The Monacelli Press, LLC
A leading figure in cultural studies
worldwide, Néstor García Canclini is a
Latin American thinker who has
consistently sought to understand the
impact of globalization on the relations

between Latin America, Europe, and the
United States, and among Latin American
countries. In this book, newly available in
English, he considers how globalization is
imagined by artists, academics, migrants,
and entrepreneurs, all of whom traverse
boundaries and, at times, engage in
conflicted or negotiated multicultural
interactions. García Canclini contrasts the
imaginaries of previous migrants to the
Americas with those who live in
transnational circuits today. He integrates
metaphor and narrative, working through
philosophical, anthropological, and

socioeconomically grounded
interpretations of art, literature, crafts,
media, and other forms of expression
toward his conclusion that globalization is,
in important ways, a collection of
heterogeneous narratives. García Canclini
advocates global imaginaries that
generate new strategies for dealing with
contingency and produce new forms of
citizenship oriented toward multiple social
configurations rather than
homogenization. This edition of *Imagined
Globalization* includes a significant new
introduction by George Yúdice and an

interview in which the cultural theorist Toby Miller and García Canclini touch on events including the Arab Spring and Occupy Wall Street.

Arte de Tañer Fantasia Oxford University Press

The first English edition of the work of one of Mexico's most admired women writers.

Duchamp, Man Ray, Picabia Black Classic Press

How have American writers written about jazz, and how has jazz influenced American literature? In *Fascinating Rhythm*, David Yaffe explores the relationship and interplay between jazz and literature, looking at jazz musicians and the themes literature has garnered from them by appropriating the style, tones, and innovations of jazz, and demonstrating that the poetics of jazz has both been assimilated into, and deeply affected, the development of twentieth-century American literature. Yaffe explores how Jewish novelists such as Norman Mailer, J. D. Salinger, and Philip Roth engaged issues of racial, ethnic, and American authenticity by way of jazz; how Ralph Ellison's descriptions of Louis Armstrong led to a "neoconservative"

movement in contemporary jazz; how poets such as Wallace Stevens, Hart Crane, Langston Hughes, and Frank O'Hara were variously inspired by the music; and how memoirs by Billie Holiday, Charles Mingus, and Miles Davis both reinforced and redeemed the red light origins of jazz. The book confronts the current jazz discourse and shows how poets and novelists can be placed in it--often with problematic results. Fascinating Rhythm stops to listen for the music, demonstrating how jazz continues to speak for the American writer.

Danceries Copyright Office, Library of Congress

First published in 1954, a time when few books on African history were written from an African perspective. An intimate history of Africa and its ancient civilizations, the book opposed the stereotyped and often racist histories of Africa. Today, a half century after its initial publication, African Glory still provides a vivid and dynamic connection to the African past.

Mayo Ethnobotany Univ of California Press
Publisher description

The Oracle of Del-Fi Bloomsbury Academic
"For the first time, the friendships that

existed between this triumvirate are examined in depth, revealing the way their mutual admiration inspired and sustained their creative output at different stages during their careers. All three were fascinated with new technologies that evolved during their lifetimes, including photography, film, mechanisation and mass production. All three lampooned the pretensions of high art, employing humour, eroticism and word play to great effect."--Back cover.

Anarchism and Workers' Self-management in Revolutionary Spain
EUNED

This study of the hidden side of music and its subtle effects is one of the most detailed books ever written on the subject. *Amadis of Gaul* Scholastic Inc. (Jazz Instruction). A one-of-a-kind book encompassing a wide scope of jazz topics, for beginners and pros of any instrument. A three-pronged approach was envisioned with the creation of this comprehensive resource: as an encyclopedia for ready reference, as a thorough methodology for the student, and as a workbook for the classroom, complete with ample exercises and conceptual discussion. Includes the

basics of intervals, jazz harmony, scales and modes, ii-V-I cadences. For harmony, it covers: harmonic analysis, piano voicings and voice leading; modulations and modal interchange, and reharmonization. For performance, it takes players through: jazz piano comping, jazz tune forms, arranging techniques, improvisation, traditional jazz fundamentals, practice techniques, and much more!

