Once Upon a Marigold Crown

Grade 9 Up-Johnson begins this exceptional novel in a lightweight fashion but quickly segues into more serious issues that affect the three young women who make up the Bermudez Triangle. It is the summer before their senior year in Saratoga Springs, NY. At first, organized, serious Nina has trouble adjusting to her leadership workshop at Stanford University. Although she desperately misses Avery and Mel, who are waitresses at a restaurant back home, she quickly falls head over heels for eco-warrior Steve, who has grown up in a commune on the West Coast—so different from Nina's secure middle-class experience. When she returns to New York, she immediately senses that Mel and Avery are keeping secrets and soon discovers that they have become lovers. Rocked to the core, Nina wishes them happiness, but feels excluded and lonely, especially as her long-distance relationship begins to deteriorate. As is typical for teens, the girls obsess ad nauseam over their romantic relationships. Yet this narrow focus lends authenticity to the narrative, and readers become drawn into the characters' lives as they stumble toward adulthood, fall in and out of love, enlarge their circle of friends, and rethink their values. *The Bermudez Triangle* Month9Books, LLC.

Hyperbole and a Half Simon and Schuster

The newest Sarah's Scribbles collection from New York Times bestselling author and Goodreads Choice award winner Sarah Andersen. The fourth book in the enormously popular graphic novel series, the latest collection of Sarah's Scribbles comics

explores the evils of procrastination, the trials of the creative process, the cuteness of kittens, and the beauty of not caring about your appearance as much as you did when you were younger. When it comes to humorous illustrations of the awkwardness and hilarity of millennial life, Sarah's Scribbles is without peer.

Satire, etc. [Edited by G. D. Poggiali.] Turtleback

A boy who lives every day twice uses his ability to bring down bullies at his new school in Mike Thayer's humor-filled middle grade novel, *The Double Life of Danny Day*. My name is Danny Day, and I live every day twice. The first time, it's a "discard day." It's kind of like a practice run. At the end of the day, I go to bed, wake up, and poof everything gets reset, everything except my memory, that is. The second time, everything is normal, just like it is for everyone else. That's when everything counts and my actions stick. As you could probably guess, "Sticky Day" Danny is very different from "Discard Day" Danny. When Danny's family moves across the country, he suddenly has to use his ability for more than just slacking off and playing video games. Now he's making new friends, fending off jerks, exposing a ring of cheaters in the lunchtime video game tournament, and taking down bullies one day at a time ... or is it two days at a time?

A Poem for Peter Penguin

Meat eating is often a contentious subject, whether considering the technical, ethical, environmental, political, or health-related aspects of production and consumption. This book is a wide-ranging and interdisciplinary examination and critique of meat consumption by humans, throughout their evolution and around the world. Setting the scene with a chapter on meat's role in human evolution and its growing influence during the development of agricultural practices, the book goes on to examine modern production systems, their efficiencies, outputs, and impacts. The major global trends of meat consumption are described in order to find out what part its consumption plays in changing modern diets in countries around the world. The heart of the book addresses the consequences of the "massive carnivory" of western diets, looking at the inefficiencies of production and at the huge impacts on land, water, and the atmosphere. Health impacts are also covered, both positive and negative. In conclusion, the author looks forward at his vision of "rational meat eating", where environmental and health impacts are reduced, animals are treated more humanely, and alternative sources of protein make a higher contribution. *Should We Eat Meat?* is not an ideological tract for or against carnivorousness but rather a careful evaluation of meat's roles in human diets and the environmental and health consequences of its production and consumption. It will be of interest to a wide readership including professionals and academics in food and agricultural production, human health and nutrition, environmental science, and

regulatory and policy making bodies around the world.

Too many discipleship books are written for clean, perfect people who know all the right Sunday school answers. The Imperfect Disciple is for the rest of us--people who screw up, people who are weary, people who are wondering if it's safe to say what they're really thinking. For the believer who is tired of quasi-spiritual lifehacks being passed off as true, down-and-dirty discipleship, here is a discipleship book that isn't afraid to be honest about the mess we call real life. With incisive wit, warm humor, and moving stories, Jared Wilson shows readers how the gospel works in them and in their lives when - they can't get their act together - they think God is giving them the silent treatment - they think church would be better without all the people - they're not happy with the person in the mirror - and much more Wilson frees readers from the self-doubt and even the misplaced self-confidence they may feel as they walk with Jesus down the often difficult road of life. The result is a faith that weathers storms, lifts burdens, and goes forth to make more imperfect disciples.

