### LAMBERT ALEXZANDER

*Soviet Impressionist Painting* Weidenfeld & Nicolson

Well illustrated with nearly 300 line drawings, maps and photographs, *Ancient Cities* surveys the cities of the ancient Near East, Egypt, and the Greek and Roman worlds from an archaeological perspective, and in their cultural and historical contexts. Covering a huge area geographically and chronologically, it brings to life the physical world of ancient city dwellers by concentrating on evidence recovered by archaeological excavations from the Mediterranean basin and south-west Asia. Examining both pre-Classical and Classical periods, this is an excellent introductory textbook for students of classical studies and archaeology alike.

*Ottoman Arcadia* Disney Electronic Content

After the glitter settles... Tina Sharma and Dev Arjun's whirlwind romance made them Bollywood royalty, but beneath the glitz and glamour there's trouble—Tina is about to demand a divorce! But

Dev won't give in without a fight, so he proposes a deal: play the dutiful wife for two months, then he'll let her go. Tina is furious! He clearly regrets their shotgun wedding, so why stay together a day longer? But it isn't the days she should be worried about.... As Dev turns up the heat, Tina may just find herself wishing for a lifetime of pleasure with her devilishly delicious husband!

*Tourism and Intangible Cultural Heritage* Walter de Gruyter GmbH & Co KG

This book presents a collection of papers written by educators and researchers. The topics include the analysis of social science textbooks, the teacher image in newspapers, the relationship between self-efficacy and cognitive level and the role of organizational silence on the loneliness of academics in work life.

*Constantinople and its Hinterland* Springer Nature

"The present UNWTO study provides the first comprehensive baseline research of the Organization on the links between tourism and intangible cultural heritage (ICH). Besides exploring major challenges, risks and opportunities for tourism development related to ICH, it further discusses practical steps for the elaboration, management and marketing of intangible cultural heritage-

based tourism products."--Foreword.

This eighth edition of David Chappell's bestselling guide to the most popular form of construction contracts has been completely revised to take into account the new contracts which have been introduced since May 2005. These include: JCT Standard Building Contract (SBC), JCT Intermediate Building Contract (IC) and 'with contractor's design' (ICD), JCT Minor Works Building Contract (MW) and 'with contractor's design' (MWD), and JCT Design and Build Contract (DB) which have replaced the old JCT 98, IFC 98, MW 98, and WCD 98 contracts. Each contract has been restructured and all the clause numbers have changed together with some terminology. Virtually all the clauses have been reworded and updated in line with recent case law. Chappell avoids legal jargon but writes with authority and precision. Architects, quantity surveyors, contractors and students of these

professions will find this a straightforward and practical reference tool arranged by topic.

Handbook of Materials Failure Analysis: With Case Studies from the Construction Industry provides a thorough understanding of the reasons materials fail in certain situations, covering important scenarios including material defects, mechanical failure due to various causes, and improper material selection and/or corrosive environment. The book begins with a general overview of materials failure analysis and its importance, and then logically proceeds from a discussion of the failure analysis process, types of failure analysis, and specific tools and techniques, to chapters on analysis of materials failure from various causes. Failure can occur for several reasons, including: materials defects-related failure, materials design-related failure, or corrosion-related failures. The suitability of the materials to work in a definite environment is an important issue. The results of these failures can be catastrophic in the worst case scenarios, causing loss of life. This important reference covers the most common types of materials failure, and provides possible solutions. Provides the most up-to-date and balanced coverage of failure analysis, combining foundational knowledge and current research on the latest developments and innovations in the field Offers an ideal accompaniment for those interested in materials forensic investigation, failure of materials, static failure analysis, dynamic failure analysis, and fatigue life prediction Presents compelling new case studies from key industries to demonstrate concepts and to assist users in avoiding costly errors that could result in catastrophic events

The Turkish Migration Conference 2016 is the fourth event in this series, we are proud to organise and host at the University of Vienna, Austria. Perhaps given the growing number of participants and variety in scope of research and debates included at the Conference, it is now an established quality venue fostering scholarship in Turkish Migration Studies. Over the last five years, we have seen over 1000 abstracts submitted to the conference and year on year the number of accepted presentations grew. This year, the conference accommodates over 350 presentations by hundreds of academics from all around the World. The Migration Conference attracting such a healthy number of academics is a good indicator of the success and means the conference serving its purpose and offer a good opportunity for scholarly exchange and networking. Main speakers include Jeffrey Cohen, Ibrahim Sirkeci, Philip Martin, Gudrun Biffl, Karen Phalet, Samim Akgönül, and Katharine Sarikakis.

Winter tourism has seen increased levels of investment in recent times, in an effort to reduce economic risk, address environmental concerns and adapt to the effects of global warming. New ski destinations are developing and merging with traditional ones to increase spatial distribution, while many established leading resorts are adapting their management models. Climate change adaptation processes are supported by the reduction of CO2 emissions and energy consumption in ski resorts. Current planning challenges include the increasing importance of scenic beauty, nature and sustainable development, as well as snow reliability, snow management and safety issues.