Playing the Changes on the Jazz

Metaphor Cambridge University Press
 Legendary rock 'n' roll mogul Bob Keane, president of Del-Fi Records, tells a story within a story, dealing not only with the West Coast record scene of the '50s and '60s, but also with his life journey as a man in search of his dream.

Goosebumps now on Disney+! Greg thinks there is something wrong with the old camera he found. The photos keep turning out . . . different. When Greg takes a picture of his father's brand-new car, it's wrecked in the photo. And then his dad crashes the car. It's like the camera can tell the future--or worse. Maybe it makes the

future! Who is going to take the fall next for the evil camera? Now with all-new bonus material!

The Secret Power of Music U of Nebraska Press

Learn to channel improvisational impulses into great solos with this amazing book & CD by outstanding jazz performer and educator, Mark Dziuba. Topics are thoroughly explained and organized into three main categories: instruction in the harmonic and melodic structures of jazz, discussions of practical application, and conceptual issues. Complex subjects are taught with an engaging and friendly style, so things like melodic and rhythmic motifs, phrasing, development, guide tones, chromaticism and functional harmony are easy and enjoyable to learn. This is a must-have book for all jazz guitarists that will be used for years to come. 144 pages.

An Empty House UNM Press

With the growth of interest in folklore, it becomes increasingly evident that the presentation of a collection needs some rationale more than the fact that traditional materials have been collected and properly annotated. Much has been gathered and is now accessible through

journals, archives, and lists. If a corpus of lore is not presented in some way, which bears new light on the process of word-of-mouth transmission, on traditional forms or expressions, or on the group among whom the lore was encountered, there is little reason to present it to the public. This work represents an attempt to present a body of folklore collected among one small group of Black Americans in a neighborhood in South Philadelphia. The author's approach toward collection and presentation has been intensive. He has tried to collect "in depth," and to recreate in his presentation the social background in which the lore was found, and to relate the lore with the life and the values of the group. Abraham's work is a departure from any past methods of analyzing folklore, and therefore a description of the author's point of view and his method will be given first. The majority of this work was written before his methodology was actually formulated. However throughout the project the object was to illuminate as fully as possible the lore of one small group of African Americans from urban Philadelphia. The methodology, which developed, did so because of this

objective more than anything else. Though the formulation of this theory may seem *ex post facto*, it is included because it clarified much during the rewritings of this book, and more importantly, because it will clarify many matters for the lay reader and for the professional folklorist.

N Mel Bay Publications

A story of contemporary Chile by one of its most prominent novelists, *An Empty House* depicts the dissolution of an upper-middle-class family against a chilling background of exile, return, and discovery. The stark and moving narrative suggests the enormity of the horrors perpetrated in Chile over the last decades, horrors that resonate through the culture to this day. Cecilia and Manuel accept her father's gift of a house, in hope of repairing their unraveling marriage along with the badly scarred building. Instead, the couple's efforts expose the horrifying truth about the building and reveal the subtle strands of complicity, responsibility, and indifference that bind them to each other, their country, and its dark past. With its deftly drawn characters, play of ideas, and vivid dialogue, *An Empty House* gives English-speaking readers a memorable

portrait of Chile today: honest, brutally realistic, but with a redemptive touch of lyricism and hope.

Social Radicalism and the Arts, Western Europe Princeton University Press

Your friends, your family, your neighbors--and quite possibly even your church--are wondering: Is America at the threshold of a glorious rebirth into planetary enlightenment, peace, and brotherhood? Or have we, as forward-thinking Americans in our search for higher levels of human potential, opened a spiritual Pandora's box? Due to the occult philosophies embraced and advanced by Oprah, Dr. Oz, and countless others, Americans are rapidly awakening to what is being hailed as a paradigm shift in global consciousness. Whatever you believe, and why, one thing is certain: Today's world is the scene of a strange and growing paradox that seems to mark an important transformation in the history of mankind. For even as scientific and technological advancement is accelerating at an exponential rate, we are witnessing the greatest explosion of occultism of all time. The question is, Who is right? Is there really a threat to the American