The Night of the Gun Simon and Schuster

#1 New York Times Bestseller "Funny and smart as hell" (Bill Gates), Allie Brosh's *Hyperbole and a Half* showcases her unique voice, leaping wit, and her ability to capture complex emotions with deceptively simple illustrations. FROM THE PUBLISHER: Every time Allie Brosh posts something new on her hugely popular blog *Hyperbole and a Half* the internet rejoices. This full-color, beautifully illustrated edition features more than fifty percent new content, with ten never-before-seen essays and one wholly revised and expanded piece as well as classics from the website like, "The God of Cake," "Dogs Don't Understand Basic Concepts Like Moving," and her astonishing, "Adventures in Depression," and "Depression Part Two," which have been hailed as some of the most insightful meditations on the disease ever written. Brosh's debut marks the launch of a major new American humorist who will surely make even the biggest scrooge or snob laugh. We dare you not to. FROM THE AUTHOR: This is a book I wrote. Because I wrote it, I had to figure out what to put on the back cover to explain what it is. I tried to write a long, third-person summary that would imply how great the book is and also sound vaguely authoritative—like maybe someone who isn't me wrote it—but I soon discovered that I'm not sneaky enough to pull

it off convincingly. So I decided to just make a list of things that are in the book: Pictures Words Stories about things that happened to me Stories about things that happened to other people because of me Eight billion dollars* Stories about dogs The secret to eternal happiness* *These are lies. Perhaps I have underestimated my sneakiness!

GOODREADS CHOICE AWARD WINNER FOR GRAPHIC NOVELS AND COMICS! These casually drawn, perfectly on-point comics by the hugely popular young artist Sarah Andersen are for the rest of us. They document the wasting of entire beautiful weekends on the internet, the unbearable agony of holding hands on the street with a gorgeous guy, and dreaming all day of getting home and back into pajamas. In other words, the horrors and awkwardnesses of young modern life. Oh and they are totally not autobiographical. At all. *Adulthood Is a Myth* presents many fan favorites plus dozens of all-new comics exclusive to this book. Sarah's frankness on personal issues like body image, self-consciousness, introversion, relationships, and the frequency of bra-washing makes her comics highly relatable and deeply hilarious, showcasing how she became one of the most influential voices in web cartoonists.

Modern living isn't easy. It often seems to require some know-how our parents didn't pass on, or a special tool. Happily, Kaufmann Mercantile has both, and in this comprehensive field guide, they share their expertise on a huge range of topics, from frying an egg, tying a tie, or brewing coffee to things the inner utilitarian in all of us aspires to do, like splitting wood, building a fire, growing our own food, or making our own soap. Fifty how-tos are organized into five sections: Kitchen, Outdoors, Home, Garden, and Grooming. Written in clear detail and extensively illustrated, *The Kaufmann Mercantile Guide* teaches us what we ought to know how to do, as well as what we'd like to. Supplemental sidebars feature the best tool for the job, whether a dibber for planting, the best rawhide-and-ash snowshoes, or flammable smoking bags for making authentic BBQ. This book is a must-have reference tool for living well in the twenty-first century.

John Wiley & Sons

David Carr was an addict for more than twenty years -- first dope, then coke, then finally crack -- before the prospect of losing his newborn twins made him sober up in a bid to win custody from their crack-dealer mother. Once recovered, he found that his recollection of his 'lost' years differed -- sometimes radically -- from that of his family and friends. The night, for example, his best friend pulled a gun on him. 'No,' said the friend (to David's horror, as a lifelong pacifist), 'It was you that had the gun.' Using all his skills as an investigative reporter, he set out to research his own life, interviewing everyone from his parents and his ex-partners to the policemen who arrested him, the doctors who treated him and the lawyers who fought to prove he was fit to have custody of his kids. Unflinchingly honest and beautifully written, the result is both a shocking account of the depths of addiction and a fascinating examination of how -- and why -- our memories deceive us. As David says, we remember the stories we can live with, not the ones that happened.
