Excerpt from Penal Code of the United States: Report of the Commission to Revise and Codify the Criminal and Penal Laws of the United States Sir: The commission to revise and codify the criminal and penal laws of the United States respectfully report as follows: The act of Congress constituting this commission provided that "The President, with the advice and consent of the Senate, shall appoint three commissioners whose

duty it shall be, under the direction of the Attorney-General, to revise and codify the criminal and penal laws of the United States. They shall proceed with their work as rapidly as may be consistent with thoroughness and shall report the result of their labors to the Attorney-General when completed, to be by him laid before Congress, and shall make such other reports during the progress of their work as they shall see fit to the Attorney-General, to be laid before Congress at his discretion. Their report shall be so made as to indicate any proposed change in the substance of existing law, and shall be accompanied by notes which shall briefly and clearly state the reasons for any

proposed change." It may be assumed that the purpose of Congress was to provide a more comprehensive system of laws for the punishment of offenses against the United States than is found in existing statutes. The original crimes act was passed at the second session of the First Congress and received the signature of President Washington on the 30th of April, 1790. It consisted of 33 sections, and not all of these related to the definition and punishment of crimes. Mr. Justice Story recognized the inadequacy of this statute and drafted a bill which became the act of March 3, 1825. These are the only acts of Congress which partake of the character of criminal or

penal codes. The rest of the legislation respecting crimes consists of acts passed from time to time as experience disclosed the insufficiency of existing laws to enable the courts to deal with particular offenses, or as the growing operations of the Government created a necessity for additional penal enactments. Title LXX of the Revised Statutes of 1874, entitled "Crimes," consists of 228 sections. Referring to the Criminal Code of Alabama, for example, it is found to contain 1,332 sections of which 762 relate to procedure, while 570 are devoted to the definition and punishment of crimes. In this second edition of his well-received introductory overview of the Model Penal Code, Markus Dubber retains the book's original aim to serve as an accessible companion to the Code. Professor Dubber unlocks the Model Penal Code's potential as a key to the study of American criminal law for law students and teachers, and for anyone else with an interest in understanding the basic contours of

American criminal law. While the book's general goal and basic approach remain unchanged, its content has been thoroughly revised. Citations to primary and secondary materials have been updated and supplemented where appropriate. The American Law Institute's ongoing revision of the Code's sentencing and sexual offense provisions has been taken into account. Also, the comparative analysis found sporadically throughout the original edition has been expanded in places to provide additional context. *Criminal Law: Crimes and penalties with special criminal laws* Legare Street Press This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it.
