This book explores the ways in which Western-derived music connects with globalization, hybridity, consumerism and the flow of cultures. Both as local terrain and as global crossroads, cities remain fascinating spaces of cultural contestation and meaning-making via the composing, playing, recording and consumption of popular music.

Ciao, in questo e-book troverai qualcuno dei più grandi chitarristi della nostra era, ma anche tutte le diversità degli stili musicali che hanno dato alla chitarra il suo prestigio: la grande virtuosità di interpreti classici (come Andrés Segovia

e John Williams) o la potenza creatrice di grandi artisti del rock (come Jimi Hendrix e Eddie Van Halen) o, ancora, la fluidità innovatrice di maestri del jazz (come Charlie Christian, John McLaughlin e Pat Metheny). Troverai anche i pionieri del rock, della musica country, del blues o della world music che hanno fatto la leggenda di questo strumento. Infatti dalla chitarra classica ai virtuosi del rock elettrico, passando per il jazz o il flamenco, la chitarra è senza dubbio divenuta lo strumento più popolare del nostro paesaggio sonoro. Presentando la biografia di ogni artista, con i suoi punti caratteristici e le curiosità legate ai vari chitarristi (quindi NON troverai la classica biografia che d'altronde, trovi abbondantemente in giro su internet: ad esempio di alcuni trovi solo qualche riga

ma con aneddoti e informazioni curiose e interessanti), questo e-book racconta la storia di questi chitarristi d'eccezione o meno, la cui creatività, in ogni caso, ha contribuito a fare la musica di oggi. Pertanto questo è un e-book indispensabile a tutti gli amanti (e non solo) della chitarra, classica, folk o elettrica che sia. Attraverso i chitarristi, poi, si parlerà anche delle chitarre che li hanno accompagnati. Per ovvie ragioni, non sono trattati TUTTI i chitarristi, quindi potresti sicuramente trovare delle mancanze :-)) ma penso tu possa capire che non è possibile parlare di tutti i chitarristi famosi. Non mi resta che augurarti una buona e piacevole lettura! Barbara Polacchi In questo ebook trovi: INTRODUZIONE ALLMAN DUANE (1946 - 1971) ALMEIDA LAURINDO (1917 - 1995)

Skip James (1902–1969) was perhaps the most creative and idiosyncratic of all blues musicians. Drawing on hundreds of hours of conversations with James himself, Stephen Calt here paints a dark and unforgettable portrait of a man untroubled by his own murderous inclinations, a man who achieved one moment of transcendent greatness in a life haunted by failure. And in doing so, Calt offers new insights into the nature of the blues, the world in which it thrived, and its fate when that world vanished.

This book is the first to establish the relevance of same-sex desires, pleasures and anxieties in the cinema of post-war

Italy. It explores cinematic representations of homosexuality and their significance in a wider cultural struggle in Italy involving society, cinema, and sexuality between the 1940s and 1970s. Besides tracing the evolution of representations through both art and popular films, this book also analyses connections with consumer culture, film criticism and politics. Giori uncovers how complicated negotiations between challenges to and valorization of dominant forms of knowledge of homosexuality shaped representations and argues that they were not always the outcome of hatred but also sought to convey unmentionable pleasures and complicities. Through archival research and a survey of more than 600 films, the author enriches our understanding of

thirty years of Italian film and cultural history.

Ancora oggi, a cinquant'anni dalla fondazione, ogni notizia riguardante i Led Zeppelin è in grado di catalizzare l'attenzione degli amanti del rock più di qualsiasi altra. Quasi come se la band fondata da Jimmy Page si fosse sciolta solo dopo il leggendario concerto del dicembre 2007 all'O2 Arena di Londra e non nel lontano 1980. Nonostante sia chiaro a tutti che la loro forza dirompente dipendesse dal contributo di ognuno dei quattro elementi che la componevano, nell'immaginario comune i meriti maggiori vanno invece divisi tra i due maggiori compositori della band. Le dinamiche del rapporto tra Jimmy Page e

Robert Plant assomigliano terribilmente a quelle di altre celeberrime coppie compositive che hanno fatto grande la storia del rock. Come Lennon e McCartney, Mick Jagger e Keith Richards o Roger Waters e David Gilmour, anche Page e Plant, per lungo tempo hanno vissuto quasi in simbiosi, ognuno spingendo l'altro a superare i propri limiti e giungendo spesso a scontri molto accesi. In particolare, quando le cose hanno iniziato a non funzionare più come agli esordi. Non a caso, per rispondere alle continue domande circa il suo rapporto con Plant, Page ha spesso parlato di un vero e proprio matrimonio. Forse perché, se dietro a un grande uomo c'è sempre una grande donna, dietro a un grande chitarrista deve per forza esserci un grande cantante.

THE STORIES BEHIND EVERY STUDIO TRACK FROM THE ONLY BAND THAT MATTERS. Established in 1976 at the fore London's punk rock insurgence, The Clash would outlast their peers while creating some of the most influential albums in rock 'n' roll history. Author Martin Popoff dissects each of the

Clash's ninety-one studio tracks, examining the circumstances that led to their creation, the recording processes, the historical contexts and more. In addition, introductory essays set the scene for the band's six studio releases (including the double LP London Calling and the triple Sandinista!) and feature sidebars detailing studios, release dates, personnel, and more. Illustrated with rare performance and offstage photography, along with images of 7-inch singles sleeves and gig posters, the resulting volume is a fitting tribute to the foursome whose staunch political stance and groundbreaking amalgam of punk, rockabilly, reggae, and hip-hop earned the title "The Only Band That Matters."

Ghosts and spirits populate the world around us. We just need to be sensitive or psychic enough to hear and see them.

In this book, author Paul Roland examines a fascinating assortment of recorded sightings from as far back in history as Roman times. This serious look at ghosts presents them not as

chain-rattling spooks or clouds of cold, swirling mist, but as entities with which we share a greater reality. A comprehensive exploration of the realm of the supernatural, from ghost ships and poltergeists to out-of-body

experiences and the idea of spirits as the manifestation of people still living, The Complete Book of Ghosts will challenge your beliefs and preconceptions as never before.
