which held that African culture disappeared quickly under slavery and that black Americans had little group pride, history, or cohesiveness, Levine uncovered a cultural treasure trove, illuminating a rich and complex African American oral tradition, including songs, proverbs, jokes, folktales, and long narrative poems called toasts--work that dated from before and after emancipation. The fact that these ideas and sources seem so commonplace now is in large part due this book and the scholarship that followed in its wake. A landmark work that was part of the "cultural turn" in American history, *Black Culture and Black Consciousness* profoundly influenced an entire generation of historians and continues to be read and taught. For this anniversary reissue, Levine wrote a new preface reflecting on the writing of the book and its place within intellectual trends in African American and American cultural history.

"Harbingers of Books to Come is more than a mere chronicle of achievements. It is also a love story. Dave Oliphant is one of those lucky poets who married his muse, Maria, whom he met in a library in Santiago, Chile, often led and occasionally pushed the poet into terra incognita, from which he returned with literary riches." --Book Jacket.

Anna Eikenhout (1902-1986) was an honors graduate of Ohio State University, a fine-arts librarian, a skilled pianist, and an avid reader in three languages. Harlan Hubbard (1900-1988), a little-known painter and would-be shantyboater, seemed an unlikely husband, but together they lived a life out of the pages of Thoreau's *Walden*. Much of what is known about the Hubbards comes from Harlan's books and journals. Concerning the seasons and the landscape, his writing was rapturous, yet he was emotionally reticent when discussing human affairs in general or Anna in particular. Yet it was through her efforts that their life on the river was truly civilized. Visitors to Payne Hollow recall Anna as a generous, gracious hostess, whose intelligence and artistry made the small house seem grander than a mansion.