"'Ottoman Arcadia: The Hamidian Expedition to the land of Tribal Roots, 1886' showcases, for the

first time, a three-volume set of photographic albums that were prepared following a decree by Abdülhamid II and were eventually gifted to Otto von Bismarck, the chancellor of Germany. In 1886, Abdülhamid II commissioned more than a dozen photograph albums destined for the Yıldız Palace Library. They were the result of an imperial decree that sent a documentary commission of court officials and artists to the earliest Ottoman settlements. Soon thereafter, three of these spectacular albums were gifted by the sultan to Bismarck, in commemoration of the political rapprochement between the two empires at the end of the 19th century. These albums later made their way into the Ömer M. Koç Collection in 2017 and they are the focus of ANAMED's exhibition curated by Bahattin Öztuncay, Ahmet Ersoy, and Deniz Türker. Ottoman Arcadia: The Hamidian Expedition to the Land of Tribal Roots (1886) contextualizes the expedition as a remarkable instance where photography a new visual technology of the 19th century was merged with historical narratives to reconstruct dynastic myths and tribal memory. Exhibition: ANAMED, Koç University Research Center for Anatolian Civilizations, Istanbul, Turkey."--

Carl Edward Sagan's (1934-1996) one of the famous quotation was "Who are we? We find that we live on an insignificant planet of a humdrum star lost in a galaxy tucked away in some forgotten corner of a universe in which there are far more galaxies than people." From past to date, well-known molecules, enzymes, proteins, lipids and carbohydrates are studied in the pathogenesis of several diseases both as a diagnostic/prognostic biomarker and therapeutic agent. The underlying mechanism of unexplained diseases and failure of therapies are frequently studied with well-known biomarkers, but remain unclear in many cases. As Dr. Sagan said other keys are still waiting to be known in some forgotten corner of a body universe, we find strength to propose that one of them can be the growth factor with cytokine activity named "Midkine" This book summarizes the extensive up-to-date literature overview with the latest work of experts about midkine in a detailed format that conveys its role as both a pathologic factor and therapeutic agent.

The Ottoman Empire was one of the largest and longest-lasting empires in history—and one of the most culinarily inclined. In this powerful and complex concoction of politics, culture, and cuisine, the production and consumption of food reflected the lives of the empire's citizens from sultans to soldiers. Food bound people of different classes and backgrounds together, defining identity and serving symbolic functions in the social, religious, political, and military spheres. In Bountiful Empire, Priscilla Mary Işın examines the changing meanings of the Ottoman Empire's foodways as they evolved over more than five centuries. Işın begins with the essential ingredients of this fascinating history, examining the earlier culinary traditions in which Ottoman cuisine was rooted, such as those of the Central Asian Turks, Abbasids, Seljuks, and Byzantines. She goes on to explore the diverse aspects of this rich culinary culture, including etiquette, cooks, restaurants, military food, food laws, and food trade. Drawing on everything from archival documents to poetry and featuring more than one hundred delectable illustrations, this meticulously researched, beautiful volume offers fresh and lively insight into an empire and cuisine that until recent decades have been too narrowly viewed through orientalist spectacles.

Death Metal is among the most despised forms of violently themed entertainment. Many politicians, conservative groups and typical Americans attribute youth violence and the destruction of social values to such entertainment. The usual assumptions about the Death Metal scene and its fans have rarely been challenged. This book investigates the demographic trends, attitudes, philosophical beliefs, ethical systems, and behavioral patterns within the scene, seeking to situate death metal in the larger social order. The Death Metal community proves to be a useful microcosm for much of American subculture and lends insight into the psychological and social functions of many forbidden or illicit entertainment forms. The author's analysis, rich in interviews with rock stars, radio hosts, and average adolescent fans, provides a key to comprehending deviant tendencies in modern American culture.

The upsurge in interest in public spaces and public life over the past twenty five years has generated an impressive array of city plans, public space strategies, and designs. This book presents an overview of this development and provides a detailed description of architecturally interesting and inspiring public space strategies and projects from all over the world. Nine cities with notable public space strategies were selected for special review: Barcelona, Lyon, Strasbourg, Freiburg, and Copenhagen in Europe, Portland in North America, Curitiba and Cordoba in South America, and Melbourne in Australia. In addition, thirty nine international public space projects are presented and discussed. Drawings, plans and photographs illustrate city strategies and public space projects in detail.

The aim of this monograph, which has rich and evaluative annotations, is to contribute to a more comprehensive understanding of the issues in a major developing area of pedagogical lexicography. With this monograph researchers and students can have access to a set of 521 articles from a diverse array of publications, many in hard-to-find sources, that will prove valuable in reviewing the literature of the area. Because articles on language users and dictionary users are published in journals devoted to reading research, language acquisition, second language teaching, linguistics, and lexicography, most of the past research in the area has not shown critical awareness of this diffuse collection of research. The annotated bibliography found in this monograph supplies scholars in all the different fields of enquiry a critical guide to past and current work in pedagogical lexicography. Because this subfield of lexicography has developed in a variety of disciplines, it is difficult for researchers in any single discipline or sub-discipline to find relevant and important articles; this annotated bibliography not only provides a highly defined topical index based on a key-word analysis of the literature, but also annotations and commentary that provide the reader with a critical understanding of the important issues and debates in the development of the study of learners' dictionaries and dictionary users. The authors of this monograph have written the critical annotations in a manner that foregrounds the points of debate within the area which helps to define the concerns of the area.
