This groundbreaking study explores the later lives and late-life writings of more than two dozen British women authors active during the long eighteenth century. Drawing on biographical materials, literary texts, and reception histories, Devoney Looser finds that far from fading into moribund old age, female literary greats such as Anna Letitia Barbauld, Frances Burney, Maria Edgeworth, Catharine Macaulay, Hester Lynch Piozzi, and Jane Porter toiled for decades after they achieved acclaim -- despite seemingly concerted attempts by literary gatekeepers to marginalize their later contributions. Though these remarkable women wrote and published well into old age, Looser sees in their late careers the necessity of choosing among several different paths. These included receding into the background as authors of "classics," adapting to grandmotherly standards of behavior, attempting to reshape masculinized conceptions of aged wisdom, or trying to create entirely new categories for older women writers. In assessing how these writers affected and were affected by the culture in which they lived, and in examining their varied reactions to the prospect of aging, Looser constructs careful portraits of each of her Subjects and explains why many turned toward retrospection in their later works. In illuminating the powerful and often poorly recognized legacy of the British women writers who spurred a marketplace revolution in their earlier years only to find unanticipated barriers to acceptance in later life, Looser opens up new scholarly territory in the burgeoning field of feminist age studies.

Family photography, a ubiquitous domestic tradition in the developed world, is now more popular than ever thanks to the development of digital photography. Once uploaded to PCs and other gadgets, photographs may be stored, deleted, put in albums, sent to relatives and friends, retouched, or put on display. Moreover, in recent years family photographs are more frequently appearing in public media: on posters, in newspapers and on the Internet, particularly in the wake of disasters like

9/11, and in cases of missing children. Here, case study material drawn from the UK offers a deeper understanding of both domestic family photographs and their public display. Recent work in material culture studies, geography, and anthropology is used to approach photographs as objects embedded in social practices, which produce specific social positions, relations and effects. Also explored are the complex economies of gifting and exchange amongst families, and the rich geographies of domestic and public spaces into which family photography offers an insight.

Scholars have long recognized that ethnographic method is bound up with the construction of theory in ways that are difficult to teach. The reason, Allaine Cerwonka and Liisa H. Malkki argue, is that ethnographic theorization is essentially improvisatory in nature, conducted in real time and in necessarily unpredictable social situations. In a unique account of, and critical reflection on, the process of theoretical improvisation in ethnographic research, they demonstrate how both objects of analysis, and our ways of knowing and explaining them, are created and discovered in the give and take of real life, in all its unpredictability and immediacy. *Improvising Theory* centers on the year-long correspondence between Cerwonka, then a graduate student in political science conducting research in Australia, and her anthropologist mentor, Malkki. Through regular e-mail exchanges, Malkki attempted to teach Cerwonka, then new to the discipline, the basic tools and subtle intuition needed for anthropological fieldwork. The result is a strikingly original dissection of the processual ethics and politics of method in ethnography.

Domestic violence is a major public health concern, affecting millions worldwide. It is underreported, often devastating and sometimes ends in murder. In *Toxic Couples: The Psychology of Domestic Violence*, Anna Motz integrates psychological and criminological data with clinical illustrations and discussion of current high-profile cases. She examines the complex manifestations and multiple causes of intimate partner violence. Motz disentangles the roles played by those involved and examines the addictive nature of these damaging partnerships. The book describes various forms of abuse, including physical, sexual and emotional, and analyses how intimate partner violence can escalate to murder. She explores important factors including: the role of addiction; homelessness and vulnerability; the intergenerational transmission of abuse; sadomasochistic relationships; honour-based violence. The book emphasizes the significance of female- as well as male-perpetrated violence and outlines the powerful impact on the children of abusive parents, extending the clinical awareness of professionals working with those affected. *Toxic Couples: The Psychology of Domestic Violence* is ideal

for clinicians working with the victims and perpetrators of intimate partner violence, for students of psychology, gender studies and social care courses and for anyone interested in the psychological forces behind violence in relationships.]

The first holistic reappraisal of the significance of the decadent movement, from the 1900s through the 1930s. *Decadence in the Age of Modernism* begins where the history of the decadent movement all too often ends: in 1895. It argues that the decadent principles and aesthetics of Oscar Wilde, Walter Pater, Algernon Swinburne, and others

continued to exert a compelling legacy on the next generation of writers, from high modernists and late decadents to writers of the Harlem Renaissance. Writers associated with this decadent counterculture were consciously celebrated but more often blushing denied, even as they exerted a compelling influence on the early twentieth century. Offering a multifaceted critical revision of how modernism evolved out of, and coexisted with, the decadent movement, the essays in this collection reveal how decadent principles infused twentieth-century prose, poetry, drama, and newspapers. In particular, this book demonstrates the potent impact of decadence on the evolution of queer identity and self-fashioning in the early twentieth century. In close readings of an eclectic range of works by Virginia Woolf, James Joyce, and D. H. Lawrence to Ronald Firbank, Bruce Nugent, and Carl Van Vechten, these essays grapple with a range of related issues, including individualism, the end of Empire, the politics of camp, experimentalism, and the critique of modernity.
