Year Round Fun & Educational Projects You & Your Kids Can Do Together At Home Gryphon House, Inc. The 22-book American Milestone series is featured as "Retailers Recommended Fabulous Products" in the August 2012 edition of Educational Dealer magazine. Just imagine-riding for six months in a wagon, choking on dust, sweating in searing heat, crossing raging rivers, fighting off disease and Indians-the life of a pioneer on the Oregon Trail. Beginning in the 1840s, thousands of Americans took the risk... and lumbered across this seemingly endless trail to a life of promise in the west. This book includes: □ What's in That Wagon? □ Manifest Destiny □ Perils Along the Trail □ Into the Unknown □ Who

Were Those Pioneers □ Bountiful Buffalo □ Hands-on Activities □ Reproducible Activities □ Glossary □ Fascinating Facts □ Timeline □ And Lots More! Students can learn much from the compelling story of the overland pioneers who let nothing, and no one - including daunting Mother Nature, a vast, untamed wilderness, and hostilities of all kinds - stand in the way of their dreams and determination. Climb on up in your wagon and "bump along" in this fun, factual and "Wow-that's amazing" book! Readiness Year, Grades PK - K First Avenue Editions

Offers the writings and recollections of thirteen Anglo women who traveled to the American West in the 1840s, taken from their letters and diaries, and reflecting the political, social, and economic forces of the era.

Industrial-arts Magazine Hachette+ORM Practical and engaging, Merryl Goldberg's popular guide to integrating the arts throughout the K-12 curriculum blends contemporary theory with classroom practice. Beyond teaching about the arts as a subject in and of itself, the text explains how teachers may integrate the arts—literary, media, visual, and performing—throughout subject area curriculum and provides a multitude of strategies and examples. Promoting ways to develop children's creativity and critical thinking while also developing communications skills and fostering collaborative opportunities, it looks at assessment and the arts, engaging English Language Learners, and using the arts to teach academic skills. This text is ideal as a primer on arts integration and a foundational support for teaching, learning, and assessment, especially within the context of multicultural and multilingual classrooms. In-depth discussions of the role of arts integration in meeting the goals of Title I programs, including academic achievement, student engagement, school climate and parental involvement, are woven throughout the text, as is the role of the arts in meeting state and federal student achievement standards. Changes in the 5th Edition: New chapter on arts as text, arts integration, and arts education and their place within the context of teaching and learning in multiple subject classrooms in multicultural and multilingual settings; Title I and arts integration (focus on student academic achievement, student engagement, school climate, and parental involvement—the 4 cornerstones of Title I);

Attention to the National Core Arts Standards as well as their relationship to other standardized tests and arts integration; more (and more recent) research-based studies integrated throughout; Examples of how to plan arts integrated lessons (using backward design) along with more examples from classrooms'; Updated references, examples, and lesson plans/units; Companion Website:

If You Traveled West in a Covered Wagon Gryphon House, Inc.

What is the role of water in the conversion of former industrial areas? How is water used in engaging the public to experience these sites both as physical and cultural places? Can ecological design foster the coexistence of industry and environment? The book addresses these core questions by examining the impact of the former Oregonian industry (1830-1940) on the Willamette River landscape and discussing how projects of transformation interpret

the triangular interplay among industry, landscape and water. This book is a source of suggestions and ideas for scholars, students and professionals in architecture, landscape architecture, planning and their related fields who want to manage the urban landscapes successfully.
