The international sensation that illuminates the experiences women are supposed to hide—from addiction, anger, sexual assault, and infertility to joy, sensuality, and love. WINNER OF THE AN POST IRISH BOOK OF THE YEAR • “Emilie Pine’s voice is razor-sharp and raw; her story is utterly original yet as familiar as my own breath.”—Glennon Doyle, #1 New York Times bestselling author of *Love Warrior* In this dazzling debut, Emilie Pine speaks to the events that have marked her life—those emotional disruptions for which our society has no adequate language, at once bittersweet, clandestine, and ordinary. She writes with radical honesty on the unspeakable grief of infertility, on caring for an alcoholic parent, on taboos around female bodies and female pain, on sexual violence and violence against the self. This is the story of one woman, and of all women. Devastating, poignant, and wise—and joyful against the odds—Notes to Self is an unforgettable exploration of what it feels like to be alive, and a daring act of rebellion against a society that is more comfortable with women’s silence. Praise for Notes to Self “Notes to Self begins as a deceptively simple catalogue of the injustices of modern female life and slyly emerges as a screaming treatise on just what it means to make your own rules, turning the hand you’ve been dealt into the coolest game in town. Emilie Pine is like your best friend—if your best friend was so sharp she drew blood.”—Lena Dunham, #1 New York Times bestselling author of *Not That Kind of Girl* “To read these essays is to understand the human condition more clearly, to reassess one’s place in the world, and to reclaim one’s own experiences as real and valid.”—Sunday Independent “Harrowing, clear-eyed . . . Everyone should consider [this] priority reading.”—Sunday Business Post “Incredible and

insightful—an absolute must-read.”—The Skinny “Agonizing, uncompromising, starkly brilliant. . . . [A] short, gleamingly instructive book, both memoir and psychological exploration—a platform for that insistent internal voice that almost any woman . . . wishes they had ignored.”—Financial Times “Do not read this book in public. It will make you cry.”—Anne Enright

You can often tell how healthy a dog is by the appearance of its coat. Grooming your dog regularly offers clues to her health: It nips potential health problems, like allergies, poor nutrition, parasites, or diseases, in the bud—or at least gives you some early warning about them. Grooming also makes your dog (and you) comfortable socializing whilst also stopping the spread of dirt, fleas, and germs. You can conveniently groom your dog in the comfort of your home. But perhaps the biggest benefit to grooming your dog yourself is strengthening your bond with them. *DIY Dog Grooming, From Puppy Cuts to Best in Show* by Jorge Bendersky, and foreword by Cesar Milan, will show you how to take the best care of your dog, regardless of breed, temperament, or age. Practical step-by-step photos will take you through everything you need to know to bathe and trim your dogs, plus care for their nails, ears, teeth, and more. Learn how to train them to relax and enjoy grooming. "While you can make excuses not to take your dog to the groomer, you have no reason to make excuses for not doing it yourself any longer." -Cesar Millan Inside you'll find: - Simple, step-by-step instructions for everything from bathing to brushing. - Practical solutions to common problems like fleas and ticks, dirt and mud. - Creative suggestions for grooming a picture-perfect dog.

Dog Grooming For Dummies Houghton Mifflin Harcourt

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and

healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Parenting Matters Dogwise Publishing

Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation.

The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. Families Caring for an Aging America examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

Jodi has been well respected as an educator in the grooming industry for many years. She is one of the top pet stylists in the world winning multiple titles included World Grand Champion and Best American Groomer. She is here to share her knowledge in this extraordinary book. With over 190 breeds recognized by the American Kennel Club along with individual breed-specific grooming instructions, it can become very overwhelming for new groomers to retain the information. Straight to the Point is the solution to learning about pattern lines, which simplifies the learning process. Whether the patterns are set tight or left more natural, the patterns are set in the same fashion. Once a groomer understands basic patterns he or she will be able to groom any breed with ease. The dogs pictured in this book are top winning show dogs presenting the correct profile according to their breed standards. Jodi chose to illustrate this way for several reasons. First, a show dog presents an excellent representation of the breed and how it should be groomed per the breed standard. Second, the reader will be able to see the realistic depth and dimensions of the coat. Last, it will give the reader a vision of the pattern in a realistic view and will be a great reference source when grooming each breed. Once the groomer understands correct pattern placement, it can easily be applied to pet trims. A pet dog does not have to be groomed using show techniques, i.e., hand stripping, to present the proper breed profile. With proper pattern placement and techniques described in this text, the groomer will be able to present a well-balanced, well-blended pet trim to the pet owner.

A startling look at the unexpected places where violent hate groups recruit young people Hate crimes. Misinformation and conspiracy theories. Foiled white-supremacist plots. The signs of growing far-right extremism are all around us, and communities across America and around the globe are struggling to understand how so many people are being radicalized and why they are increasingly attracted to violent movements. Hate in the Homeland shows how tomorrow's far-right nationalists

are being recruited in surprising places, from college campuses and mixed martial arts gyms to clothing stores, online gaming chat rooms, and YouTube cooking channels. Instead of focusing on the how and why of far-right radicalization, Cynthia Miller-Idriss seeks answers in the physical and virtual spaces where hate is cultivated. Where does the far right do its recruiting? When do young people encounter extremist messaging in their everyday lives? Miller-Idriss shows how far-right groups are swelling their ranks and developing their cultural, intellectual, and financial capacities in a variety of mainstream settings. She demonstrates how young people on the margins of our communities are targeted in these settings, and how the path to radicalization is a nuanced process of moving in and out of far-right scenes throughout adolescence and adulthood. Hate in the Homeland is essential for understanding the tactics and underlying ideas of modern far-right extremism. This eye-opening book takes readers into the mainstream places and spaces where today's far right is engaging and ensnaring young people, and reveals innovative strategies we can use to combat extremist radicalization.