culture? And, if so, what will awaken us to the truth that sets humanity free from spiritual deception and dangerous delusions--which appear to enlighten but actually lead to enslavement? Originally written as a tool to educate and inform nonbelievers of the dangers of the New Age movement, this timely reprint of Dave Hunt's classic 1988 work will astound you all over again with its groundbreaking revelations and prophetic implications. You'll not only want to add this to your "Dave Hunt Classic" library but also pass it along to those who may be mired in the New Spirituality of today or those loved ones you wish to protect from the prowling about of our spiritual adversary.

Jazzology University Press of Florida
Playing the Changes on the Jazz Metaphor proposes an expanded view of the jazz metaphor in a broadened perspective that embraces a wide range of possibilities in organizational, management, and marketing-related themes. This monograph presents a new Typology of Jazz Musicians based on different kinds of artistic offerings. This typology will combine three key distinctions or dimensions to construct a twelve-fold

classification that - when extended to the sphere of organizational behavior and business strategy as a Typology of Management and Marketing Styles - will shed light on different ways in which the jazz metaphor relates to organizational design, business practice, management skills, and marketing opportunities. In order to describe these typologies, the author examines important aspects of a first-level jazz metaphor as it relates to organizational issues involved in shaping the jazz improvisation into a form of collective collaboration. This is followed by attention to a second-level linguistic metaphor based on viewing jazz as a kind of language at the foundation for a collaborative conversation.

The End of Early Music Tor Books

An Organ solo composed by Tomas de Santa Maria.

Deep Down in the Jungle... Courier Corporation

"Jorge Comensal's *The Mutations* oscillates masterfully between comedy and tragedy, gathering up in its pages a stupendous panoply of characters before whom the reader is never sure whether to smile in sympathy or pity."—Fernando Aramburu,

author of *Homeland* Ramón Martínez is a militant atheist, successful lawyer, and conventional family man. But all of that changes when cancer of the tongue deprives him of the source of his power and livelihood: speech. *The Mutations*, by Jorge Comensal, is a comedy tracing the metastasis of Ramón's cancer through his body and in the lives of his family members, colleagues, and doctors, dissecting the experience of illness and mapping the relationships both strengthened and frayed by its wake. Mateo and Paulina, his teenage children, struggle with the temptations of masturbation and binge eating, respectively. Ramón's melancholic oncologist is haunted by the memory of a young patient whom he was unable to save. His selfish pathologist believes Ramón's tumor holds the key to a major scientific breakthrough. And then there's Elodia, Ramón's pious maid, who brings him a foulmouthed parrot as a birthday gift. This lewd bird becomes Ramón's companion, confidant, and unlikely double. Paying homage to the works of forebears such as Sontag, Didion, Flaubert, and Tolstoy, and filled with a rough-hewn

poetry of regret, rage, and finally resignation, *The Mutations* offers a profound but funny cross section of modern Mexican life, as well as a bold treatment of an unspeakable yet universal reality

The Mayos, an indigenous people of

northwestern Mexico, live in small towns

spread over southern Sonora and northern Sinaloa, lands of remarkable biological diversity. Traditional Mayo knowledge is quickly being lost as this culture becomes absorbed into modern Mexico. Moreover, as big agriculture spreads into the region, the natural biodiversity of these lands is also rapidly disappearing. This engaging and accessible ethnobotany, based on

hundreds of interviews with the Mayos and illustrated with the authors' strikingly beautiful photographs, helps preserve our knowledge of both an indigenous culture and an endangered environment. This book contains a comprehensive description of northwest Mexico's tropical deciduous forests and thornscrub on the traditional Mayo lands reaching from the Sea of Cortés to the foothills of the Sierra

Madre. The first half of the book is a highly readable account of the climate, geology, and vegetation of the region. The authors also provide a valuable history of the people, their language, culture, festival traditions, and plant use. The second half of the book is an annotated list of plants presenting the authors' detailed findings on plant use in Mayo culture.
