WERE WRITTEN IN  
ENGLISH-

you always wanted to  
learn how to speak the  
Bahraini Arabic Dialect  
but simply didn't have the  
time? Well if so, then, look  
no further. You can hold in  
your hands one of the  
most advanced and  
revolutionary method that  
was ever designed for  
quickly becoming  
conversational in a  
language. In creating this  
time-saving program,  
master linguist Yatir  
Nitzany spent years  
examining the twenty-

seven most common  
languages in the world  
and distilling from them  
the three hundred and  
fifty words that are most  
likely to be used in real  
conversations. These  
three hundred and fifty  
words were chosen in  
such a way that they were  
structurally interrelated  
and, when combined,  
form sentences. Through  
various other discoveries  
about how real  
conversations work--  
discoveries that are  
detailed further in this  
book--Nitzany created the  
necessary tools for linking

these words together in a specific way so that you may become rapidly and almost effortlessly conversant--now. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Arabic, this book is not for you. However, if you need to actually hold a conversation while on a trip to Bahrain, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have

been looking for. This book is recommended for those who already have some prior knowledge of the pronunciation of Arabic accents (such as the Arabic accents: ayin, ghayn, ha, and khaf). For those of you who do not, this book does indeed provide some great, in-depth techniques on the pronunciation and recognition of these accents, that you will encounter throughout the program. These techniques have proven extremely beneficial for beginner students who

were previously unfamiliar with these accent pronunciations. But keep in mind this isn't a pronunciation book! This method is designed for fluency in a foreign language, while communicating in the first person present tense. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. Therefore, unlike other courses, all words in this program are taught in English transliteration,

without having to learn the complex alphabet. More formalized training in grammar rules, etc., can come later. This is one of the several, in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental,

beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With Conversational Arabic Quick and Easy, all you need are forty-six pages. Learn Bahraini Arabic today and get started now!

Have you always wanted to learn how to speak Arabic but simply didn't have the time? Look no further. You hold in your hands the most revolutionary method that was ever designed for QUICKLY becoming conversational in a language. In creating this time saving program, master linguist Yatir Nitzany spent nearly three years examining the 27 most common languages

in the world and distilling from them the 350 words that are most likely to be used in real conversations. Through various other discoveries about how real conversations work, that are detailed further in this book, Nitzany created the necessary tools for linking these words together in a specific way to become fluent NOW. If your desire is to learn complicated grammatical rules, or to speak Shakespearean Arabic, this book is NOT for you. However, if you need to actually hold a

conversation whilst on a trip to an Arab speaking country, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This book is recommended for those who already have prior knowledge in pronunciation of Arabic accents (such as the Arabic accents: "ayin," "ghayn," "ha," and "khaf"). For those of you that DO NOT, this book does indeed provide some

great, in depth techniques (page #15) as to the pronunciation and recognition of these accents that you will encounter throughout the program. Also in Arabic the endings of certain words change slightly depending on different cases, however this program will NOT teach you these skills. The purpose of this book is for conversational use ONLY, in regards to grammar, conjugation, and pronunciation you are on your own! This method is designed for fluency in a

foreign language, while communicating in the first person. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. Therefore, unlike other courses, all words in this program are taught in English transliteration, without having to learn a complex foreign alphabet. More formalized training in grammar rules, learning to write in a foreign alphabet, etc. can all come later. The first in a

series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses it's unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With "Conversational Arabic Quick and Easy" all

you need is 45 pages. This book has been proven useful for all level speakers of the Arabic language. Learn Arabic today, not tomorrow, and get started NOW! Note and DISCLAIMER from the Author: I wish to stress this program is by NO means, shape, NOR form a phrase book!! The sole purpose of this book is to give you a fundamental platform to enable you to connect certain words to become conversational. It is a myth that certain people are born with the gifted talent to learn a

language and this book disproves that myth. With this method anyone can learn a foreign language as long as you follow these EXPLICIT directions: Memorize the vocabulary on each page (starting page #16), follow it by using a note-card to cover the words you have just memorized and test yourself. Please do NOT skip pages, NOR start from the middle of the book. Then read the sentences below which are created from the vocabulary bank which you just mastered. Once

fully memorized, then give yourself the green light to proceed to the next page. IF YOU PROCEED TO THE FOLLOWING PAGE WITHOUT MASTERING THE PREVIOUS, you are guaranteed to fail and to gain nothing from this book. However if you follow the prescribed steps you will realize just how effective this method is.

pronunciation and recognition of these accents, that you will encounter throughout the program. These techniques have proven extremely beneficial for beginner students who were previously unfamiliar with these accent pronunciations. But keep in mind this isn't a pronunciation book! Lebanese Arabic encompasses three slightly different dialects, the dialects of the north, south, and center of the country (Beirut). The one in this book is the Beirut

dialect. In the Lebanese dialect, verb conjugation is irregular, and this book will not teach you those skills since this is not a grammar book. In most languages, including Classical Arabic, a conjugated verb is always followed by an infinitive verb, but this is not the case in the Lebanese colloquial dialect since every verb in the sentence must be conjugated. Keep in mind that Lebanese Arabic is not an official language, but rather is a colloquial dialect. The purpose of

my method is solely to give you the tools to create your own sentences in order to become conversational, while in regards to grammar, pronunciation, etc., you are on your own! Note from the author: This book is very similar to my other title, "Conversational Arabic

Quick and Easy: Palestinian Dialect," so I recommend you either purchase one or the other, but not both. THIS BOOK DOESN'T CONTAIN ANY ARABIC LETTERS! ALL ARABIC WORDS IN THIS BOOK WERE WRITTEN IN ENGLISH-  
TRANSLITERATION! The State of Israel has two official languages, Hebrew and Arabic. Israel's Arab minority consists of roughly 21 percent of its population, most of whom are fluent in the Hebrew language; however, all speak Arabic as well. The

spoken Arabic of Israel is considered a Palestinian dialect, despite a few slight variations. Have you always wanted to learn how to speak the Arabic dialect of the State of Israel but simply didn't have the time? Well if so, then, look no further. You can hold in your hands one of the most advanced and revolutionary method that was ever designed for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years

examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations work--discoveries that are detailed further in this book--Nitzany created the

necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversant--now. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Arabic, this book is not for you. However, if you need to actually hold a conversation while on a trip to the Holy Land, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as

possible, then the Nitzany Method is what you have been looking for. This book is recommended for those who already have some prior knowledge of the pronunciation of Arabic accents (such as the Arabic accents: ayin, ghayn, ha, and khaf). For those of you who do not, this book does indeed provide some great, in-depth techniques on the pronunciation and recognition of these accents, that you will encounter throughout the program. These techniques have proven

extremely beneficial for beginner students who were previously unfamiliar with these accent pronunciations. But keep in mind this isn't a pronunciation book. This method is designed for fluency in a foreign language, while communicating in the first person present tense. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. Therefore, unlike other courses, all words in this

program are taught in English transliteration, without having to learn the complex alphabet. More formalized training in grammar rules, etc., can come later. This is one of the several, in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more
