Of the 85 original temples-most constructed of hard river sandstone-about 22 are still reasonably well preserved. The temples are generally divided into three groups: Western, Eastern and Northern. The Eastern group mainly consisting of Jain temples. It is wrongly believed that Khajuraho temples are filled with erotic sculpture. Erotic scenes represent a relatively small part of the carvings, but sensuous eroticism prevails in all the sculptures.

Khajuraho Bharatiya Kala Prakashan

Illustrations: 101 colour plates and 125 b/w illustrations Description: The book offers a closer view of the divinities and their configurations, particularly in the major Hindu temples of Khajuraho. It concentrates on the iconic schemes and patheons of two magnificent temples, one a rare preserved shrine of Vaikuntha-Vishnu and the other dedicated to Siva. It highlights the important cult of the Yoginis and the syncretic role of Surya in Khajuraho's pantheon. In the process of viewing the temple as a whole and its images within a well-integrated scheme, several earlier non-specified images could be seen in their proper context and for the first time identified and interpreted. The images of planetary divinities on the podium around the Lakshmana temple, or the Sveta-dvipa scene (Back Cover) are some such new interpretations offered in the book. The book presents an account of the topography of this medieval sacred centre, its patrons, the Chandella rulers, and erudite court culture. The elite's love for double-entendre is revealed in the sculptural art as well as poetic stanzas of their inscriptions on temples. The language of puns and enigma (sandhya-bhasha helps us in understanding the significance of erotic sculptures which apparently are sensual figures but actually conceal a deeper symbolism.

The Religious Imagery of Khajuraho

- A privileged visual journey through one of the most famous Indian heritage sites Situated in the northern Indian state of Madhya Pradesh, Khajuraho is renowned as much for the elegance of its architecture as for the sensuality of its sculpture. Khajuraho has become one of the unmissable sights for any traveler to India, and owes its international reputation to the lavishness of its numerous Hindu shrines. Formerly an important political and religious center, it is thought to have

contained up to ninety-five temples, as the many ruins concealed under otherwise-anonymous hillocks scattered throughout the valley attest. Only twenty-five survive. The earliest mention of Khajuraho dates from the seventh century. After the collapse of the Candella kingdom, the site experienced almost four centuries of oblivion, and the once proud city-state turned into a sleepy village nestling in what had become an arid basin for several months of the year. British hunters rediscovered it quite by chance at the beginning of the nineteenth century. Since then, the area has undergone several phases of restoration, as befits one of the leading sites of the world's cultural heritage. The highly unusual nature of its temple depictions has given this area a somewhat 'scandalous' reputation, unleashing, over the years, interpretations of all kinds.
